DETAILED FRONTIER TIMELINE

The following timeline represents the events of the Second Sathar War as I designed them to act as a backdrop to various campaigns I am running. I have a different timeline that runs the PCs though all the game modules in an appropriate order to progress their skill level but that is not this one. This is somewhat of a more fiction-oriented timeline rather than on specifically designed to run PCs through.

One major aspect of this timeline is that I'm using the Knight Hawks rules for interstellar travel, namely that it effectively takes 9 day to make an interstellar jump between systems (ignoring astrogation calculation times). I also make the assumption that if you're not stopping in a system, you only have to spend as much time in that system as the astrogation calculations take as you stay near jump speed during your transit. If you assume 1 day per light year per the original Alpha Dawn rules, it would change the timing of many of these events, possibly significantly.

If you're familiar with the timeline in the Zebulon's Guide to Frontier Space, you'll quickly notice that I don't follow that much at all. I pull some of the names and ideas from Zeb's Guide but the timing and actual events follow my own muse. Additionally, regardless of the source of the events, the exact dates are all my creation.

In the events that follow, I've tried to annotate the source for names, dates, and events if they come from any of the material originally published by TSR. Although I'm not going to annotate the system, planet, and common megacorp names as I assume those are common knowledge. I will also try to annotate any material coming from the Star Frontiersman and Frontier Explorer Fanzines. If you notice that I missed anything, let me know so I can fix it.

Annotations that appear at the end of an entry refer to the entire entry. If it appears in the middle, it applies just to the name that the annotation follows. Each time an annotation first appears, there will be a footnote describing it. I've also added an Appendix listing all the annotation codes. If no particular annotation is associated with an entry you may assume I made the entry up out of whole cloth or extrapolated it from other events specifically for this timeline.

SECOND SATHAR WAR TIMELINE

This part of the timeline, while it mentions the departure of the First Volturnus Expedition for reference, really starts with the departure of the Second Volturnus Expedition and proceeds through the end of the Second Sathar War. Dates (in the FY column) are given in YY.DDD format where YY is the Federation Year and DDD is the day of the year.

FY	Event
59.042	First Volturnus expedition (SF01)
59.346	Second Voltrunus expedition (SF0)
59.347	Jack Legrange murdered on Kraatar. Rioting breaks out in Gozzorf City. (Fulborn-McKoy

² SFAD6 – Dark Side of the Moon module

FY	Event
59.348	Broadcast claiming responsibility for the Lagrange murder by the Vrusk Protection Force is
	released. (SFAD6)
59.349	Vist'Lat, the employer of Legrange's assassins, fires and forcibly evicts all Human workers
	from corporate offices and housing. (SFAD6)
59.350	Medical Services Organization issues an alert that Ixiol, a new drug previously confined to
	Inner Reach, has begun appearing in other systems in the Frontier. Users develop a deep
	yellow tinge to their skin or carapace. (SFKH1¹)
59.351	Strike Force Nova arrives in the Prenglar system for its annual maintenance and refit. The force Nova arrives in the Prenglar system for its annual maintenance and refit.
	UPFS Admiral Clinton moves immediately into drydock for maintenance. It will be tied
	up for 26 days.
	Vist'Lat expelled from the Commercial Council on Kraatar - "The council feels that much of the ground to the council feels that much
	of the recent unrest can be attributed to VL's policies. Its latest move to sack its human
	workers and evict them from their homes in untenable. The council cannot condone or
59.352	accept this behavior." (SFAD6) Funeral announced for Jack Legrange to occur in 6 days (59.358) (SFAD6)
59.353	Vist'Lat shuts down all spaceport operations effectively cutting Kraatar off from the rest of
33.333	the Frontier. (SFAD6)
59.354	Contact lost with second Volturnus expedition. Suspected pirate activity in the Zebulon
33.334	system. Pale government officials begin investigation into possible leak of jump data. (SF0)
59.355	Rumors leak about a secret Spacefleet starship research and training center in an
	"unexplored" system within the Frontier.
59.356	Attack by KLC troops on monorail headed to Quazzt's Depression where Legrange's
	funeral is to be held. Train crashes. Rescue teams dispatched. (SFAD6)
	Legrange's funeral moved forward and held today. Body is cremated, not a common
	practice on Kraatar (SFAD6)
59.357	Survivors of train crash arrive in Quazzt. (SFAD6)
59.358	WarTech unveils its new line of "Ke" laser weapons (ZG²) to be available in the new year.
59.359	Missile launched from Kraatar's moon, Setarz. It self-destructs en route. (SFAD6)
59.360	Information released by the Kraatar government reveals that the missile contained a bio-
	weapon designed to kill all vrusk on the planet. Also revealed is that Jack Legrange is still
	alive and orchestrated the unrest on Kraatar and faked his death. Unfortunately, the team
	that was able to stop the missile and gather the information were not able to capture
59.361	Legrange and he is currently at large. (SFAD6)
23.301	Based on information obtained from Artemis Base, Ral'Ik'Ka security forces stop a planned uprising by the KLC on the surface of Kraatar. The planet returns to an uneasy peace.
	(SFAD6)
59.362	Astronomers on Histran (Scree Fron system), release news of the discovery of a previously
	unknown brown dwarf approximately 100ly from the Frontier. Its motion indicates that it
	had a close encounter with a K4 star some 175 years ago. Initial news of the discovery is
	quickly suppressed by the Family of One. (SFMan³ #16)

FY	Event
59.363	Sathar cybernuk creature (FE #6) discovered on Pale with cyber implant. It was thought
	that the nuks were confined to New Pale. The cyber implant seems to be of recent
	construction and not a relic from the war. (NCW¹)
59.364	Pan Galactic unveils a new "Thunder" line of hoverbikes with nods to early PGC models.
	Old-time bike enthusiasts praise the antique styling coupled with modern safety features
	but others complain that the bikes live up to their name and are too loud.
59.365	TransTravel's newest luxury starliner, the TTSS Destiny, emerges from the starship
	construction center at Gran Quivera. It will begin a "Grand Tour of the Frontier" starting
	with a run to Truane's Star in a few days. (NCW)
59.366	New breed of quickdeath discovered on Pale. Descended from creatures released during
	the Great Sathar War, this new variant is smaller but travels in packs unlike the solitary or
	pair hunters of the original strain. (NCW)
59.367	With both Strike Force Nova and Task Force Prenglar in the Prenglar system, Spacefleet
	begins a series of training exercises to last until the UPFS Admiral Clinton completes its
	refit.
59.368	An enclave of sathar, ostensibly survivors from the Great Sathar War, found and
	eliminated on Pale. Based on intelligence gathered, it is believed that there may still be
	other enclaves on the planet. Citizens are warned to be alert. (NCW)
59.369	Initial investigation of the "Kraatar Incident" completed. Those responsible for the severe
	Vist'Lat actions shown to be under some sort of cybernetic control by Legrange. Vist'Lat
	cleared and restored to Commercial Council. (SFAD6)
59.370	The Streel interstellar shuttle, SCSS Laco Purveyor, shot down while landing on Pale. Origin
	of blast unknown. A skirmish over the downed shuttle results in over a dozen mercenaries
FO 271	dead but no loss of Streel forces or the injured shuttle crew. (NCW)
59.371	News from investigations on Pale indicate that the new breed of Quickdeath (EF ²) was bred by local, long-time exotic creature supplier and bounty hunter, Trey Mulden (EF), for
	unknown reasons. Mulden's location is currently unknown. If seen, call Star Law
	immediately. (NCW)
59.372	Several research institutions and zoos across the Frontier, expecting quickdeath shipments
33.372	from Mulden, received multiple examples of the new variety. Forewarned of potential
	issues, most were contained but word had not yet reached Clarion and one handler was
	severely injured trying to contain the unexpected extra creatures. (NCW)
59.373	Despite efforts of the Family of One (FoO), data on the newly discovered brown dwarf is
	now available. The FoO reaction to the news fuels speculation that the K4 star is Yazira, the
	"lost" yazirian home system.
59.374	The Cassidine Development Corporation's new prototype paramilitary freighter, the CDCSS
	Nightwind (FE #1), goes missing on its maiden voyage. (AR3)
59.375	A small freighter, operating under a Streel charter, is attacked and destroyed in the Dixon's
	Star System. Crew escapes in lifeboats and are rescued. Streel claims attack was by PGC
	vessels. (NCW)
59.376	StarPlay releases the newest holovid movie in the Hawc, Star Law Ranger franchise.
59.377	UPFS Admiral Clinton completes its refit. As the remaining ships in SF Nova come out of
	refit over the next two days, the strike force prepares for another tour of the Frontier.

FY	Event
59.378	The governments of Kawdl-Kit (K'tsa-Kar) and Ken'zah-Kit (K'aken-Kar) sign a mutual trade
	and defense agreement. It is expected that the Zik-Kit (Kizk'-Kar) government with join the
	trade alliance in the nearfuture.
59.379	The General Overall Development Corporation unveils the Yazira Dome on Hentz. This
	massive, 100 square kilometer habitat is claimed to enclose a biome identical to that on the lost Yazirian homeworld.
59.380	Strike Force Nova, after completing a long refit in Prenglar, departs for a tour of the vrusk
39.360	loop of the Frontier. First stop, Cassidine.
59.381	Spacefleet dispatches several ships (1 AC, 8 F, 2 LC, 2 DD, & 2 AS), designated Patrol Group
	Virgo, from Prenglar to Dixon's Star to help put a dampener on rising Streel-PGC hostilities.
59.382	A Vrusk-owned shopping complex on Kidikit (Madderly's Star) is destroyed by the
	explosion of several bombs. Many beings injured but no fatalities. The Kraatar Liberation
	Corps (SFAD6) claims responsibility. There is concern over rekindling the Free World
FO 202	Rebellion (ZG) tensions.
59.383	Despite budget delays and squabbling over the need for upgraded defenses, Fortress Kidikit (Madderly's Star) reaches the 75% complete milestone.
59.384	Tensions in Dramune on the rise as Outer Reach industries continue to ignore and violate
	Inner Reach trademarks and patents.
59.385	Astronomers on Hargut (Gruna Goru) claim to have detected artificial signals from a
	system several light years beyond the Frontier. They begin organizing a petition to request
	that the UPF send and exploration mission.
59.386	Galactic Task Force mercenaries, working under PGC direction, attack three Streel
	archeology sites on Laco. Two are captured while the third is successfully defended by
	Streel personnel. Streel personnel at the captured sites are not harmed but evicted from
59.387	the sites. (NCW) Glass Pyramid on Laco begins glowing with an unidentifiable energy source. After 20
33.367	minutes of increasing brightness, it releases a beam of energy nearly vertically. Beam
	consists of both electromagnetic energy across the full spectrum and subspace signals.
	(NCW)
59.388	Unmarked Streel ships attack the KSS Dawn's Glow hijacking cargo. Crew is left on
	immobilized ship to effect repairs and await rescue. (NCW)
59.389	Subspace signal from Great Pyramid received in sathar space.
	• SF Nova arrives in Cassidine. It will be in system for 9 days exercising with Task Force
	Cassidine.
	A raid on a PGC dig site by unknown forces results in one dead and one PGC scientist
	captured. The PGC scientist, a former Streel employee, is later released and identifies
59.390	 the assailants as Streel employees. (NCW) A message, transmitted by an artifact left on Volturnus (Zebulon) (SF1¹), is received at a
33.330	• A message, transmitted by an artifact left on Volturnus (Zebulon) (SF1¹), is received at a sathar listening post alerting then to the space-faring activity in the Zebulon system and
	the detection and penetration of the artifact by technologically advanced races.
	A subspace message is received on Pale from the presumed lost Second Volturnus
	Expedition explaining the sathar and pirate presence in the Zebulon system and
	warning of imminent attack from sathar forces. Immediate assistance is requested.
	(SF1)
	PG Virgo arrives at Laco and takes up patrol duties around the system.

 $^{\mathrm{1}}$ SF1 – Volturnus, Planet of Mystery module

FY	Event
	A raid on a PGC records vault on Laco results in the loss of all backup data related to the
	Glass Pyramid activation. Suspected corporate espionage by Streel but no concrete
FO 201	proof exists. (NCW)
59.391	Streel sub-orbital shuttle shot down on Laco. Assault scouts from PG Virgo are sent to investigate. Injured crew taken to Tyrell's Landing. (NCW)
59.392	Fighting breaks out between PGC, Streel, and CDC forces near the site of the downed
03.03_	shuttle over a newly discovered Tetrarch ruins site on Laco exposed by a recent landslide. (NCW)
	After several days of discussion, the sathar decide to send a "cleansing" fleet to
	Volturnus.
59.393	After deliberations between the Pale Government and the Council of Worlds about the
	message from the Zebulon system, UPF Patrol Group Virgo cuts its time in Dixon's Star
FO 204	short and departs Laco for the Truane's Star System on its way to Zebulon.
59.394 59.395	Sathar attack fleet (1 AC, 8 F, 2 HC, 2 LC, 6 DD, & 2 FF) depart sathar SCC#5 for Volturnus Subspace signal received at Laco from unknown location in Sathar space. Images appear in
33.333	the great pyramid showing a similar complex on a warm, swampy world with a large
	number of sathar and a bipedal insect race (Zuraggor) working around the complex.
59.396	Despite efforts to keep the images contained, news and clips of the images race across the
	Frontier on the subspace network. Scientists, politicians, and the general populous
	speculate as to the cause and meaning.
59.397	A new group, calling themselves the Anti-Satharian League (ZG), stage demonstrations on
	the major population centers of the Frontier and at the Council of Worlds, broadcasting
	excerpts from the Laco pyramid images and demanding increased military buildup for
59.398	Spacefleet. Completing its time in the Cassidine system. SE Neva departs Triad for the Dramune.
23.330	Completing its time in the Cassidine system, SF Nova departs Triad for the Dramune system to spend some time cooling rising tensions between Inner and Outer Reach.
59.399	A CDC scout ship, the Twilight Moon, returns from charting a jump route to the Rhianna
33.333	system. Due to preliminary geological findings, CDC decides to keep the route a secret and
	establish a mining outpost on the planet Alcazzar. (SF4¹)
59.400	Most businesses across the Frontier close a day early in anticipation of the big Founding
	Day celebrations tomorrow, allowing citizens and organizations some extra time to
	prepare.
60.001	UPF Founding Day celebrations occur on most planets across the Frontier to celebrate 6
	decades of peace. However, there is a subtle undercurrent of concern due to the
	recent events on Laco. The first new sathar ship that will be committed to the coming conflict, a destroyer,
	emerges from Sathar Starship Construction Center (SSCC) #2, located in the as of yet
	unexplored (and unnamed) FS30 (SFKH3²) system.
60.002	In wake of the Founding Day celebrations, the Frontier Peace Organization hold a rally
	outside the Council of Worlds headquarters demanding a reduction in Spacefleet and
	Landfleet operations. Some small altercations occur with members of the Anti-
	Satharian League.

