

# DETAILED FRONTIER TIMELINE

The following timeline represents the events of the Second Sathar War as I designed them to act as a backdrop to various campaigns I am running. I have a different timeline that runs the PCs through all the game modules in an appropriate order to progress their skill level but that is not this one. This is somewhat of a more fiction-oriented timeline rather than one specifically designed to run PCs through.

One major aspect of this timeline is that I'm using the Knight Hawks rules for interstellar travel, namely that it effectively takes 9 days to make an interstellar jump between systems (ignoring astrogation calculation times). I also make the assumption that if you're not stopping in a system, you only have to spend as much time in that system as the astrogation calculations take as you stay near jump speed during your transit. If you assume 1 day per light year per the original Alpha Dawn rules, it would change the timing of many of these events, possibly significantly.

If you're familiar with the timeline in the Zebulon's Guide to Frontier Space, you'll quickly notice that I don't follow that much at all. I pull some of the names and ideas from Zeb's Guide but the timing and actual events follow my own muse. Additionally, regardless of the source of the events, the exact dates are all my creation.

In the events that follow, I've tried to annotate the source for names, dates, and events if they come from any of the material originally published by TSR. Although I'm not going to annotate the system, planet, and common megacorp names as I assume those are common knowledge. I will also try to annotate any material coming from the Star Frontiersman and Frontier Explorer Fanzines. If you notice that I missed anything, let me know so I can fix it.

Annotations that appear at the end of an entry refer to the entire entry. If it appears in the middle, it applies just to the name that the annotation follows. Each time an annotation first appears, there will be a footnote describing it. I've also added an Appendix listing all the annotation codes. If no particular annotation is associated with an entry you may assume I made the entry up out of whole cloth or extrapolated it from other events specifically for this timeline.

## SECOND SATHAR WAR TIMELINE