FY	Event
	Observance Day on Clarion (White Light) commemorates all who have fallen defending the system through history. This year it also continues the UPF Founding Day celebration on the planet for an extra day.
60.003	UPF PG Virgo, together with the Pale militia (a frigate and 3 assault scouts), depart for the Zebulon system. Streel additionally sends a frigate, 4 corvettes, and 3 assault scouts to assist.
60.004	Council of Worlds reconvenes for its 60th session. Initial topics of debate include events on Laco and Zebulon and their implications for the future of the Frontier.
60.005	Fighting breaks out between Frontier Peace Organization and Anti-Satharian League supporters outside the Council of Worlds headquarters. Local police have to resort to doze and tangler grenades and stun weapons to break up the fighting. Over 4 dozen beings detained.
60.006	Sathar SSCC#4, near Fromeltar and Klaeok, completes construction of a light cruiser and 4 fighters.
60.007	SF Nova arrives in the Dramune System. It will remain in system for 15 days as a show of force to help quell rising tensions between Inner and Outer Reach
60.008	Laco artifacts taken from the PGC chartered freighter, KSS Dawn's Glow, anonymously arrive at the Triad Institute of Technology (TriTech) and are delivered to their originally intended recipients. (NCW)
60.009	The Sathar cleansing fleet arrives in the Zebulon system and begins decelerating towards Volturnus. (SF21)
60.010	The UPF fleet arrives in the Zebulon system and begins decelerating toward Volturnus and the sathar fleet. (SF2)
60.011	A small freighter, the KKSS Trader's Gambit, misjumps travelling from K'aken-Kar to K'tsa-Kar and ends up in the Sundown system. Damaged engines force the crew to look for a planet to land on to effect repairs. (SF3 ²)
60.012	 Battle of Volkos - Sathar ground troops advance on the ruins of the Eorna city of Volkos. A rag-tag army, composed of members of Volturnus's native races and lead by members of the TSES Second Volturnus Expedition, manage to hold off the invaders. (SF2) Battle of Zebulon - UPF forces engage the Sathar fleet around Volturnus. Although the UPF forces are mostly smaller vessels, the sathar are driven off with only a frigate, 2 destroyers, and a heavy cruiser surviving. UPF losses were 1 UPF LC and AS, 1 Streel Corvette, and 1 militia AS (SF2)
60.013	News of defeat at Zebulon reaches sathar space. Clan infighting begins around debate of invasion and who should lead assault. This will continue for several months. At the same time all the clans begin building up their military.
60.014	 News of victory over sathar forces in the Zebulon system announced across the Frontier to mixed reaction. Performance of the Assault Scout in its first major engagement with sathar forces is deemed a success. Pale militia and Spacefleet given priority at the Pale and Gran Quivera starship construction centers to replace vessels lost in the battle at Zebulon.
60.015	The KKSS Trader's Gambit sets down on the planet Starmist in the Sundown system. (SF3)

¹ SF2 – Starspawn of Volturnus module

² SF3 – Sundown on Starmist module

FY	Event
	Having effected repairs from the battle with the sathar, the Pale militia and Streel ships depart Volturnus (Zebulon) to return to Pale (Truane's Star) while the UPF forces remain on patrol.
60.016	 The Anti-Satharian League stages demonstrations on Pale, Gran Quivera, Triad, and Clarion demanding increased militarization and growth of Spacefleet The navigator and second master of the KKSS Trader's Gambit, Maximillian Malligigg, makes contact with an intelligent race, the Heliopes, on the planet Starmist (Sundown). (SF3)
60.017	Leotia (SFKH0¹) Valentine Leotus, crown princess of Clarion (White Light), celebrates her 32nd birthday (18.5 earth years)
60.018	A listening station in the Kazak system in the Rim detect faint signals of sathar ships in the outer system. Flight vessels are dispatched to investigate.
60.019	Repairs completed, the KKSS Trader's Gambit leaves Starmist to attempt to return to charted Frontier space. (SF3)
60.020	The Flight vessels in Kazak arrive at the location of the sathar signals but find nothing more than a faint indication that ships had passed through the area days before. Two ships are left on station while the rest return to base.
60.021	Winter begins in earnest on Alcazzar, delaying the start of CDC operations on the planet. The corporation hopes that this delay will throw off any competitor's interest in the mineral rich system. (SF4)
60.022	SF Nova departs the Dramune system for the Fromeltar system
60.023	 The KKSS Trader's Gambit successfully jumps back to the K'tsa-Kar system. The Pale militia arrives back home from the Zebulon system.
60.024	Scouting through the Zebulon system, a UPF frigate and assault scout find an ancient vessel in a distant solar orbit. Investigation reveals it to contain a cache of cryogenically stored Eorna eggs. If still viable, the eggs will secure the survival of that species. (SF3)
60.025	Delegates from the Pale militia are dispatched to testify at the Council of Worlds regarding events on Volturnus.
60.026	Envoy delegation from the Council of Worlds is dispatched from Gran Quivera (Prenglar) to go to Volturnus (Zebulon) to meet with the races of that world.
60.027	The KSS Trader's Gambit arrives at Kawdl-Kit (K'tsa-Kar).
60.028	Maximillian Malligigg has a piece of fused metal he found on Starmist analyzed and learns it is the result of nuclear fusion. He begins securing funds to purchase a ship and return to Starmist in advance of an official expedition. (SF3)
60.029	Members of the Second Volturnus Expedition raid a small outpost discovered in the logs of Slave City One that was a hideout for the Star Devil. While the Star Devil was not there, valuable information about the Star Devil's dealings in the Frontier are uncovered.
60.030	Worried about the events in the Zebulon system, the Rim Coalition increases spending for the Flight by 50%. Delegation dispatched to the Council of Worlds from Faire (Capella) to encourage that the Frontier take the Sathar threat seriously.
60.031	 The remnants of the sathar's Zebulon fleet reaches sathar space arriving at the system containing sathar starship construction center#5 Another destroyer is completed at the sathar starship construction center in the FS30 system.

 1 SFKH0 - Warriors of White Light module

FY	Event
60.032	Contestants, spectators, and reporters gather on Hum (Fochrik) for the annual Humma
	Jump Competition. Speculation is high that the current record in the standing long jump
	event of 38.272 meters will be surpassed this year.
60.033	Universal Households unveils its new fashion line at its annual show on Hakosoar (Scree
	Fron) which is transmitted via subspace radio to all systems in the Frontier. Products
	immediately go on sale across the Frontier as competitors race to match the new style.
60.034	After two days of competition, Zonuul Usu of Larg (Fochrik) wins the Humma Jump
	Competition with a jump of 38.275m, beating the previous species record by 3 millimeters.
	Two others beat the previous record in the final round of competition but lost to Zonuul.
60.035	SF Nova arrives in Fromeltar system; it will be in system for 4 days
60.036	Initial examinations reveal that the Eorna egg cache does in fact contain viable eggs. While
	overjoyed that they no longer face extinction as a species, concerns about the societal
	impact of introducing the new Eorna are raised. (SF2)
60.037	Synthetics Corporation announces a new brand of sports drink that provides the necessary
	electrolytes for all Frontier and Rim races. Included in the line is a "Hyper Humma"
	variation with 10x the flavor enhancers to appeal to their deadened sense of taste. It
	quickly becomes a point of bravado for members of the other race to attempt to consume
	the "Hyper Humma" variations.
60.038	Interplanetary Industries CEO Harlon Thow spotted wearing a never before seen style of
	toxy-rad gauge that is slimmer and more compact than previous styles. Rumors circulate
	that it is a new device soon to be released by the company.
60.039	In its first 60 days of operation, the Yazira Dome has had over 1 million visitors, mostly
	inhabitants of Hentz (Araks). Many across the Frontier denounce the Family of One for not
	allowing non-yazirian visitors to the planet and the Dome.
60.040	Sathar vessels are dispatched from the FS30 system toward a staging area somewhere
	near the Frontier.
60.041	Sathar Clan Z vessels, previously in route to sathar starship construction center #3 are
	diverted by clan leaders toward Kizk-Kar.
60.042	Sathar forces, operating in Saurian (DM103¹) space, launch simultaneous assaults against
	saurian forces in the Tischen (FE004) and Dayzer (FE004) systems.
60.043	Several Streel compounds on Laco (Dixon's Star) are captured by Galactic Task Force teams
	and Streel employees are forced to evacuate and return to the Streel headquarter
	compound in Tyrell's Landing.
60.044	SF Nova departs Fromeltar for Kizk-Kar
60.045	The Rim delegation arrives on Pale (Truane's Star) for a short stopover to meet with the
	Pale government about the sathar situation.
60.046	Another destroyer is completed in the SCC in the FS30 system.
60.047	Pale militia delegation testifies before the Council of Worlds on Gran Quivera (Prenglar) as
	to the events of the Battles of Zebulon and Volturnus. Debate and deliberation on the
	need for increased military buildup continues.
60.048	Rim Coalition delegation departs Pale (Truane's Star) to continue on to Gran Quivera
	(Prenglar) to meet with The Council of Worlds

 $^{1}\,\mathrm{DM}-\mathrm{Dragon}\,\,\mathrm{Magazine}.$ The number specified is the issue number of the magazine.

FY	Event
60.049	Based on information obtained from the Star Devil lair on Volturnus (Zebulon), the Pale
	government raids and seizes assets from several business connected with the Star Devil
	pirate organization.
60.050	SF Nova arrives in Kizk-Kar. Will be in-system for 8 days
60.051	Several PGC vessels, just arriving in the Dixon's Star systemen route to Laco are destroyed
	by unknown vessels.
60.052	PGC representatives appear before the Council of Worlds requesting Spacefleet aid to
	protect their vessels in the Dixon's Star system from suspected Streel aggression.
60.053	Proving the rumors correct, Interplanetary Industries announces a new line of wearable
	monitoring devices including a new toxy-rad gauge matching the one spotted on CEO
	Harlon Thow several days earlier. The new line boasts extended battery life and greater
CO 054	accuracy in a smaller package.
60.054	Waiting for decisions from the Council of Worlds and Spacefleet, PGC dispatches several
	vessels from Gran Quivera (Prenglar) to Dixon's Star to serve as a corporate militia in the system.
60.055	Sathar SCC#3, near Kizk-Kar, completes production of a frigate.
60.056	The small raid (1 LC, 2DD) launched by Clan Z arrives in Kizk-Kar system. With SF Nova in
00.000	system, the UPF ships soundly defeat the sathar ships in the first official battle of what will
	come to be called the Second Sathar War. SF Nova extends its stay in the system for an
	extra 7 days.
60.057	Council of Worlds envoys arrive at Volturnus (Zebulon) to meet with leaders of the various
	native races.
60.058	• In wake of the recent sathar attack and activity, the Zik-Kit (Kizk'-Kar) government joins
	the trade and defense alliance with Kawdl-Kit (K'tsa-Kar) and Ken'zah-Kit (K'aken-Kar)
	News of the failed raid on Kisk-Kar reaches sathar space. The premature action and its
	failure curries disfavor and Clan Z falls out of favor, losing any chance to leading the
	attack on the Frontier.
60.059	Careful examination of the Eorna eggs has determined that they are, in fact, viable. Eorna
	on Volturnus (Zebulon) celebrate and declare the day of discovery to be known as the Day
60.060	of Life to be remembered just as the Day of Doom. Members of the Second Volturnus Expedition depart Volturnus to return to Pale.
60.061	Sathar SCC in the FS30 system completes construction of half a dozen fighters.
60.062	Rim Coalition delegation arrives at Gran Quivera (Prenglar).
60.063	Sathar vessels from the FS30 system arrive at the staging area to await assignments.
60.064	Rim delegation begins meeting with the Council of Worlds to discuss the sathar situation
	and the mutual defense of the Frontier and Rim.
60.065	Supplies intended for Fortress Kdikit in Madderly's Star are stolen/destroyed by pirates
	while in route to the construction site.
	SF Nova departs Kisk-Kar for the K'aken-Kar system.
60.066	After several space battles, sathar forces overcome the saurian defenses in the Dayzer
	system and bombard New Kischen (FE004) obliterating the saurian settlements on the
	planet.
60.067	The first of Spacefleet's Talnor-D (FE004) communication ships, the UPFS Nexus, emerges
	from the shipyard at Gran Quivera (Prenglar). It begins a 30-day shakedown cruise with
	Task Force Prenglar.

FY	Event
60.068	Sathar forces in the Tischen system finally overcome the saurian defense forces and launch
	a planetary bombardment of Kzz-ten (FE004) destroying the settlements on that planet.
	The defense of both the Tischen and Dayzer systems have put a serious dent in the sathar
	resources for the campaign, buying the saurians some time to bolster Sauria's (FE004)
	defenses and work to complete the Great Ark project.
60.069	Second Volturnus Expedition members arrive back at Pale to a hero's welcome and receive
60.070	recognition for their work in repelling the sathar attacks in that system.
60.070	Sathar agents in the Frontier begin stepping up activities, especially focused on military
	and technological sabotage.
	• An anti-Streel group, funded by sathar agents, strike at the Streel SCC around Pale,
	reducing capacity by 63% while repairs are made. Several ships under construction are
60.071	damaged but the militia Assault Scout miraculously escapes unscathed.
60.071	Two small flights of three Saurian Battle Rays (FE004) each are dispatched to investigate
60.072	the state of the Tischen and Dayzer systems and determine the strength of sathar forces. CEO of Streel, Hilo Headrow (ZG) signs deal with his friend from the Great Sathar War,
00.072	Esper Henshaw (ZG), CEO of MerCo, for MerCo to supply several teams to increase the
	security at the Streel starship construction center orbiting Pale (Truane's Star) while Streel
	investigates the source of the recent attack.
60.073	SF Nova arrives in the K'aken-Kar system and will remain in system for 8 days.
60.074	Initial damage assessment of the Pale (Truane's Star) starship construction center reveals
	that the damage was not as extensive as originally thought. Materials and equipment
	shuttled up from the surface quickly bring production capacity back to 58%. Work begins
	to restore full capacity.
60.075	A mountaineering survival team, calling themselves the Spire Dragons, begin their attempt
	to traverse coast to summit and climb Mt. Spire (Lossend, Timeon) (ZG) completely on
	foot. The team consists of members of all seven Frontier and Rim species with the goal
	that a member of each species will reach the top of the Frontier's highest peak.
60.076	Medical Services Organization issues another alert about the drug Ixiol, stating that the use
	of the drug on Triad (Cassidine) has reached dangerous levels and is impacting work and
	economic activity on the planet. They call for the Council of Worlds and Star Law to
60.077	 investigate the production and trade of the drug. An independent freighter in the Gruna Garu system claims sighting of an unknown
00.077	vessel, roughly the size of a light cruiser bearing UPF markings but not matching any
	known UPF vessel type.
	Spacefleet dismisses the sighting as inaccurate claiming no vessel of that type in its
	inventory and dispatch a small patrol group (a frigate and 2 assault scouts) from
	Prenglar to investigate.
60.078	Maximillian Malligigg takes possession of the VSS Last Legs, a small freighter, and with a
	small crew and scouting party leaves for Starmist. (SF3)
	Sathar reinforcements arrive in the Tischen system.
60.079	Members of the Second Volturnus Expedition summoned to the Council of Worlds to
	testify of events on Volturnus (Zebulon) leading to the Battle of Volkos
60.080	Sathar reinforcements arrive in the Dayzer system.
	Saurian scout ships arrive in the Tischen and Dayzer systems and begin to probe the
	systems while avoiding sathar forces.
60.081	SF Nova departs K'aken-Karfor the K'tsa-Karsystem.

FY	Event
60.082	After months of fundraising, a new organization, The Yazira Heritage Foundation,
	purchases and begins refitting a small vessel to use as an exploration ship. Their goal is to
	reach the star that rumors claim is Yazira.
60.083	Sathar launch a probing raid into the Sauria system to test saurian defenses. The two-
	destroyer task force is quickly destroyed by a wing of saurian Battle Rays.
60.084	After several days of probing, the saurian Battle Rays begin their return to the Sauria
	system.
60.085	Initial repairs begun on the Pale (Truane's Star) starship construction center. Capacity is
	increased to 60% of its original value.
60.086	After nearly a month of meetings on Volturnus (Zebulon), the Council of Worlds declares
	the planet to hold protectorate status but not full membership. It is deemed that the Eorna population is too small while the other races are not advanced enough for full
	membership.
60.087	The VSS Last Legs arrives at Starmist. Maximillian and the scouting party make contact
00.007	with the planet's natives. (SF3)
60.088	Patrol Group Wisdom arrives in the Gruna Garu system and begins investigating the
	sighting of the unidentified vessel with Spacefleet markings.
60.089	Maximillian Malligigg is captured and taken prisoner by the priests of the Heliope village.
	(SF3)
60.090	Sathar robots, shaped like Heliopes, attack the Heliope village causing destruction of
	many of the buildings. The village temple is partially burned, revealing an alien war
	tank concealed inside. (SF3)
	SF Nova arrives in the K'sta-Kar system and will remain in system for 12 days.
60.091	While Maximillian and the scouting party are examining the war tank, sathar robots
	attack the village again. Driving the robots off, they follow them in the tank. (SF3)
	The sathar starship construction center in the FS30 system completes another
60.000	destroyer.
60.092	The retreating robots lead the scouting party to a sathar base. Infiltrating the base, they
	discover it is mostly abandoned and defeat the remaining sathar and agents in place.
60.093	However, the base is destroyed by an automated self-destruct system. (SF3) Saurian Battle Rays arrive back in the Sauria system from scouting the Tischen and Dayzer
00.033	systems.
60.094	The alien war tank on Sundown (Starmist) begins behaving erratically and alarms and lights
	begin to flash. 30 minutes later it self-destructs in a small nuclear explosion. (SF3)
60.095	Maximillian and survivors of the scouting party leave Sundown (Starmist) to return to
	K'sta-Kar on the VSS Last Legs. (SF3)
60.096	The TTSS Destiny arrives back in Prenglar after touring the western half of the Frontier,
	visiting Truane's Star, Dixon's Star, and all the yazirian systems (Gruna Garu, Araks, Scree
	Fron, & Athor). Replenishing supplies, it prepares to continue its Grand Tour.
60.097	CDCSS Nightwind turns up in the White Light system under the name TSS Star's Gift. CDC
	immediately dispatches a team to recover the ship. (AR)
60.098	Having completed its shakedown cruise, the UPFS Nexus begins a high-speed run to join up
	with Strike Force Nova.
60.099	Fortress Kdikitt (Madderly's Star) reaches the 80% completion mark. Behind schedule and
	due to the increased sathar activity in the Frontier, the UPF places a priority on operational
	security and getting the fortress completed.

FY	Event
60.100	After months of work, a petition with over 100,000 names is submitted to the Council of
	Worlds demanding investigation of signals detected from Hargurt in a system just beyond
	the Frontier in the direction of the Vast Expanse. In the intervening months, signals have
	been detected multiple times from the system.
60.101	Second Volturnus Expedition members testify before the Council of Worlds about events
60.402	on Volturnus (Zebulon) leading to the Battle of Volkos.
60.102	• The first of a new class of sathar vessels, the cutter, functionally modeled on the assault scout, is completed at the sathar starship construction center near Zebulon.
60.103	SF Nova departs K'sta-Karfor the White Light System After months of deliberation, the Council of Worlds votes to increase Spacefleet spending
00.103	by 10% allowing for the commissioning of several new vessels.
60.104	After many days of debate, the decision is made to abandon the Tischen and Dayzer
	systems in face of the sathar forces there and focus all efforts on defending Sauria and
	completing the Ark program (FE004).
60.105	The TTSS Destiny departs Gran Quivera (Prenglar) for the Timeon system to continue its
	Grand Tour of the Frontier. Over 100 passengers have been on the ship for the entire tour
	and intend to visit every system.
60.106	CDC team arrives in the White Light System from the Theseus system to attempt to reclaim
	the CDCSS Nightwind (AR).
60.107	Assault scout completed at the Gran Quivera (Prenglar) starship construction center to
	replace the UPF vessel lost at the Battle of Zebulon
60.108	After over a month of struggle through the jungles, the Spire Dragons reach the foothills of
	Mount Spire and establish a base camp. Several members of the expedition have perished along the way and people question the wisdom of their approach.
60.109	A new assault scout is completed at the Pale starship construction center to replace the
00.103	militia vessel lost at the Battle of Zebulon
60.110	UPFS Nexus arrives at Clarion (White Light) to await the arrival of SF Nova and spends the
	day training with the White Light Militia.
60.111	SF Nova arrives at Clarion in the White Light system and is joined by UPFS Nexus. It will
	remain in system for 19 days.
60.112	After sneaking onboard just before the ship departs, the CDCSS Nightwind is recaptured by
	the CDC operatives and the former employees responsible for assisting in its
60.442	disappearance are captured. The ship begins its way back to corporate headquarters.
60.113	After a long and detailed search of the Gruna Garu system by Patrol Group Wisdom, no
	evidence is found of the mysterious vessel. The patrol group departs the system to return to Prenglar.
60.114	Attempt is made (but fails) to sabotage Gollwin Academy. Four Spacefleet cadets killed
00.114	fighting with saboteurs in the fight to prevent destruction of the station.
60.115	The sathar starship construction center near Kizk-Kar completes construction of a heavy
	cruiser.
60.116	After nearly a year of investigation and undercover work, agents of the Pale government
	infiltrate and disrupt a major Star Devil operation in the outer reaches of the Truane's Star
	system. Several vessels are seized including a frigate and pair of assault scouts which are
	added to the militia's roster.

FY	Event
60.117	The first of the saurian Ark ships is completed in orbit around Sauria. While initial testing is
	completed by the ship's command crew, the colonists to depart on the ship begin
	assembling on the planet with all of their supplies.
60.118	The first creche of 50 Eorna born from the recovered egg ship are hatched. All of the new
	babies are heathy and appear to be free for any serious defects. Representing a 33%
	increase in the existing Eorna population, there is cautions excitement about the prospect
20.110	for the future of the race.
60.119	Saboteurs strike against the exploration ship being refitted by the Yaziria Heritage
	Foundation damaging it but not destroying it, setting back their efforts. The Foundation
60.120	suspects the Family of One to be behind the attack. After months of debate and wrangling, Clan X is given control of the current campaign
60.120	against the Frontier. Clan Y continues to head the campaign against the Saurians.
60.121	The CDCSS Nightwind arrives in the Madderly's Star System on its way back to Cassidine.
00.121	The ship needs to lay over in the system for several days to complete overhauls on its
	engines.
60.122	After 14 days of climbing, the Spire Dragon mountaineering team has found a location one
	quarter of the way up Mt. Spire where they establish their first forward camp. Work
	begins hauling supplies up from the base camp while parts of the team continue the
	ascent.
60.123	Unknown assailants waylay the crew of the CDCSS Nightwind on their last day on station
	Kdikit. While several of the crew are injured, none are killed. The assailants are not so
	lucky and those that are captured are turned over to station authorities for questioning.
	The Nightwind gets underway for Cassidine
60.124	Beginning of year 2898 on Hum (Fochrik).
60.125	The CDCSS Nightwind is attacked by a pair of assault scouts as it makes its way out of the
	Madderly's Star system. Too far out for assistance from Spacefleet, the ship is damaged but manages to damage its pursuers enough to escape, validating the ship's design.
60.126	Large bomb explodes on Faire in the Capella system. Several hundred are injured and
00.120	dozens are killed. It's not clear who set off the detonation or its purpose.
60.127	The Medical Services Organization issues an alert about the rise is Ixiol cases in the
	Prenglar system, most notably on Gran Quivera but several cases have been reported on
	the Gollwin Academy. Cadets found using the drug expelled from Spacefleet.
60.128	The TTSS Destiny arrives in the White Light system on its Grand Tour.
60.129	Spacefleet and Star Law launch a joint investigation into the origin and distribution of the
	drug Ixiol. While it's believed to originate in the Dramune system, the exact source is still
	unknown.
60.130	Strike Force Nova departs White Light for the Timeon system.
60.131	The CDCSS Nighwind arrives at Triad and is taken into the CDC shipyards there for repairs
CO 122	and inspections.
60.132	Its shakedown cruise completed, the first saurian Ark ship begins to load supplies and
	colonists for their exodus from the Saurian system. They don't know where they will end
60.133	up but prepare to flee the nearly inevitable annihilation at the hands of the sathar. The Zik-Kit (Kizk'-Kar), Kawdl-Kit (K'tsa-Kar), and Ken'zah-Kit (K'aken-Kar) Defense Alliance
00.133	(ZKKDA) places an order for an assault scout at the Inner Reach (Fromeltar) starship
	construction center to begin building up a militia for the K'aken-Karsystem.
	construction center to begin building up a militia for the K aken-kar system.

FY	Event
60.134	After weeks of planning and deliberations, Spacefleet initially uses its increased budget to
	commission two new battleships to be the basis of new Strike Forces. One is to be built at
	Gran Quivera (Prenglar) while the other is to be built at Triad (Cassidine)
60.135	Pale starship construction center repairs continue and capacity reaches 70% of its original
	value.
60.136	Another destroyer is completed at the sathar starship construction center in the FS30
20.40=	system.
60.137	The first of the pirate ships seized in a recent raid (an assault scout) completes its refit and
60.400	begins service in the Pale militia.
60.138	The Council of Worlds finally addresses the petition regarding signals emanating from a
	system beyond Hargurt (Gruna Garu) in the Vast Expanse. After listening to the evidence
	and hearing testimony, the Council creates a "Beyond the Frontier" subcommittee to analyze the data and present a plan for investigation.
60.139	Inbound to Minotaur Station (Minotaur, Theseus), the TTSS Destiny reports a sighting of an
00.133	unidentified vessel that carried Spacefleet markings and transponder codes but did not
	respond to hails. The vessel matched the one reported in the Gruna Garu system.
60.140	Strike Force Nova arrives at Lossend (Timeon). It will remain in system for 6 days.
60.141	The CDCSS Nightwind completes its refit and inspection. It joins the CDC fleet as a regular
	freight hauler. CDC commissions the next ship in the series, the CDCSS Mystic, designed
	more as a passenger liner rather than a freighter. The new model's profile is identical to
	the Nightwind's but swaps out the cargo bays for modular passenger decks.
60.142	The Spire Dragons continue to make progress finding a location approximately halfway up
	Mt. Spire to establish a second advanced camp. Two team members were lost in the
	ascent to this forward camp. The next three weeks are spend hauling supplies up to this
	second camp and resting at the lower one.
60.143	Construction of the Spacefleet battleship at the Pan Galactic starship construction center
	orbiting Gran Quivera (Prenglar) begins.
60.144	Construction of the Spacefleet battleship at the Cassidine Development Corporation
60.145	starship construction center orbiting Triad (Cassidine) begins.
00.145	The second assault scout seized in the Star Devil Pirate raid completes its refit and enters service in the Pale militia. With the frigate and other ships reaching completion as well,
	the militia mounts a recruitment drive to increase its ranks.
60.146	Strike Force Nova departs the Timeon system to return to Prenglar.
60.147	Saboteurs damage the CDC shipyards around Triad, reducing capacity by 27%. The initial
	hull of the Spacefleet battleship is completely destroyed. Work on the ship will have to be
	restarted once the wreckage is cleared away.
60.148	Ninland (Minotaur, Theseus) announces the construction of a new Volturnus themed
	series of attractions allowing for experiences native to that world.
60.149	SynthCorp unveils a line of "edible paintballs" for the dralasite youth market on Inner
	Reach. Bloop's "Every Flavor" Battle Balls are launched with a massive paint ball tourney
	through downtown Synthtown (Inner Reach, Dramune). The only real losers are those that
	got tagged by the "rotten egg" flavored balls.
60.150	With the prospect of several new ships coming on-line in the next few years, Spacefleet
	starts a recruitment effort to grow its officer ranks in anticipation of staffing the new ships.
60.151	Loading complete, the first saurian Ark ship departs Kischen to search out a new home for
	the saurian race. This ship heads away from the Frontier, skirting the Vast Expanse.

FY	Event
60.152	Construction begins on the ZKKDA assault scout for the K'aken-Kar system militia.
60.153	CDC shipyard around Triad (Cassidine) completes initial cleanup and begins repairs. Work
	on the Spacefleet battleship is restarted. Construction of the CDCSS Mystic delayed as
	repairs to the shipyard take precedence.
60.154	The TTSS Destiny returns to the White Light system after visiting the Theseus system. After
	a brief stay it will continue its Grand Tour through the Vrusk and Dralasite loop of the
CO 155	Frontier.
60.155	Strike Force Nova returns to the Prenglar system where the ships will undergo some
CO 45C	routine maintenance before continuing patrol. It will be in the system for 19 days.
60.156	Sathar starship construction center near Fromeltar completes construction of a frigate.
60.157	Pirate frigate seized by Pale militia completes its refit and departs on its maiden cruise as a
60.158	militia vessel, the TSSS Tiger, with a new crew. Forty days after the hatching of the first crèche of Eorna eggs from the lost egg ship, five of
00.136	the babies have passed away due to unknown illnesses. Eorna scientists are scrambling to
	find the cause of the deaths and prevent the loss of the other newborns.
60.159	The TSSS Tiger, on patrol in the outer Pale system, is set upon by a pair of unidentified
00.200	assault scouts. Severely damaged, it manages to drive off one of the assault scouts after
	destroying the other. Other militia assets are dispatched to investigate the wreckage at the
	Tiger returns to port.
60.160	Pale starship construction center repairs bring it up to 75% capacity.
60.161	The TSSS Tiger returns to the Pale starship construction center where it will spend the next
	19 days undergoing extensive repairs.
60.162	Sathar starship construction center near Zebulon completes a light cruiser
60.163	The Yaziria Heritage Foundation's exploration ship, the HSS History's Hope, completes its
	refit in the Hentz (Araks) starship construction center and begins its maiden voyage to
	Histran (Scree Fron).
60.164	After several weeks of investigation, the probe into the source of Ixiol has made little
	progress. Believed to be produced by Malco Enterprises, there is no firm evidence as
CO 1CE	several key agents have vanished while investigating in the Dramune system.
60.165	Several "flavors" of SynthCorp's Bloop's Every Flavor Battle Balls are recalled due to many reported incidents of strange side effects. While the company and MSO investigate, they
	remain popular and often jokingly referred to as "Missing Every Flavor" Battle Balls.
60.166	The Spire Dragons begin the next stage of their ascent of Mt. Spire (Lossend, Timeon) from
00.100	their second advance camp halfway up the mountain.
60.167	News leaks of an attack against the corporate headquarters of Nesmith Enterprises of
	Triad (Malicon Valley, Triad, Cassidine) resulting in the theft of several advanced computer
	designs and system controls. NET has not made any official announcement of the incident.
60.168	Nesmith Enterprises of Triad releases a statement confirming the security breach and
	indicates that it was executed by unnamed agents of a rival mega-corp working under
	sathar control. The company is working with Star Law to investigate the incident. No
	details are given as to what technology may have been compromised.
60.169	The "Beyond the Frontier" committee generates its first report with two major proposals.
	First that Spacefleet vessels be sent to investigate the signals being received in the Gruna
	Garu system and second, that a Frontier Expeditionary Force be established to begin
	probing the systems outside the current Frontier borders.

FY	Event
60.170	Word leaks out that some of the technologies lost by the raid on Nesmith Enterprises
	include command and control systems used on many of the starships in the Frontier.
	Concerns for the security of Spacefleet and civilian vessels arise.
60.171	Several Interplanetary Industries computer systems across the Frontier randomly lock up
	and shut down disrupting manufacturing and other business processes. Eventually
	restored after several hours, millions of credits are lost due to lost productivity.
60.172	Interplanetary Industries (II) launches an investigation into the cause of the disruption to
	determine the cause and how best to prevent it from occurring again. Rumors indicate it
	was an attack by a rival mega-corp. As Nesmith Enterprises is II's biggest rival (ZG), initial
60.173	suspicion falls on them. The HSS History's Hope arrives at Histran (Scree Fron). Preparations begin for its journey
00.173	into the unknown to attempt to reach the system believed to house Yaziria, the yazirian
	homeworld.
60.174	Strike Force Nova departs the Prenglar system headed to Gruna Garu on a patrol of the
	"yazirian" loop of the Frontier. The patrol direction is dictated by the Council of Worlds so
	that the Strike Force can investigate the signals being received there.
60.175	The life support system on Spacefleet's armed station orbiting Triad shuts down and
	locks out all access. Control is restored after several tense hours as evacuation plans
	are organized but ultimately not needed.
	As this station incident seems to be related to the Nesmith Enterprises incident, Star
	Law doubles down on its investigation of that event quarantining the station and not
	allowing anyone to leave.
60.176	A pair of sathar ships (destroyer and frigate) leave the sathar starship construction center
60.177	near Kizk-Kar on a raid of the Frontier to probe defenses and readiness. The Jurak Hangna Foundation (FE02), makes a sizable contribution to the Yazira Heritage
00.177	Foundation, joining the Foundation with representation on the board of directors.
60.178	Fortress Kdikitt (Madderly's Star) reaches the 85% completion mark.
60.179	After 200 days of operation, the Yaziria dome continues to be very popular with over 3
00.275	million visitors to date. There is still a great amount of discontent with the lack of
	accessibility to non-yazirians.
60.180	The TSSS Tiger emerges from the shipyards repaired after its encounter on its maiden
	voyage. It begins another patrol of the system.
60.181	Sathar starship construction center in the FS30 system completes another destroyer.
60.182	Months of work by scientists on Laco (Dixon's Star) and Pale (Truane's Star) have
	determined that the destination of the transmissions sent and received from Laco are most
	likely a star system approximately 35 lightyears from Truane's Star.
60.183	The Pale government, in partnership with Streel, decides to mount a major "reconnaissance
	in force" operation to try to explore a route to the suspected source of the Tetrach
	transmissions. The three newly acquired militia vessels, along with three Streel corvettes will take on the mission.
60.184	Attacks on PGC headquarters on Gran Quivera result is significant damage and loss of
00.104	technical data related to manufacture of high-tech military technologies
60.185	Strike Force Nova arrives at Hargut (Gruna Garu). It will remain in system for 20 days as it
	spends some time investigating the signals received from the direction of the Vast Expanse.
60.186	Five fighters are completed at the sathar starship construction center near Fromeltar.

FY	Event
60.187	The six ships slated to chart the route to the suspected Tetrach system meet at Pale station to make final plans, rotate to their all-volunteer crews, and top off supplies. Dubbed the
	Discovery Squadron, if successful, they will be gone for the better part of a year.
60.188	Having interviewed everyone on the station, Starfleet lifts the quarantine on its armed
	station orbiting Triad (Cassidine) allowing normal operations to resume. Nearly 100 beings are detained for further questioning.
60.189	Civil rights groups protest on Triad (Cassidine) demanding the release of those being held
	on the orbiting armed station claiming the detainment is unlawful.
60.190	Reconstruction of the Streel starship construction center (Pale, Truane's Star) continues. The SCC is now at 80% capacity.
60.191	Discovery Squadron leaves Pale (Truane's Star) headed to Zebulon on the first leg of their mission. The first few jumps will be through the Rim to Kazak at which point they will begin
	moving into uncharted jump routes.
60.192	Approximately half of those detained by Starfleet on the armed station orbiting Triad
	(Cassidine) are cleared and released. Three of the remaining detainees suddenly admit to
	being sathar agents and claim responsibility for the sabotage and then promptly die from unknown causes.
60.193	New formulas for the recalled flavors of SynthCorp's Bloop's Every Flavor Battle Balls are
	released back into distribution. Aficionados claim to be able to taste the differences but for
	the most part the release goes unheralded.
60.194	Autopsies of the three self-proclaimed sathar agents reveal a small parasitic organism
	attached to the brainstem. Analysis shows that it has similar biology to sathar bodies
	recovered during the incursion on Volturnus (Zebulon). Unfortunately, the organism does not appear in any non-invasive detection techniques.
60.195	Spire Dragons establish a final advanced camp about 80% the distance up Mt. Spire. They
	spend the next month hauling equipment up to establish pressure domes at a height of
	35,000 feet to rest in in preparation for their final ascent to the summit. Four more
	expedition members die.
60.196	Computer and control systems on the Task Force Cassidine flagship, the battleship Admiral
	Harsevoort, lock crew and officers out for nearly three hours before control is regained. Suspected to be tied to the Nesmith Enterprises break-in, Spacefleet launches an
	investigation.

A young Spacefleet commander, Space Commodore Karl "Rough" Rider (SFKH3), is given command of the operation and assigned the task of building the project. Three days out from Hargut (Gruna Garu), the UPFS Nexus, Strike Force Nova's communications ship, detects signals from the direction of the vast expanse that match the profile previously reported. Strike Force Nova aborts the jump to Araks and begins return to Hargut while monitoring the signals. Discovery Squadron arrives at Faire in the Capella system. It will spend a week here meeting with Rim Coalition representatives to attempt to recruit a few members of The Flight to make the mission a joint UPF-Rim operation. Assault scouts from the Fromeltar and K'aken-Kar system arrive at Zit-Kit (Kizk-Kar) and begin sweeping the system. The CDCSS Nightwind arrives in the Kizk-Kar system with an assault scout escort delivering a shipment of security robots to CDC operations on Zit-Kit. The CDCSS Nightwind is set upon by the sathar ships and a running battle ensues as the freighter tries to escape and its escort uses its superior maneuverability to fend off the attackers. A distress call goes out and the two militia ships happen to be less than an 		
fortune in remuneration to the families of those killed as a gesture of good will. They also place orders for the construction of a number of armed vessels to serve as escorts for their spaceliners. FY	Event
60.213	Construction of the first of the TransTravel escort vessels, a Streel Red Thunder class
	Corvette, begins in the shipyards in Prenglar.
60.214	Strike Force Nova arrives back at Hargut (Gruna Garu). Collection and analysis of the signals
	continue. They seem to be coming from OFS200, and the signal is often masked by
	emissions from the pulsar at OFS203 making observation difficult.
60.215	Construction of a pair of TransTravel Assault Scouts begin at the Triad shipyards
60.216	Sathar starship construction center near Fromeltar (SCC#4) completes a light cruiser.
60.217	HSS History's Hope departs Histran (Scree Fron) on the first leg of what will most likely be a
	multi-year endeavor to attempt to chart a series of jumps to the star that he Yaziria
	Heritage Foundations now believes to be original yazirian home system. The first step will
60.240	be an 8 ly jump to the OFS 224 system.
60.218	After just over a week of discussion, Discovery Squadron continues on its mission leaving
	the Capella system and headed toward Osak. While the Rim generally supports the mission, they are hesitant to officially contribute ships for fear of increasing sathar ire if problems
	arise.
60.219	Landing Day celebration held on Hentz (Athor) celebrating the anniversary of the Yazirian
30.223	Exodus arriving in the Frontier region.
60.220	Having identified and isolated the transmissions, Strike Force Nova departs Hargut (Gruna
	Garu) to head to the Araks system, continuing its tour and looking to attempt to identify
	the signals in other systems.
60.221	With the ending of the winter season on Alcazzar, a CDC freighter, the CDCSS Trucker XIV,
	departs Triad (Cassidine) with crew and equipment to establish mining compound on
	Alcazzar (Rhianna) (SF4)
60.222	A new cutter is completed at the sathar starship construction center near Zebulon.
60.223	Loading complete, the second saurian ark ship departs into interstellar space.
60.224	Construction of another corvette for TransTravel begins at the Fromeltar shipyard.
60.225	The HSS History's Hope arrives in the OFS 224 system, successfully plotting the outward
	segment of the jump. The crew will spend a few days observing the system while the
CO 22C	astrogation team calculates the return jump.
60.226 60.227	A new destroyer is completed at the sathar starship construction center in the FS30 system. Discovery Squadron arrives is the Osak system, where they will spend a two-day layover
00.227	before continuing on to Kazak.
60.228	Spire Dragons begin their final ascent of Mt. Spire. Over 20 beings, with representatives
00.220	from all seven major Frontier and Rim species, take part in this final ascent which is
	expected to take four days to reach the summit.
60.229	As Discovery Squadron is about to depart the Osak system, they are joined by two Humma-
	crewed vessels from Hum (Fockhrik). One is the equivalent of an assault scout, while the
	other is a small exploration vessel. Having heard of the mission, the humma are more than
	willing to take the fight to the sathar.
60.230	Strike Force Nova arrives at Hentz (Araks). No signals from OFS200 were detected on the
	inbound leg of the trip. The Strike Force will remain in the system for 14 days searching for
	signals from the system and conducting drills.
60.231	Repairs at the CDC starship construction center bring capacity up to 75%.
	A sudden and serious storm swirls around the summit of Mt. Spire requiring the Spire
	Dragons expedition to hunker down less than 1000m from the summit to wait out the
	storm. They dig in but are very exposed near the mountain's peak

FY	Event
60.232	With repairs of the CDC starship construction center well underway and progressing, work
	on the CDCSS Mystic resumes
60.233	After two days, the storm atop Mt. Spire finally clears. Four expedition members were
	lost during the storm, their shelters having blown away, presumably carrying them with
	it. The remaining team makes the final ascent reaching the summit about two hours
	afternoon.
	The team reaching the summit consisted of members of all seven Frontier and Rim
	races, although there was only one Osakar as the other two Osakar that were part of
	the summit team were lost in the storm. With another storm rapidly approaching, they
60.234	take pictures and quickly begin their descent. Construction of an assault scout for Trans Travel begins in the Minotaur (Theseus) shipyards
60.235	The CSCSS Trucker XIV arrives at Alcazzar (Rhianna) and begins shuttling crew and
00.233	equipment to the surface. Cold conditions slow the initial construction while crews wait for
	slightly warmer weather.
60.236	The HSS History's Hope successfully completes the return jump to the Scree Fron system
00.200	fully charting the route to that system. They dock at Histran station to resupply and report
	the jump to the UPF. The proceeds from the jump registration will be used to help fund the
	mission.
60.237	The Spire Dragon summit team makes it safely back to their high-altitude base camp just
	hours before the new storm hits.
60.238	Discovery Squadron arrives at Stenmar (Kazak). This is their last stop in known space and
	the squadron will spend a week here making sure the ships are fully repaired and stocked
	for their journey.
60.239	Work begins by the Discovery Squadron astrogators to plot the first new jump route of their
	trip. Their destination is the star system OFS19, five light years away just above the jump
CO 240	route to the Cryxia system.
60.240	Resupplied, the HSS History's Hope leaves Histran Station (Scree Fron) to return to the OFS224 system and then begin charting the next new jump in its journey.
60.241	Sathar starship construction center in the FS30 system completes another destroyer.
60.242	The assault scout for the K'aken-Kar system is completed at the Fromeltar starship
00.2.12	construction center. It begins its travel to its home system.
60.243	After six days of waiting, the storm on Mt. Spire clears and the members of the Spire
	Dragons team begin their descent from the mountain.
60.244	Having made no detections of signals from OFS200, Strike Force Nova departs Hentz (Araks)
	for the Scree Fron system.
60.245	After over thirty days in the Kizk-Kar system with no further sign of sathar ships, the assault
	scouts from Kaken-Kar and Fromeltar begin their return trips to their respective systems.
60.246	Discovery squadron begins accelerating toward Void speed on its first jump out the Frontier
	and Rim region of space.
60.247	Investigations into the source of Ixiol have definitively linked it to Malco Enterprises on
	Outer Reach (Dramune). Unfortunately, the UPF charter prevents any direct action against
	the operation without express consent of the planetary government which denies the
60.248	allegations. Based on the findings regarding Ixiol production on Outer Reach (Dramune), Inner Reach
00.248	(Dramune) implements a strong inspection policy against any ship coming from Outer
	Totalinatio, implements a strong inspection policy against any strip coming from Outer

FY	Event
	Reach to search and inspect all cargo from that planet before it can be delivered on Inner
	Reach.
60.249	HSS History's Hope arrives safely in the OFS224 system. Work begins to chart a jump to
	the neutron star in the OFS221 system, a jump of 7 light years.
60.250	Streel starship construction center (Pale, Truane's Star) reaches 90% original capacity as
CO 054	repairs continue.
60.251	Discovery Squadron successfully jumps to the OFS19 system, a small M1 red dwarf star.
60.252	• After a day of deceleration into the OFS19 system, the Discovery Squadron detect radio
	signals from the direction of one of the inner planets. They appear to be sathar in
	origin. Subspace radio messages are dispatched back to the Frontier and Rim. The squadron immediately changes vector to not be decelerating directly toward the
	inner system and the astrogators begin working on calculations for a return jump to
	Kazak.
60.253	After a day of collecting signals in the OFS19 system, at least 10 different sathar ships have
00.233	been detected by Discovery squadron. Composition is unknown.
60.254	Strike Force Nova arrives at Histran (Screen Fron). It will spend 11 days in system
	exercising around both Histran and Hasokar before departing back to the Araks system
	• Eight sathar ships begin accelerating out toward Discovery squadron. Two new ships
	have been identified but four have gone silent.
60.255	• The militia assault scouts that had been deployed to the Kaken-Kar system arrive back
	at their home systems. The crews are given some needed shore leave.
	Calculations complete for the return jump to Kazak, and apparently detected by the
	sathar vessels, Discovery Squadron begins a hard acceleration to stop and reverse
	direction for a jump out of the system.
60.256	Discovery Squadron completes the stopping maneuver and begins acceleration out of the
	system. The sathar vessels are nearly half-way to their position and have a sizable speed
	advantage. It is questionable if the squadron can reach jump speed before the sathar ships catch them.
60.257	With a known path, the Spire Dragons team make it back to their camp at the base of the
00.237	mountain after only fourteen days of hiking. All that is left to complete their expedition is
	to make it back to the coast.
60.258	After two days of grueling high-g acceleration, Discovery Squadron manages to enter
	the Void for the jump back to Kazak just hours before the sathar vessels overtake them.
	Unfortunately, due to the haste of their departure, the Discovery Squadron, misjumps
	into a binary star system rather than Kazak.
	Prior to their jump, the Discovery Squadron identify the sathar vessels as 1 heavy
	cruiser, 1 assault carrier, 1 light cruiser, 2 destroyers, 1 frigate, and 2 ships of a new
	design approximately the size of the Streel corvettes.
60.259	The HSS History's Hope jumps into the OFS221 system. While they arrive much further out
	in the system than planned, the jump is considered a success. They will spend a week in
	the system studying the neutron star before returning to OFS224.
60.260	After two days of rest from the grueling jump and observations by the astrogators, the
	Discovery Squadron determines that it is in FS50 system between Kazak and Osak, having
	overshot their target. Work begins on calculating a jump back to the Kazak system just 4
	light years away.

FY	Event
60.261	With preliminary jump calculations done and the crew mostly recovered from their days of
	high-g acceleration, Discovery Squadron begins accelerating toward jump speed for their
	return to Kazak.
60.262	While they don't know if the UPF ships detected the starship construction center in
	OFS19, the sathar high command decide to shift some of the assets there to increase
	the defenses.
	• Four destroyers from the FS30 system are dispatched to OFS19. Even with a high-speed
	traversal of the jump routes, this will take approximately 80 days.
	A frigate, light cruiser, assault carrier, and eight fighters are dispatched from the sathar
	SCC#4(OFS111) to reinforce OFS19 as well. Much closer, it is only a 20-day trip.
60.263	The new assault scout arrives in the K'aken Kar system. After a brief checkout, it takes up
	regular patrol duties.
60.264	The third saurian Ark ship is completed and begins its shakedown cruise.
60.265	Strike Force Nova departs Hasokar (Screen Fron) to return to Araks. No signals from
	OFS200 were detected while in the system.
	Discovery Squadron successfully jumps back to the Kazak system. They immediately begin broadcasting the details of their findings in the OFS19 system to both Rim and
	UPF contacts.
60.266	With receipt of the information about the sathar forces in OFS19, both Spacefleet and the
00.200	Flight begin discussions on how best to deal with the sathar presence. While discussions
	are occurring, the Flight dispatches several ships to both Cryxia and Kazak.
60.267	HSS History's Hope begins accelerating to return to OFS224 and chart the return leg of the
	jump connection the OFS221 and OFS224 systems.
60.268	An order is placed for a second assault scout for the K'aken Kar system at the Fromeltar
	starship construction center.
60.269	Crown Princess Leotia Valentine of Clarion (White Light) celebrates her 33rd birthday.
60.270	Discovery Squadron arrives at Stenmar Station where most of the crew takes a week of
	shore leave.
60.271	The sathar starship construction center in the FS30 system completes a destroyer and 6
	fighters.
60.272	Errors in the astrogation calculations cause the HSS History's Hope to misjump and not
	return to the OFS224 system. Luckily, they end up in the Araks system. While not
CO 272	disastrous, the misjump emphasizes for the crew the risk involved in their endeavor.
60.273	Deciding not to risk trouble with the Family of One authorities on Hentz (Araks). the HSS
	History's Hope decides to not stop at the station and head straight back to Histran (Scree
60.274	Businesses on both Inner and Outer Reach (Dramune) lodge formal complaints against the
00.274	new inspection of cargo arriving at Inner Reach from Outer Reach claiming it is hurting

60.275	Strike Force Nova arrives at Hentz (Araks). It will spend just 4 days here before heading on
00.273	to the Athor system.
60.276	A new assault carrier is completed in the sathar starship construction center near
-	Fromeltar.

FY	Event
60.277	After 20 days backtracking though their original path, the Spire Dragons reach their coastal
	camp. All told it took just over half a year (202 days) to make the full trek and cost the

	 Mistakes in the astrogation calculations, possibly due to the presence of the ne bula,
	send the Discovery Squadron off course and they end up in a single star system instead
	of the binary system they were shooting for.
60.283	The HSS History's Hope arrives safely at Histran Station (Scree Fron) where it will resupply
55	before reattempting to complete charting the jump route between OFS224 and OFS221.
60.284	Construction on the second K'aken-Kar militia assault scout begins.
60.285	After three days of observations, the astrogators of Discovery Squadron determine that
	they are in OFS025 instead of OFS017, having jumped further than intended. No sathar
	signals have been detected.
	• After much discussion, the decision is made for Discovery Squadron to press on. They
	prepare to jump to OFS026 which would have been the next system after OFS017.
60.286	The HSS History's Hope departs Histran Station (Scree Fron) headed to OFS224 to resume
	its attempt to chart a course to the suspected Yazirian home system.
60.287	PGC shipyards around Gran Quivera attacked by militants claiming to be Streel supporters,
	using access derived from the Nesmith Enterprises breach earlier in the year. Production
	capacity reduced by 38%. Several hulls destroyed but the Spacefleet battleship escaped
	unscathed.
60.288	Strike Force Nova arrives in the Athor system. Originally scheduled to spend seven days in
60.000	the system, the news from the Discovery Squadron cut that short to only 2 days.
60.289	Strike Force Nova detects extremely faint signals from OFS200 in the Athor system. The
22.222	detection confirms that the signals have been being broadcast for years undetected.
60.290	Strike Force Nova departs the Athor system to return to Prenglar.
60.291	Construction of two TransTravel assault scouts completed at the CDC starship construction
	center orbiting Triad (Cassidine) and begin traveling to Terldrom (Fromeltar).

60.298	Calculations complete and verified, the Discovery Squadron begins accelerating toward
	OFS030.
60.299	Star Law agents at foil an attempt to explode a bomb at the Council of Worlds
	headquarters on Gran Quivera (Prenglar). The suspects claim to me members of the Anti-
	Satharian League but the League leaders deny their involvement.
60.300	Further investigation and interrogation of suspects captured at the Council of Worlds
	bombing reveal that they are actually members of the Free Frontiersman Foundation, a
60.004	radicalized political faction bent on overthrowing the UPF.
60.301	Sathar SCC#2 (FS30) completes an assault carrier
60.302	Strike Force Nova arrives back at Morgaine's World (Prenglar). Crews are given a week of shore leave while Spacefleet decided how to best utilize the Strike Force given the recent
	discoveries.
60.303	Discovery Squadron successfully jumps into the OFS030 system but arrive much further out
	than anticipated. However, the jump is considered a success. They begin immediately
	monitoring for sathar signals and plotting a jump to the OFS031 system, just five light years
	away.
60.304	HSS History's Hope arrives in OFS221. Calculations begin for jump back to OFS224. The
	crew hopes that the second attempt will be more successful than the last.
60.305	After a long investigation, the security leak at Nesmith Enterprises of Triad is attributed to
	a shadowy faction know as the Investors. Little is known about this organization beyond
	that it appears to be supported by very rich financial backers.
60.306	Calculations complete, the Discovery Squadron begins accelerating toward their jump to the OFS031 system.
60.307	Calculations complete, the HSS History's hope begins accelerating for the jump back to

	The two TransTravel assault scouts arrive at Terldrom (Fromeltar).
60.312	The HSS History's Hope successfully jumps back to OFS224 and begins decelerating in
	preparation for a jump back to OFS221. Details of the full jump route are transmitted to Spacefleet.
60.313	Strike Force Nova is ordered to the Zebulon system while the UPF negotiates with the Rim
00.013	Coalition to allow the large fleet to traverse Rim space. The Strike Force leaves orbit
	around Morgaine's World and begins accelerating toward a jump to Dixon's Star.
60.314	After four days in system with no detection of sathar presence, the Discovery Squadron
	decides to spend an extra week in the system before making their final jump to the OFS070
	system. This will allow them to catch up on repairs and maintenance for their ships before
CO 245	the final push and allow the astrogators extra time to work on their calculations.
60.315	Having fully recovered from their trek, the Spire Dragons team holds a final press conference on Gran Quivera to recount and discuss the expedition and answers questions
	about the trip. Thousands attend to hear the details.
60.316	Sathar SCC#2 completes a destroyer
60.317	Deceleration complete and engine overhauls finished, the HSS History's Hope begins
	accelerating for jump back to OFS221 to start the next leg of their journey.
60.318	The two UPF destroyers tasked with charting the route from OFS019 to Kazak, now dubbed
	Patrol Group Flint, arrive in Capella. The crew takes two days of shore leave on Faire
60.319	before continuing onward. Construction of TransTravel corvette complete at Prenglar and the new vessel begins its
00.319	maiden voyage to Fromeltar.
60.320	Obar Enterprises, a small independent freight company successfully charts the first half of

60.321	After only a week of deliberations, the Rim Coalition authorizes the entry of Strike Force
	Nova into Rim space. This will be the largest Spacefleet presence to ever enter a Rim
CO 222	system.
60.322	• Repairs, maintenance, and calculations complete, the Discovery Squadron begins their final jump to the OFS070 system which was the destination of the transmission from
	the Glass Pyramid on Laco (Dixon's Star) nearly a year earlier.
	Strike Force Nova arrives at Laco (Dixon's Star). They will have a twelve-day layover
	before continuing on. There is some concern in the Council of Worlds about sending
	such a sizable portion of Spacefleet out of the Frontier.
60.323	Fourth Saurian Ark Ship is completed and begins its shakedown cruise.

FY	Event
60.324	Patrol Group Flint jumps into the Osak system, they remain near jump speed while
	traversing the system and plotting the jump to Kazak.
60.325	The TSSS Searcher arrives at Pale station over two weeks ahead of the time it would
	typically take to make a run from Cassidine to Truane's Star and begin unloading their
	cargo. They immediately begin looking for a cargo and working on calculations for the
	direct return jump.
60.326	Discovery Squadron successfully jumps in to the OFS070 system. Signals from sathar
	vessels are immediately detected upon arrival. A deceleration vector is chosen to
	attempt to minimize the signal reaching the inner system and work begins immediately
	to calculate a jump out of the system.
	Messages are dispatched via subspace radio to both the UPF and Rim Coalitions with all
	the jump data and news of the sathar presence.
60.327	HSS History's Hope arrives in OFS221 without incident. Work begins on plotting the next

	from the inner system. They begin the calculations for the return jump.
60.340	Four crew members from the Moneyspider are killed in an attempt to reach the crew on
	the stricken Jetsom when their shuttle is damaged in the descent and destroyed. Only six
	crew remain on the Moneyspider. (SFAD5)
60.341	After two days of data collection, Patrol Group Flint has identified nearly 20 different
	ships in the OFS019 system including two each of frigates, destroyers, light and heavy
	cruisers, and assault carriers. There are numerous fighters and two of an unidentified
	new class of ship.
	The HSS History's Hope successfully jumps back to the OFS221 system completely
	charting the jump between OFS221 and OFS222. Details are relayed back to the UPF to
	collect the bounty. They begin decelerating in preparation for returning to the OFS222
	system and continuing their exploration.
60.342	Sathar SCC#5 (OFS019) completes a cutter
	The 4 sathar destroyers from FS30 system arrive in OFS019.
60.343	Deceleration complete, Patrol Group Flint begin accelerating back toward jump speed
	to return to Kazak as the jump calculations are finalized.
	Strike Force Nova arrives at Pale (Truane's Star). They will have a five-day layover to

60.350	After an amazingly long string of bad luck in several of its ventures, the Groth Energy
	Corporation, the major power supplier on Groth (Fromeltar) declares bankruptcy. While
CO 254	they maintain power generation, all other corporate activities are frozen.
60.351	After nearly half a year of investigation and the death of seven more of the young eorna,
	the cause of the mysterious deaths is finally uncovered. One of the "Great Plan" eorna had been sabotaging the endeavor and subtly poisoning the children. He is taken into custody.
60.352	Patrol Group Flint arrives at Stemnar station where they will remain on alert with units of
00.332	The Flight until Strike Force Nova arrives.
60.353	Three days after declaring bankruptcy, the Groth Energy Corporation (Groth, Fromeltar) is
00.333	purchased by an undisclosed off-world organization for a fraction of its actual value. The
	new owners immediately begin restoring complete operations.
60.354	Discovery Squadron successfully jumps back into the OFS026 system although they end up

60.391	Construction of the CMS Swallow begins
60.392	The CRL-E1 maintenance robot on Jetsom stops functioning and refuse to move or obey
	any commands. Resetting its mission and functions restores functionality but only for a
	few hours. The rescue team realize that it has become infected by the Matrix. (SFAD5)
60.393	After reviewing the data from Patrol Group Flint, and in light of the information
	returned by the Discovery Squadron, the commander of Strike Force Nova decides to
	send another scouting mission to OFS019 before making more definite plans.
	Patrol Group Flint is again detached from the Strike Force and begins accelerating for a interpretable to the OFSC10 system. If possible, they are to remain undetected in the

60.395	Repair work and astrogation calculations complete, the HSS History's Hope begins
00.333	accelerating toward their next system, designated YS002.
60.396	Shakedown cruise complete, the fifth Saurian Ark Ship begins loading of cargo and
00.000	passengers.
60.397	After over two weeks of dealing with issues caused by the Matrix, the rescue team finally
	discover its fatal weakness and start taking measures to destroy the virus and eradicate it
	from the Jetsom platform. (SFAD5)
60.398	Patrol Group Flint arrives in OFS019 once again. They stay near jump speed with engines
	off to reduce the chance of detection and coast across the system at high velocity. They
	begin cataloging signals from ships in the system.
60.399	The HSS History's Hope initiates the Void Jump to YS02. Unfortunately, due to an error in
	their calculations, they end up in an unknown binary star system. Designating this as YSO3,
	they start deceleration and trying to figure out where they ended up.
60.400	• Preparations, which have been going on for weeks, are finalized on worlds around the
	Frontier for a major Founding Day celebration celebrating six full decades of the United
	Planetary Federation. While some events over the past year have been troubling, everyone is determined to make this a celebration to be long remembered.
	After two days of data collection, Patrol Group Flint catalogs an ever-growing sathar
	presence in the system. They have identified over 25 military vessels including four of
	the new, unknown ship type, as well as a station and various ancillary ships. The data is
	relayed back to Strike Force Nova.
61.001	Major Founding Day celebrations held throughout the Frontier. Although there were
	some small incidents, the general mood on every world was very upbeat.
	Having crossed the system so that their engine emissions should be less noticeable,
	Patrol Group Flint begins decelerating. They have solidified the ship count to 8 fighters,
	4 of the unknown ships, and 15 capital ships, plus a single space station.
61.002	WarTech factories on Hargut (Gruna Garu) attacked by unknown forces. Expecting a lower
	alert level due to the Founding Day celebrations, the attackers underestimate the
	automated defenses and alertness of the security staff and are repulsed with heavy losses.

 Sathar forces in OFS019 detect the decelerating ships of PG Flint. A light cruiser, two destroyers and a frigate are dispatched under radio blackout to intercept. They boost hard for several hours and then kill their engines, minimizing emissions as they approach. Streel files a protest with the Council of Worlds requesting that its ships that were part of Discovery Squadron be released by Strike Force Nova to return to the Frontier as they are private vessels and not part of Spacefleet or a planetary militia. After six days of work, the History's Hope astrogation team finally determines their location. They shot way beyond their mark arriving in a system that is 6 light years beyond YS02. The good news is that they know where they were, the bad news is that it is well off the path they had planned to take, and they now have two uncharted jumps back to YS01. Deceleration complete, Patrol Group Flint continue to monitor the OFS019 system and begins plotting a return jump to Kazak from their current location. The Sathar starship construction center in the FS30 system completes a destroyer With only eight days until the orbital window opens for them to return to the Moneyspider, the recovery team on Jetsom has nearly eradicated the Matrix from the mining platform. The six ships of Discovery Squadron from Truane's Star depart immediately upon their
release. The two Humma ships stay with the Flight forces in the system.
Repairs of the PGC shipyard (Gran Quivera, Prenglar) restore capacity to 75%.
61.008 Patrol Group Flint detect the approaching sathar ships as they begin decelerating and
angling for intercept. With evasion unlikely, the UPF ships send off a subspace radio and
begin a hard acceleration to try to escape, while expecting to fight a very uneven battle. 61.009 The sathar ships catch Patrol Group Flint. After a short running battle, the two UPF
destroyers are destroyed by the sathar forces which suffer severe damage to the frigate
and one destroyer, but all ships survive the battle.
61.010 • Loading complete, the fifth saurian Ark ships departs the Sauria system for destinations
unknown.
With the destruction of PG Flint, the sathar launch a raid into the Frontier sector to try
to draw off the Frontier forces from wherever they are basing from. Two light cruisers,
three destroyers, and a frigate leave for Zebulon via a high-speed transit of the Kazak
system.
61.011 The HSS History's Hope's attempt to jump to the YS02 system from YS03 fails and they land
once again in an unknown binary system of two M dwarf stars. As they decelerate, they
begin trying to work out their position. It seems travel here in the Vast Expanse is more
difficult than expected.
61.012 Construction is completed on the CDCSS Mystic at the Triad (Cassidine) shipyards. While it has the same profile as the CDCSS Nightwind, this ship is focused on passenger transport
rather than cargo. It begins a shakedown cruise carrying CDC personnel from Triad to
Rupert's Hole and back.
61.013 The Council of Worlds convenes for the FY61 session.

	The sathar ships from OFS019 arrive in Kazak well outside the inner system. They
	remain near jump speed search the system for signals of Flight or Spacefleet presence
	in the system.
61.015	Detecting Strike Force Nova and the Flight forces in the system, the sathar ships begin
	cataloging the ships detected. They remain near jump speed and coast through the outer
	system.
61.016	After five days of around-the-clock work, the astrogators on the HSS History's Hope have
	determined their location and also uncovered an error in their astrographic catalog that
61.017	may have been the source of their error. The system is designated YS04.
61.017	• After a day of rest, the HSS History's Hope's astrogators begin charting a route to YSO1, the closest system with known jump routes. It is a 10 light year jump, the farthest new
	jump they have charted. OFS219 is closer, at 8 ly, but would require several new jumps
	to get back to charted space lanes.
	 Discovery Squadron arrives in the Osak system where they spend a day resting before
	heading on to Capella
61.018	The rescue crew from Jetsom returns to the Moneyspider to the relief of Captain Akizk. As
	the rescue crew is en route to the Captain's office, the Captain dies, seemingly by suicide.
	The second in command (Ellen Coopermann, human) doesn't believe their report about
	the Matrix. (SFAD5)
61.019	The Frontier Expeditionary Force begins organizing a project to explore beyond the
	Theseus system. A new ship, the UPFS Elanor Moraes (SFKH2¹) is commissioned for
	construction at the Minotaur (Theseus) shipyards.
61.020	Castuss Wallorr (yazirian), the sape handler on the Moneyspider, is launched out of the
	ship on a lifeboat. His distress call causes the ship's roboticist, Daqor Klarr (vrusk) to snap
C4 024	and have to be restrained. (SFAD5)
61.021	Baralou Ap-Reaverchan (yazirian), Moneyspider's astrogator, is killed in a sudden explosion in the life support system on Snobol, the asteroid the ship is tethered to.
	(SFAD5)
	On their return to the Moneyspider from Snobol, the elevator fails and the crew that
	responded to Baralou's distress call are severely injured. (SFAD5)
	• In the confusion of the elevator crash, Dagor, sedated in the Moneys pider's medical
	bay, is killed by an overdose of anesthesia. (SFAD5)
61.022	Calculations mostly done, the HSS History's Hope begins accelerating for its jump back to
	the YS01 system.
61.023	The Moneyspider's security robot malfunctions and starts shooting holes in the gas
	tanks holding the filtered toxins from the planet's atmosphere. The life support system
	is also malfunctioning and not filtering the air. Fiator Geauis (dralasite), ship technician

	Baralou, the astrogator is listed as one of the ship's robots, which means it was not her
	body recovered in the explosion on Snobol. Baralou becomes the prime suspect of all the deaths. (SFAD5)
61.026	The Sathar starship construction center in OFS111 completes a light cruiser.
01.020	Her secret discovered, Baralou attempts to eliminate Ellen and the rescue team. After a
	running fight through the ship between the surviving crew members and Baralou, who
	is aided by the ship's robots and automated defense systems, Baralou is neutralized.
	(SFAD5)
61.027	The Discovery Squadron arrives at Faire in the Capella system. They spend three days
	on the planet before heading on to Zebulon.
	• The HSS History's Hope successfully jumps into the YS01 and begins decelerating. Jump
	calculations are begun anew for another attempt at the jump to the YS02 system.
	With Baralou gone, the remaining crew on the Moneyspider slowly begin to make
	progress on destroying the Matrix from the Moneyspider's systems. (SFAD5)
61.028	An attempt is made to sabotage the Minotaur (Theseus) shipyards. It is foiled due to
C4 020	increased security after PGC shipyard attack a few months ago.
61.029	Deceleration nearly complete, the HSS History's Hope is set upon by an unidentified, armed vessel that does not respond to any attempts to communicate. While obviously
	of Frontier origin, the vessel is not one that the crew has seen before. An SOS is
	broadcast via subspace radio to the Frontier.
	In the ensuing fight, the HSS History's Hope's engines are severely damaged but a lucky
	shot by their gunner sends the assailant spinning out of control, ending the fight. The
	crew rushes to fix the engines and get underway before the assaulting ship can repair
	itself and return.
61.030	Having remained undetected as they drifted through the outer system, the sathar ships
	in the outer Kazak system begin slowly changing their vector for a jump to Zebulon.
	Just hours before the relief ship arrives at the Moneyspider, the crew eradicates the
	last vestiges of the Matrix from the ship. The remaining crew board the relief ship to
C4 024	head back to the Prenglar system. (SFAD5)
61.031	With the "fall" season approaching CDC decides that winters are too harsh to keep the
	crew on Alcazzar (Rhianna) and stop operations for the year after mining over 6.3 million credits of resources, mostly gold. (SF4)
61.032	Repairs of the HSS History Hope's engines take much longer than expected. Luckily, their
01.032	assailant failed to return. The crew debates whether they should return to the Frontier for
	complete repairs or push onward.
61.033	After much deliberation, it is decided that the HSS History's Hope will push on but not
	transmit their completed routes back to the UPF for registration, but only to Histran to
	track their progress. Calculations are begun again for a jump to YS02.
61.034	Repairs at the PGC shipyard (Gran Quivera, Prenglar) restore capacity to 80%.
61.035	Repair work on the Triad SSC continues. The construction center is now at 85% of its
	original capacity.

	The Discovery Squadron makes the jump to the Zebulon system and starts decelerating
	toward Volturnus.
61.036	• The sathar ships from OSF019 make the jump and arrive in the Zebulon system. They
	start decelerating toward Volturnus.
	Initial calculations complete, the HSS History's Hope begins accelerating once again for
	a jump to the YS02 system.
61.037	Sathar ships are detected by Discovery Squadron and messages are sent to Spacefleet,
	Pale (Truane's Star), and Strike Force Nova announcing the sathar presence in the
	system.
	As the only armed vessels in the system, Discovery Squadron is ordered to intercept the
64.000	sathar vessels despite being severely out classed.
61.038	The decision by Obar Enterprises to not report the Truane's Star-Cassidine jump route has
	paid off nicely. In just 100 days, they have made over 1.6 million credits in gross profits,
61.039	more than double what would have been possible before the jump route was plotted.
61.039	Discovery Squadron intercepts the sathar ships. Whether due to a sizable skill differential or simply good luck, the smaller UPF ships manage to destroy all 4 sathar
	vessels. Unfortunately, the militia frigate and one of the Street corvettes are lost while
	the other 2 corvettes are severely damaged.
	Realizing that they have too much force projected into the Rim, and that the sathar
	seem to have a way into the Frontier around the ships station in Kazak, Strike Force
	Nova begins a high-speed transit back to Frontier Space. Patrol Group Virgo is split off
	again and remains in Kazak to bolster the Rim defenses in that system.
61.040	After making critical repairs, the remains of the Discovery Squadron begin making their
	way to Volturnus.
	The HSS History's Hope successfully arrives in YS02, much to the relief of her crew.
	They begin decelerating and plotting the return jump to YS01.
61.041	The sixth saurian Ark Ship is completed and begins its shakedown cruise.
61.042	Information is uncovered that the buyout of Groth Energy may have been orchestrated by
	the group known as the Investors. The reporter that uncovered the leak is found dead
	after falling off his 16th story balcony in downtown Port Loren (Gran Quivera, Prenglar).
61.043	The Discovery Squadron pulls into orbit around Volturnus where they start working on
	more repairs and resupplying the assault scouts which had depleted all their assault
	rockets in the fight with the sathar.
61.044	Strike Force Nova jumps into the Osak system but remains near jump speed as they
24 245	compute the next leg of their jump to Capella.
61.045	Deceleration complete, the HSS History's Hope begin accelerating for the jump back to
	YS01. They are aiming to arrive high in the system to attempt to avoid the assailant that
C1 04C	was there last time if that ship is still in the system.
61.046	Repairs complete, the Streel corvettes begin accelerating for a jump home to Truane's Star. The assault secure are ordered to stay in the Volturaus system for the time being
	Star. The assault scouts are ordered to stay in the Volturnus system for the time being
	to provide early warning and defense of that system as Spacefleet finalizes its plans.
	Discovery Squadron is officially dissolved.
	• Strike Force Nova jump into the Capella system, again remaining near jump speed as they compute a jump to the Zebulon system.
61.047	Fortress Kdikit (Madderly's Star) completed.
01.04/	i ortiess kaikit (iviauderiy s stai) completed.

 After much debate, and heavily swayed by discovery of the sathar presence in OFS019 and the recent events in the Zebulon system, the Council of Worlds authorizes additional spending by Spacefleet to commission several new vessels. With the go-ahead and funding from the Council of Worlds, Spacefleet decides to exercise their development plan Sierra Foxtrot Meteor, which builds out another Strike Force similar to SF Nova. Orders are placed for vessels from various shipyards around the Frontier. 61.050 The HSS History's Hope successfully makes the jump back to YS01 arriving high in the system as desired. They immediately begin decelerating and scanning the system for any other ships as they start in on engine overhauls and plotting the jump back to YS02. 61.051 • The Sathar starship construction center in the FS30 system completes 2 destroyers. • Strike Force Nova jumps into the Zebulon system. They begin decelerating toward Volturnus. • After much deliberation, the sathar high command decides to send two of its new cutter ships to the Kazak system to scout out the UPF and Rim forces there. 61.052 Construction begins on a new UPF assault carrier at the PGC shipyards (Gran Quivera, Prenglar). This is the first of the new ships commissioned for the new Strike Force Meteor group to be built around the battleship already under construction. • Shakedown cruise complete, passengers begin loading onto the newest saurian Ark Ship. • The HSS History's Hope detects emissions from another ship in the YS01 system, assumed the be their previous assailant. However, the ship is far away on the other side of the system. They believe that they will be able to get out of the system before it could catch them, even if they were already detected. 61.054 Construction begins on a new Spacefleet light cruiser, part of the new Strike Force Meteor, at the CDC shipyards (Triad, Cassidine). 61.055 Strike Force Nova arrives at Volturnus (Zebulo	FY	Event

- The last saurian Ark Ship successfully jumps to the Precipice system. They immediately radio ahead to the outpost there to prepare for a full evacuation as they begin decelerating toward the planet Edge. The sathar ships pursuing them return to the main force orbiting Kischen.
- Two assault scouts, part of the new Strike Force Meteor, are completed at the Triad starship construction center. The UPF crew takes command of the vessels and begin accelerating for a jump to Prenglar.
- The UPFS Eleanor Moraes receives a response from the FEF HQ that the CMS Osprey is being dispatched from White Light with material and personnel to effect repairs. The Moraes crew is to continue their primary mission of surveying the planet until the Osprey arrives in 28 days.

- Deceleration complete, the HSS History's Hope begins accelerating for the jump back to YS06.
- After two days of deceleration, just as they are approaching the orbit of Outer Reach, the Gullwind and its escorts are enveloped by a powerful jamming field preventing all communications. They are assaulted by 9 vessels (3 frigates, 2 corvettes, & 4 assault scouts) that include the Outer Reach militia.
- After a brief but intense battle, the UPF vessels are destroyed and the Gullwind is
 disabled and taken in tow. The Gullwind and UPF ships manage to destroy one of the
 corvettes and an Outer Reach militia assault scout as well as severely damage one of
 the frigates. While under tow, the jamming field is maintained to prevent
 communication.

FY	Event
61.163	Strike Force Nova arrives in orbit around Terledrom (Fromeltar). They will remain in
	the system for 16 days while it waits for the ships detached in the Dramune system to
	catch up.
	The CMS Osprey begins accelerating for Theseus and the first leg of their mission to
	rescue the UPFS Eleanor Moraes.
61.164	Now slowed in the inner system, the 7th saurian Ark Ship discovers a habitable planet.
	However, due to the intensity of the star (F3 vs their native G8), the high gravity (1.5g)
	and slow rotation (40 hours), they deem the planet unsuitable. Preparations are made
	to depart the system.
	The Gullwind arrives at Darkworld station, home the Malthar who orchestrated their
	capture. The crew is overwhelmed by the Malthar's robots when they refuse to leave
	the ship.
61.165	• The 7th saurian Ark Ship begins accelerating for their next jump which will take them to
	the Theseus system.
	Having destroyed all visible traces of the saurian population on the planet Kischen, the sather fleet begins assoluted by the Bresinian system.
61 166	sathar fleet begins accelerating toward the Precipice system.
61.166	The 8th saurian Ark Ship arrives in orbit around the planet Edge (Precipice) and immediately deploys shuttles to start loading the population.
61.167	The HSS History's Hope successfully jumps back to YS06 completely charting the route
01.107	between the two systems. They relay the jump data back to their home foundation on
	Histran via subspace radio and begin the return journey back to YS07.
61.168	After incorporating lessons learned from the false start and several weeks of successful
011100	operations, Synthcorp's "Muffin Button" is declared a success and begins to roll out in
	other locations on Inner Reach.
61.169	With the population and as many supplies as possible loaded from Edge, the 8th saurian
	arkship begins accelerating out of the Precipice system. They decide to follow the general
	direction of the 7th Ark ship and begin accelerating toward OFS191.
61.170	• The two new UPF assault scouts arrive at Morgaine's World (Prenglar) and join up with
	their sister ships exercising with Task Force Prenglar.
	The 7th saurian Ark Ship successfully jumps into the Theseus system where they
	immediately detect radio signals from the inhabitants and ships in the system.
	Vectoring their deceleration to stop deep in the outer system, the saurians begin
	studying the signals coming from the inner system. They are not detected by the
	system's inhabitants.
	• The sathar ships make the jump to the Precipice system. They detect the saurian ark
	ship beginning its acceleration out of the system. Several ships are detached at high
	speed to try to intercept it.
	The sathar frigate arrives at SCC#5 (OFS019)
61.171	The CMS Osprey arrives at Minotaur station (Theseus) where they are briefed on all the
	details available about their jump route and the Moraes crew and status. They take on
	additional supplies for the stricken ship.
61.172	Two more assault scouts, destined to be part of Strike Force Meteor, are completed at
	the Streel shipyards orbiting Pale (Truane's Star). The UPF crews take possession of the
	ships and begin accelerating for a jump to Dixon's Star and then to Prenglar.

FY	Event
	• The ships of sathar TG1 arrive at SCC#3 (OFS136). They are joined by another assault
	carrier (with 8 fighters), 3 heavy cruisers, and 3 frigates. They depart immediately and
	begin accelerating for a high-speed transit to OFS167.
61.173	The Osprey departs Minotaur (Theseus) for their jump to the Padda system.
	The sathar vessels overtake the 8th Ark Ship just hours before it is ready to jump. The
	escort vessels, combined with the defenses of the Ark Ship, put up a heroic defense.
	The escort vessels sacrifice themselves to ensure the escape of the Ark Ship and
	manage to damage the pursuing sathar vessels enough that the Ark Ship, while severely
	damaged itself, can escape their pursuers and slip alone into the Void. They arrive
	safely in OFS191.
	The Sathar battle fleet arrives in orbit around Edge (Precipice). They meet no
64.474	resistance and begin bombing the planet.
61.174	Decelerating toward the inner regions of the OFS191 system, the 8th saurian Ark Ship Decelerating toward the inner regions of the OFS191 system, the 8th saurian Ark Ship
	begins scanning the binary star system.
	After being sedated and interrogated for 10 days, the crew of the Gullwind is taken to most with the Molther. On the return to their calls, their guards are set upon by
	meet with the Malthar. On the return to their cells, their guards are set upon by chukkahs running free in the station. They escape to the docking bay where the
	Gullwind is being held. (SFKH1)
	Next to the Gullwind's bay, the crew discovers a room with cages of imprisoned
	chukkahs and transport containers for them. Loading as many as they can into the
	transport containers and on to the Gullwind, they then depart the station just as a
	swarm of combat robots attack the ship. (SFKH1)
	As the Gullwind departs Darkworld station, the Malthar's ships pursue and attempt to
	destroy the vessel. The fight is quickly joined by both the Inner Reach militia and the
	elements of Strike Force Nova (LC, 2xFF, 4xAS) in the system. (SFKH1)
	With the Spacefleet ships quickly turning the tide of the battle, the pirate and Outer
	Reach militia ships scatter. The Third Dramune War is over. (SFKH1)
61.175	Arriving at Inner Reach, the crew of the Gullwind give a full report to the Inner Reach
	Government and Spacefleet on their discovery and the events of the Dramune Run.
	The crew discovers that Garlus left the Gullwind to them in his will.
	After a quick resupply, the element of SF Nova that survived the battle depart for the
	Fromeltar system to rejoin the Strike Force.
	Destruction of the saurian world Edge (Precipice) complete, the sathar battle fleet
	begins acceleration to return to the Sauria system.
61.176	• Just a few hours before making the jump to the Padda system, the CMS Osprey detects
	unknown radio signals in the outer system. The ship's energy sensors confirm several
	faint sources in the same direction. They have passed close to the saurian Ark Ship and
	its escorts and detected some intership communications.
	The CMS Osprey attempts to contact the unknown radio source but receives no
	response. They radio the contact back to Minotuar and continue on their way to the
	Padda system.
	• After analyzing the report from the CMS Osprey, the destroyer, frigate, and two assault scouts of the Theseus milita begin boosting toward the location of the contact.
61.177	The HSS History's hope arrives back in the YS07 system and begins deceleration.
01.177	Unfortunately, all jumps forward from here are 10-12 light years long. The team begins
	weighing which of the five systems would make the most sense for progress beyond it.

FY	Event
	The CMS Osprey successfully jumps to the Padda system. They immediately begin working on the jump calculations to the Waller Nexus system while not slowing down,
	only angling their vector toward that system.
	• The saurians detect the militia ships traveling toward them. Given their analysis of the
	radio signals collected so far from the system and the CMS Osprey, they believe the
	species living here are not allied with the Sathar and decide to risk communication.
61.178	With the militia ships only a day away and now decelerating toward their location, the
	saurians open communications, attempting to contact the approaching ships. The
	Theseus militia receives the communication attempt and responds in kind. They also notify Minotaur of the development.
	While initial communication between the saurians and UPF is difficult, both due to the
	long light delay as the signals travel between the ships, and the lack of a common
	language, progress is made as the distance between the ships decrease and the
	saurians' computers translate Pan-Gal into saurian.
61.179	• The Theseus militia ships arrive at the location of the saurian Ark Ship and its escorts.
	They are impressed by the design of the saurian Battle Rays and the sheer size of the
	Ark Ship itself.
	Rudimentary communications between the saurians and Frontier races are established
	and the story of the saurians' flight are related to the crews of the UPF ships. This
	information is relayed back to Minotaur.
	The Minotaur government notifies the UPF Council of Worlds via subspace radio of the detection of the saurian vessels and their contact with them.
	The detachment of SF Nova arrives in the Fromeltar system from Dramune. The
	remainder of the Strike Force beings accelerating for a jump to the Kizk-Kar system.
61.180	Having found no suitable planets in the OFS191 system, the 8th saurian Ark Ship begins
	accelerating for a jump to the OFS179 system.
	The Council of Worlds temporarily suspends all other deliberations to discuss and
	debate what to do about the saurians.
	• Several sathar ships (1 AC, 1 HC, 1 LC, & 6 fighters, designated TG2) leave SCC#2 (FS30)
C4 404	and begin accelerating for a high-speed transit to new SCC#1 (OFS203).
61.181	Having picked a system as their next target, and with deceleration complete, the crew of the HSS History's Hope begin work on jump calculations for the next leg of their
	journey, a M5 dwarf 12 light years away.
	The detached ships from SF Nova rejoin the main group as it accelerates toward Kisk-
	Kar.
61.182	Calculations complete, the CMS Osprey jumps into the Waller Nexus system and begins
	decelerating toward Mahg Mar. They radio the UPFS Eleanor Moraes to establish
	communication with the downed ship.
	The UPFS Elanor Moraes responds to the hail from the CMS Osprey and transmit the
	survey data they have collected along with coordinates for the Osprey to find the
	Moraes. The cathor SCC#E (OES010) completes a cuttor and light cruicer.
61.183	 The sathar SCC#5 (OFS019) completes a cutter and light cruiser. As the Council of Worlds continue discussion, the Minotuar (Theseus) government, under
021200	pressure from many of the citizens of their world, invite the saurians to bring their ships
	into the inner system.
61.184	While working on jump calculations and surveying the YS07 system, the radar system
	on the HSS History's Hope suddenly stops working.

١t

- As the engineers begin to work on HSS History's Hope's radar, they realized that they have been out so long that they have missed their annual maintenance. They discover several other ship systems that may cause problems in the future.
- With it being about 100 days to make a high-speed transit, perform the maintenance, and return to their current location, the HSS History's Hope crew must decide if they should return or press forward with an increased chance of breakdowns in future jumps.
- The sathar fleet arrives back at Kischen (Sauria). They begin an aggressive patrol of the system looking for any survivors or other ships that escaped their initial attack.

61.185

- After two days of internal debate, the saurians begin accelerating toward Minotaur, escorted by the militia ships.
- The 8th saurian Ark Ship successfully jumps to the OSF179 system. They immediately detect a beacon left by the 7th ark ship indicating that the system had been surveyed but nothing suitable found. Deciding that the neutron star in OFS192 is a non-starter, they begin plotting a course to FS58 and shifting their vector for the jump.

61.186

- After four days of deceleration, the Osprey settles into orbit around Mahg Mar (Waller Nexus). After a couple of orbits to orient their mapping systems, they locate the UPFS Elanor Moraes and descend to the planet's surface, landing just a few hundred meters from the survey vessel.
- With repairs still ongoing on the HSS History's Hope's radar system, the crew comes down on the side of caution and decide to return to Scree Fron for maintenance. The calculations for the jump forward are aborted and calculations are started to jump back to YSO6.
- The Sathar SCC#2 (FS30) completes a destroyer. It along with six others, depart the SCC and begin accelerating for a high-speed transit to OFS 167.

61.187

With the arrival of the CMS Osprey and the supplies it brought, the repairs on the UPFS Eleanor Moraes begin to progress much quicker. Captain Dentin takes command of the expedition and begins sending out the survey robots to scout the surrounding terrain.

61.188

- SF Nova arrives in orbit around Zit-kit In the Kisk-Kar system. They will remain here for 6 days.
- The saurian ships settle into orbit around Minotaur (Theseus). Constant holovid coverage has greatly increased the public interest in these strangely graceful ships.

61.189

- The Theseus militia establishes a "no fly" zone around the saurian vessels to keep away all the curious onlookers attempting to visit and observe the ship up close in their small shuttles and private yachts.
- Having discovered what appears to be some sort of village about 30 km away, members
 of the Moraes crew are sent by Captain Dentin to investigate with the Osprey crew
 continues working on the repairs. (SFKH3)

- The two newest assault scouts for SF Meteor arrive at Gollwin Station orbiting Morgaine's World (Prenglar). They are debriefed and join with their fellow assault scouts and formed into Patrol Group Meteor until the capital ship complete construction.
- About 3/4 of the way to the village the crew of the UPF Eleanor Moraes discovers a strange, small vehicle containing the bodies of two dead sathar and what appears to be a small, functioning robot. They radio the find back to the Osprey which sends out another team to collect the vehicle. (SFKH3)

FY	Event
	With about 3 km left to the village, the Moraes crew reaches a tall cliff that their
	explorer cannot climb. They need to continue the rest of the way on foot. They camp
64 404	at the base of the cliff for the night. (SFKH3)

	Security is enhanced on Minotaur station in preparation for the historic first meeting
	with the Saurians. Several protest groups are dispersed that were threatening to
	become violent.
	As the crew of the UPFS Eleanor Moraes reach the top of the cliff, a strange, birdlike
	creature briefly emerges from the underbrush and then disappears again. The crew can
	see it crouching in the bushes and decide to wait to see what happens. (SFKH3)
	After a several minutes, the creature emerges again from the underbrush and begins
	trying to talk to the Moraes crew. Establishing some basic communication with the aid
	of a polyvox, the creature, Beet-Chest, begins leading them to his village. (SFKH3)
	 Meeting with the village elders, the Moraes crew learn that the sathar had arrived on the planet about 3 months ago and 2 sathar attacked a party of the Notui (what the
	bird-like creatures call themselves) and were killed by the Notui. The crew spends the
	night in the village after reporting in.
61.192	Patrol Group Meteor is dispatched to White Light via Timeon.
	The saurian delegation arrives at Minotaur stations. Large crowds line the passages
	hoping to catch a glimpse of the visitors, but they are quickly moved away from the
	crowds. After several hours of discussion, they return to their ships.
	Having determined the general direction of where the sathars' ship landed (roughly in
	the same direction from the village as the UPFS Eleanor Moraes), the Moraes crew return to their ship to confer with Captain Dentin.
61.193	Calculation and course corrections complete, the 8th saurian Ark Ship jumps to the
01.133	FS58 system. They again detect a beacon from the 7th Ark Ship and realize they are still
	following the previous ship.
	Having completed jump calculations and gotten the radar system fixed, the HSS
	History's Hope begins accelerating toward YS06, they plan to make a high-speed transit
	back to Scree Fron spending only enough time in each system to overhaul engines and
	make jump calculations.
	• The saurians of the 7th ark ship return to Minotaur station to continue their discussions
	with members of the UPF and Minotaur governments, returning once again to their ships at the end of the day. This continues for the next several days.
	 Sathar Transit Group 1 arrive in the inner system of OFS167. They begin patrolling the
	system and waiting for other ships to arrive.
61.194	After much deliberation the saurians of the 8th Ark Ship decide that jumping through
	the nebula again (which would take them to the Tristkar system) would not be the best
	plan, and like the 7th Ark Ship before them, start plotting a jump to the Theseus
	system.
	• Strike Force Nova departs Zit-Kit (Kisk-Kar) for the K'aken-Kar system.
	• Sathar TG1 is reformed consisting of 1 AC (with 6 fighters), 1 HC, 1 LC, and 1 frigate. It
	 departs OFS167 immediately for a high-speed transit to SCC#1 (OFS203) A new transit group (TG3) is formed from the ships at OFS167. Consisting of 1 HC, 1 AC
	and 7 fighters, it begins accelerating for a high-speed transit to SCC#2 (FS30).

FY	Event
61.195	After three days of detailed survey by the robots, no trace of the sathar ship can be found
	on land and Captain Dentin suspects that it landed in the water of the nearby river. The
	Moraes' crew sets out to try to find some trace of it along the river.
61.196	A delegation from White Light, including Crown Princess Leotia Valentine Leotus, arrives at
64 407	Minotaur station and joins the deliberations with the Saurians.
61.197	Jump calculations complete, the 8th saurian Ark Ship begins accelerating toward the The saura systems.
	 These us system. After two days of careful search along the riverbanks, the Moraes crew discover a metal
	cable attached to a stake in the ground, partially buried in the sand, and extending out
	into the river. Investigation shows some sort of small craft submerged in the river at
	the other end of the cable.
61.198	HSS History's Hope jumps into the YS06 system and begin immediately working on the
02.1250	engines and jump calculations for a jump to YS05.
	Using spacesuits with improvised weight belts, the Moraes crew investigate the
	submerged vessel. It is a hull size 2 ship of sathar design never seen before. They
	locate the airlock at the other end of the cable but do not attempt to enter.
61.199	Descending again to the sathar ship, the Moraes crew breach the security system on the
	airlock and enter the ship. Fighting through the ship's defenses, they gain control of the
	ship with only minor damage to the ship and no serious injuries to the crew.
61.200	After a day of examining the sathar vessel, the Moraes crew discover what appears to
	be a sathar base of operations for the ship located in the FS30 system and astrogation
	data to get there. They send a report back to the Frontier Expeditionary Force HQ on
	Clarion. Sathar Transit Group 2 (1 AC, 1 HC, 4 DD, & 8 fighters), arrive at the newly operating
	SCC#1(OFS203)
61.201	PG Meteor arrives in orbit around Lossend (Timeon). They plan to spend two days here
	before continuing on to Clarion (White Light).
61.202	• The 8th saurian Ark ship successfully jumps into the Theseus system and immediately
	detect radio signals from the inner system. A few hours later they detect the 7th Ark
	Ship and establish communications.
	The UFPS Eleanor Moraes and CMS Osprey receive orders from the Frontier
	Expeditionary Force commander to select a crew to man the sathar scout ship. The
	three ships are to jump to the FS30 system and attempt to capture the sathar base. • PG Meteor's time in Timeon is cut short and their orders are changed to proceed
	immediately to the Theseus system to support Frontier Expeditionary Force operation
	in the FS30 system. They leave immediately for the White Light system.
61.203	Strike Force Nova arrives at Ken'zah-Kit in the K'aken-Kar system. They will remain in
32,200	this system for 18 days patrolling the outer system.
	Engine overhauls and jump calculations complete, the HSS History's Hope jumps back
	to the YS05 system and begins working on the jump to YS03.
61.204	After two days of preparation, the UPFS Eleanor Moraes, CMS Osprey, and the sathar scout
	ship (now named the UPFS Backdoor) lift off from Mahg Mar and begin accelerating toward
	the FS 30 system using the captured astrogation data. (SFKH41)

FY	Event
61.205	After over a week of deliberations, discussions, and subspace communications all over the
	Frontier, Princess Leotia of Clarions extends a formal invitation from her world to the
	Saurians to set up an initial settlement there.
61.206	PG Meteor successfully jumps into the White Light system. They do not slow down but
	immediately begin calculations for the 10 light year jump to Theseus.
	• The second saurian Ark ships joins the first one in orbit around Minotaur and delegates
	from that ship join the discussions.
61.207	Two UPF Frigates slated for SF Meteor are completed in the Minotaur (Theseus)
	shipyards. They begin a short shakedown cruise while they wait for the arrive of the
	assault scouts in PG Meteor.
	• After two days of internal discussions, the saurians agree to send one of the ark ships to
	White Light for direct discussions about settling on Clarion, at least initially. Princess
	Leotia offers to accompany them personally on their vessel as a show of good faith.
61.208	The UPFS Eleanor Moraes, CMS Osprey, and UPFS Backdoor successfully jump into the
	FS30 system. They begin decelerating toward the location of the sathar base,
	codenamed Base Alpha. (SFKH4)
	• The first ship, a light cruiser, is completed at the new sathar SCC#1 (OFS203) south of
	Prenglar.
61.209	• The HSS History's Hope jumps into the YSO3 system and begins work on the jump back
	to YS02.
	Sathar Transit Group 3 arrives at SCC#2 (FS30)
61.210	After 3 days of preparation, the 7th saurian Ark Ship leaves orbit around Minotaur and
	begins accelerating for a jump to the White Light system.
61.211	Jump calculations complete, PG Meteor jumps to the Theseus system and begins
	decelerating toward Minotaur.
61.212	After four days of deceleration, the UPF ships approach the location of Base Alpha in
	the FS30 system. They realize that the base is a small assault carrier. Leaving the other
	ships behind, the captured sathar scout ship (UPFS Backdoor) approaches the carrier.
	(SFKH4)
	The UPFS Backdoor is pulled in to a docking bay of the sathar carrier. After an intense
	battle through the decks of the sathar vessel, the crew manages to capture the ship and
	eject its engines before they can overload and destroy the vessel. (SFKH4)
61.213	Several ships, independently dispatched by members of the True Yaziria society, arrive in
	YS01. They discover several Family of One vessels in the system patrolling for the eventual
	arrival of the HSS History's Hope as it returns to the Frontier.
61.214	The HSS History's Hope jumps to the YS02 system arriving safely. They begin work to
	make the jump back to YS01.
	• The True Yaziria ships engage the Family of One ships destroying one, crippling another,
	and driving off the remaining two. The FoO ships are trailed until they jump out of the
	YS01 system.
	Four sathar fighters arrive from the inner system to investigate the explosions of the
	sathar carrier's engines. A battle ensues between the CMS Osprey, UPF Eleanor
	Moraes, UPFS Backdoor, and the sathar fighters. The UPF forces win but the Moraes is
C4 245	severely damaged. (SFKH4)
61.215	The 7th saurian Ark Ship jumps into the White Light system and begins decelerating
	toward Clarion. Princess Leotia radios ahead to alert her father of their arrival.

FY	Event
	PG Meteor arrives at Minotaur station, the assault scout crews are given two days of
	rest before they are given their next assignment. The two frigates join the assault
	scouts, and the ships are temporarily assigned to the Frontier Expeditionary Force
C1 21C	under Commander Reider.
61.216	After two days of engine overhauls and repairs, a small chemically propelled rocket approaches the UPF ships in the FS30 system. Capturing the rocket, they determine that it
	is a message requesting a meeting from some unknown group. They radio back to FEF
	headquarters. (SFKH4)
61.217	The UPF forces in FS30 receive orders from Commander Reider to make contact with
	whomever sent the rocket and learn as much about the sathar in the system as
	possible. He is personally bringing reinforcements.
	PG Meteor is split into two groups. One (a frigate and 4 AS) are sent to the FS26 system
	to see if any sathar ships were pursuing the saurians and establish a forward screen
	there. The other (a frigate and 2 AS), commanded by Commander Reider, depart for
	the trip to FS30.
	After completing preparations, the crew of the UPFS Eleanor Moraes depart for the and a very a pint in disasted by the group in the group left. (SEVLIA)

61.218	The full White Light Militia, sans the CMS Osprey, boost out from Clarion station to meet the saurian Ark Ship.
	The sathar SCC#1 (OFS218) completes a frigate.
61.219	With everything ready to go, the crew of the HSS History's Hope prepares to jump back
	to the YS01 system. They go on high alert as this is the system they were attacked in
	before and are worried that there will be trouble again.
	• Jumping in to the YS01 system, the crew of the HSS History's Hope detect radio signals
	from several different ships. Initially concerned, they soon realize that these ships are
	there as escorts, not antagonists. Work begins on jump calculations as the ships in the
	inner system accelerate to join them.
	The Eleanor Moraes crew arrives at the rendezvous point, a small asteroid that has heap hellowed out into a space station. After decking they meet with a new race.
	been hollowed out into a space station. After docking they meet with a new race, called the Mhemne. (SFKH4)
	Two sathar destroyers arrive at SCC#3 (OFS138) and join the forces there.
61.220	The 7th saurian Ark Ship, together with the White Light militia, settle into orbit around
	Clarion. Preparations are begun to send a delegation to the surface.
	After a day of negotiations, the UPF forces and the Mhemne reach an agreement to
	work against the sathar in the system. They plan to slip to the surface of the planet
	(Snowball) and contact the resistance there and investigate the sathar factories on the
21.221	surface. (SFKH4)
61.221	SF Nova prepares to depart the K'aken-Kar system and begins accelerating toward the When Karsustana
	K'tsa-Karsystem.
	UPF forces descend to the surface of Snowball (FS30). After fighting off a Sathar hovercraft, they make contact with the Mhemne resistance on the surface. (SFKH4)
	After consulting with Commander Reider, the UPF forces, assisted by the Mhemne
	resistance, begin a series of raids on the sathar factories on the surface of Snowball to
	disrupt sathar operations while they wait for PG Lancet to arrive in system. (SFKH4)
	Descending to the surface of Clarion (White Light), the saurian delegation are met by
	King Leotus and Princess Leotia as welcome guests. The next several days are spent in

	culture.
61.222	The larger portion of PG Meteor (retaining the PG Meteor designation) arrive in the FS26 system. They don't detect any sathar signals but do detect the saurian beacon. They begin decelerating toward the inner system. The smaller portion of PG Meteor, powdesignated PG Langet, arrive in the Padda.
	The smaller portion of PG Meteor, now designated PG Lancet, arrive in the Padda system. They begin calculations for a jump to the Waller Nexus system without slowing down.
61.223	After two days of discussions, the saurian delegation, escorted by Princess Leotia, begin a multi-day tour of Clarion to look for sites where the saurians could set up a permanent settlement.
61.224	 Joined by the True Yaziria escort vessels, the HSS History's Hope jumps to the OFS222 system. They immediately begin engine overhauls and plotting the next jump to OFS221. The last sathar Transit Group, TG1, arrives at sathar SCC#1 (OFS203). All ships stand
	down and complete any maintenance needed after their recent maneuvers.
61.225	After training the Mhemne resistance fighters, the combined UPF/Mhemne force make their first raid on a sathar factory. Catching the factory unprepared, they overwhelm the defenses and manage to capture one of the sathar shuttles. (SFKH4)
61.226	PG Meteor arrives in the inner system of FS26. The ships split up to begin exploring the
	planets there while remaining alert for sathar vessels.
61.227	 After completing engine overhauls and the astrogation calculations, PG Lancet jumps into the Waller Nexus system. The immediately begin work to jump to the FS30 system, again without slowing down. Resting a day after their first assault, the UPF/Mhemne force on the surface of Snowball attack a second sathar factory. This fight proves to be a bit more challenging as the factory is on alert after the first attack. The factory is destroyed but the attacking forces are unable to capture another shuttle. (SFKH4)
61.228	After 5 days of guided exploration, the saurians decide on a location in the southern hemisphere of Clarion that is about a quarter of the way around the planet from Valencia, Clarion's capital. They return to their ships to begin preparations for establishing the settlement.
61.229	 After another day of rest, the UPF/Mhemne forces attack the third known sathar factory. This is the most vicious fight yet and the sathar forces intentionally destroy all the shuttles when it is apparent they will lose the fight. (SFKH4) Strike Force Nova settles into orbit around Kwadl-Kik (K'tsa-Kar). They will remain here for only 2 days before continuing on to Clarion (White Light) to meet the saurians in that system. HSS History's Hope and escorts jump to the neutron star system OFS221. While there was a hint of ship radio signals, it is lost in the natural radio noise from the pulsar. Work begins on engine overhauls and jump calculations for the trip to OFS224.
61.230	After four days examining all the planets in the inner system of FS26, the ships of PG
	Meteor settle into orbit around one of the two habitable planets in the system to compare notes and prepare for a departure back to Theseus.
61.231	SF Nova departs Kwadl-Kik (K'tsa-Kar) for Clarion (White Light)

 PG Lancet completes their preparations and jumps into the FS30 system. They begin decelerating toward the inner system and establish communications with the UPF forces there. After four days of searching, the UPF/Mhemne forces on Snowball find another sathar factory. After a bloody and desperate fight, the UPF/Mhemne forces gain control of the factory and manage to capture an additional shuttle before it can be destroyed by the sathar forces. (SFKH4) One day before the ships are ready to jump to OFS224, the HSS History's Hope and escorts are attacked by 3 unknown vessels (2 corvettes and a Lightspeed Lady class privateer). In the ensuing battle, two of the escorts are destroyed and the History's Hope is damaged, but they manage to destroy the attackers Investigating the wreckage of the ships that attacked the HSS History's Hope points to the involvement of the Family of One but the evidence is inconclusive. The ships repair what damage they can and resume preparations for the jump to OFS224. On-board preparations complete, the first shuttle loads of materials for their new settlement depart the 7th saurian Ark Ship for the surface of Clarion. Within hours of their landing, protesters arrive at the saurian settlement site and attempt to disrupt the operations. However, the Clarion Royal Constabulary, already on-site to maintain order, quickly gets the situation under control. The HSS History's Hope jumps to the OFS224 system on high alert. However, there is no indication of hostile forces and they begin preparation for the jump to Scree Fron. Two destroyers, slated to join Strike Force Meteor, are completed in the Hentz (Araks) shipyards. They begin a shakedown cruise to Prenglar via the Gruna Garu system. Strike Force Nova jumps into the White Light System and begins decelerating toward Clarion The UPF ships under Command Reider in the FS30 system initiate Operation Cracker to

• Simultaneous with Operation Cracker, the CMS Osprey, UPFS Eleanor Moraes and the two captured sathar shuttles lift off from the surface of Snowball and approach the L4
station.
Gaining access to the L4 station, the UPF/Mhemne forces wage a running battle with
the sathar forces occupying the station in an attempt to capture it before the sathar
can destroy the station and kill the inhabitants.
 Having successfully captured the L4 station, the UPF and Mhemne forces brace for a
sathar counterattack.
Instead of attacking, the sathar abandon their positions on Snowball's moon, the
planet's surface, and head to the L5 station. All sathar installations are destroyed by
nuclear blast. Surprisingly, the Mhemne installations and cities are not destroyed.
After collecting fighters at the L5 station, the remaining ships begin accelerating for a
jump out of the system. As they leave L5 station, the sathar ships under construction at
the L5 station are destroyed by explosions.
After waiting to ensure the sathar don't double back, Commander Reider pursues the
sathar vessels as they continue to accelerate. The sathar send their inexperienced

	It will make a high-speed transit back to Pale (Truane's Star).
61.251	After a week of ship maintenance and crew leave, the HSS History's Hope emerges from the
	starship repair facility with a clean bill of health. The crew prepares to depart once again
	into the Yazira sector to continue their voyage of discovery.
61.252	The CMS Osprey arrives in the Waller Nexus system. They maintain their high velocity and
	begin calculations for a jump to the Padda system.
61.253	Preparations complete, and fully restocked with food and fuel, the HSS History's Hope,
	along with three other vessels acting as escorts, leave Hakosaur (Screen Fron) for a jump to
	OFS224. They plan to make another high-speed transit back to YS07 to continue their
	exploration.
61.254	PG Liberty arrives in the Padda system where they maintain their high velocity and begin
	calculations for a jump to the Waller Nexus system.
61.255	• Sathar SCC#3 (OFS138) completes a heavy cruiser and frigate. These are the last of the
	ships that will comprise the initial volley of what will come to be known as the Second
	Sathar War.
	PG Virgo jumps into the Osak system and begins calculations for the jump to the
	Capella system.
61.256	The two destroyers designated as part of SF Meteor arrive at Gollwin Station
	(Morgaine's World, Prenglar).
	The CMS Osprey arrives in the Padda system and establishes contact with PG Liberty
	briefing them on the events in the Liberty system. They maintain their high velocity
	and begin calculations for a jump back to Theseus.
61.257	SF Nova arrives at the new Fortress Kdikit (Kdikit, Madderly's Star). They begin a series of
	maneuvers to fine tune the station's tracking systems.
61.258	PG Meteor arrives at Fortress Redoubt (Clarion, White Light). UPF High Command
	decides to station the patrol group there indefinitely while the remainder of the ships
	for the strike force are completed. They will assemble here as they are finished.
	The SF Meteor destroyers are dispatched from Gollwin Academy (Morgaine's World,
	Prenglar) with orders to join up with the other ships in White Light. They begin
	accelerating for a jump to Timeon.

	PG Liberty jump into the Waller Nexus system. They begin calculations for their final

FY	Event
	The CMS Osprey jumps into the Theseus system. Deciding to head straight home, they
	continue at high velocity across the system and begin calculations for the jump to
	White Light.
	The HSS History's Hope and her escorts jump into the OFS224 system. They begin
	overhauling the ships' engines and calculating their jump to OFS221.
61.259	After several weeks of intensive work, the first saurian dwellings on Clarion (White Light)
	are completed and ready to be occupied. They just need the power generator to be
	finished.
61.260	PG Virgo jump into the Capella system and begins work for the jump back to the Zebulon
	system.
61.261	PG Liberty jumps into the Liberty system and begins decelerating toward Snowball.
61.262	The first power generator at the saurian settlement is completed and brought on-line. The
	construction crews can now move into permanent residences and begin working on
61.263	expanding the settlement.
01.203	The CMS Osprey jumps into the White Light system and begins decelerating toward Clarion and home.
	The HSS History's Hope and her escorts jump into the OFS221 system and begin work
	on jump calculations for the jump to OFS222 and work on overhauling the ships'
	engines.
61.264	A small fleet of sathar ships, consisting of 1 HC, 1 AC, 1 LC, 4 DD, 2 FF, and 8 fighters),
02.20	designated Sathar Battle Fleet F1 (SBF-F1) arrive at SCC#5 (OFS019) from deeper in sathar
	controlled space.
61.265	After eight days of exercises with the crews of Fortress Kdikit, SF Nova departs Kdikit
	(Madderly's Star) for a jump to Triad (Cassidine).
	PG Virgo arrives in the Zebulon system and begins work for the jump back to Pale
	(Truane's Star).
61.266	Sathar Fleet SBF-C1 (1 HC, 1 LC, 2 DD, & 1 FF) departs SCC#3 (OFS138) and begin
	accelerating for a jump to the OFS137 system.
	PG Liberty arrives at Snowball (Liberty) and joins up with PG Lancet. The assault scout
	in PG Lancet is transferred to PG Liberty, with the UPFS Flying Cloud (frigate), UPFS
	Eleanor Moraes, and UPF Backdoor (sathar scout ship) remaining attached to PG
	Lancet.
61.267	The SF Meteor destroyers arrive at Lossend (Timeon). The SF Meteor destroyers arrive at Lossend (Timeon).
	The CMS Osprey arrives back at Clarion. The ship is immediately put into the starship
	construction center for maintenance, repairs, and refits while the crew is given some
C1 3C0	 much needed leave. Sathar Fleet SBF-B1 (1 HC, 1 LC, 2 DD, & 1 FF) departs the rendezvous point in OFS167
61.268	Sathar Fleet SBF-B1 (1 HC, 1 LC, 2 DD, & 1 FF) departs the rendezvous point in OFS167 and begins accelerating for a jump to the OFS166 system.
	• The HSS History's Hope and escorts jump into the OFS222 system. They begin work on engine overhauls and jump calculations for the YSO1 system.
61.269	The SF Meteor destroyers depart Lossend (Timeon) and begin accelerating for a jump
01.203	to the White Light system.
	After three days debriefing the commander of PG Liberty and introducing him to the
	Mhemne contacts, Captain Reider and PG Lancet depart Snowball (Liberty) for a jump
	back to the Waller Nexus system and a high-speed transit to Minotaur (Theseus).

61.270	• Sathar Fleet SBF-A1 (2 HC, 2AC, 1 LC, 4 DD, 2 FF & 14 fighters) departs SCC#1 (OFS203)
	and begin accelerating for a jump to the FS12 system.
	PG Virgo arrives in the Truane's Star system and begins decelerating toward Fortress
	Pale (Pale, Truane's Star).
61.271	• Sathar Fleets SBF-E1 (1 HC, 1 LC, 2 DD, & 1 FF) and SBF-F1 depart SCC#5 (OFS019) and
	begin accelerating for a jump to the Kazak system in the Rim.
	• Sathar fleet SBF-C1 arrives in the OFS137 system. It maintains its high speed and begins
	calculations for a jump to OFS136.
61.272	Sathar Fleet SBF-D1 (1 HC, 1 LC, 2 DD, & 1 FF) departs SCC#4 (OFS111) and begins
	accelerating for a jump to the OFS020 system.
	The HSS History's Hope and escorts jump into the YS01 system. They detect
	transmissions from several other ships in the system. Hoping to avoid a confrontation,
64 272	they begin work on engine overhauls and jump calculations for the YSO2 system.
61.273	Sathar fleet SBF-B1 arrives in the OFS166 system. It maintains its high speed and begins
61.274	 calculations for a jump to FS33. Sathar fleet SBF-C1 arrives in the OFS136 system. It maintains its high speed and begins
01.2/4	• Sathar fleet SBF-C1 arrives in the OFS136 system. It maintains its high speed and begins calculations for a jump to FS56.
	 Strike Force Nova arrives at Triad (Cassidine). They will spend just 2 days in the system
	exercising with Task Force Cassidine before heading back to Morgaine's World
	(Prenglar).
	PG Lancet arrives in the Waller Nexus system. They immediately begin work on
	overhauling the ships' engines and plotting a jump to Padda.
61.275	Sathar fleet SBF-A1 arrives in the FS12 system. It maintains its high speed and begins
	calculations for a jump to Prenglar.
	• Another small fleet of sathar ships, consisting of 2 LC, 3 DD, & 1 FF, designated SBF-F2
	arrive at SCC#5 (OFS019) from deeper in sathar controlled space.
	PG Virgo arrives at Fortress Pale (Pale, Truane's Star). The crews are given a week of
	leave while the ships go into the starship construction center for repairs and
	maintenance.
61.276	Sathar fleets SBF-E1 and SBF-F1 arrive in the Kazak system. SBF-F1 begins decelerating
	toward the inner system to engage the Rim forces there. SBF-E1 maintains its high
	speed and begins calculations for a jump to Zebulon.
	Sathar fleet SBF-B1 arrives in the FS33 system. It maintains its high speed and begins salaulations for a jump to Klass Korn
	calculations for a jump to K'tsa-Kar.
61.277	 SF Nova leaves Triad (Cassidine) for a jump to Morgaine's World (Prenglar) Sathar fleet SBF-D1 arrives in the OFS020 system. It maintains its high speed and
01.277	begins calculations for a jump to Fromeltar.
	Sathar fleet SBF-C1 arrives in the FS56 system. It maintains its high speed and begins
	calculations for a jump to Kisk-Kar.
	The sathar fleet (SBF-F1) decelerating toward Stenmar (Kazak) are detected by Rim
	forces in the system (10 F, 3 AS, 2 FF, 2 DD, 1 LC), alerts go out to systems in the Rim
	and the Frontier
	• Just hours before the engine overhauls are complete and the HSS History's Hope is
	ready to jump once again, the ship and her escorts are attacked by three unidentified
	vessels.
	A running battle ensues as the escorts attempt to screen the HSS History's Hope long
	enough to make the jump. In the ensuing fight, one of the escort vessels is destroyed

- along with two of the attacking ships. The last attacker manages to get a hit in on the History's Hopes engines, but it is not enough to stop the ship and it slips into the Void.
- After the HSS History's Hope jumps out of the YSO1 system, the remaining escorts ships finish off the final attacker. After the fight, the escorts repair what damage they can and begin heading back to Scree Fron for repairs.

61.278

- Now in the YSO2 system, the crew of the HSS History's Hope works on repairing the battle damage to their ship and preparing for the next leg of their journey, a jump to the YSO3 system.
- The 2 destroyers arrive at Fortress Redoubt (Clarion, White Light). They join with the
 other ships of PG Meteor which now consists of the two destroyers and 3 assault
 scouts.
- With the alert from the Kazak system, PG Virgo's maintenance is fast-tracked and the crews are recalled from leave after only 3 days.

61.279

PG Lancet makes the jump to the Padda system. Work begins immediately on the engines and calculations for the jump to Minotaur (Theseus).

61.280

- Sathar battle fleets appear in five different Frontier systems within hours of one another and most begin decelerating towards the inhabited worlds in those systems. SBF-A1 arrives in the Prenglar system, SBF-B1 arrives in K'tsa-Kar, SBF-C1 arrives in Kizk-Kar, SBF-D1 arrives in Fromeltar, and SBF-E1 arrives in Zebulon.
- Unlike the other sathar fleets, SBF-E1 doesn't slow down in Zebulon but prepares for a jump to the Truane's Star system.
- Due to the alert sent out by forces in the Kazak system, these fleets are detected within hours of their arrival in system. Alerts are broadcast all across the Frontier.
- Task Force Cassidine, leaving its minelayer in the Cassidine system, departs on a high-speed risk jump to Dramune.
- PG Meteor is dispatched on a high risk run to reinforce the armed station at K'tsa-Kar as there is no militia in that system. The Clarion Royal Marines (1 FF, 4 AS) join PG Meteor.
- The two ZKKDA assault scouts, currently in K'aken-Kar also depart on a high risk run to the K'tsa-Kar system per the defense agreement.
- Both of the planetary militias of Dramune independently agree to make a high speed risk jump to the Fromeltar system to assist with the defense of that system, hoping to stop the sathar before they can get any further into the Frontier.
- Strike Force Nova arrives in the Prenglar system within hours of the sathar fleet appearing. They begin decelerating to engage the sathar fleet simultaneously with Task Force Prenglar.
- Sathar Fleet SBF-B2 (1 HC, 1 AC, 3 DD, 1 FF, 7 F) departs the rendezvous point in OFS167 and begins accelerating for a jump to the OFS166 system.

- Battle of Stenmar (Kazak) between Rim forces (1LC, 2 DD, 2FF, 3 AS, 10 F & 1 fortified station) and SBF-F1. The sathar forces are completely destroyed and the Rim only lose 1 LC, 2 DD, and 1 AS with the station severely damaged. Word of the victory is broadcast across the Rim and Frontier.
- PG Lancet jumps back into the Theseus system and is dissolved. The UPFS Eleanor
 Moraes and UPFS Backdoor break off from the group and start decelerating toward
 Minotaur. The UPFS Flying Cloud remains at velocity and starts working on the jump to
 White Light.

- The last of the ships of PG Virgo emerge from their maintenance in the Streel shipyards (Pale, Truane's Star). The crews go on high alert as they monitor the sathar progress across the Frontier. While cheered by the news of the Flight's victory in Kazak, they mourn the loss of friends made while stationed in that system.
- 61.282
- The sathar forces from the Sauria system arrive back at their base, SCC#10 (OFS228) where they stand down to effect repairs from the recent campaign.
- Sathar fleet SBF-E1 jumps into the Truane's Star system and begins decelerating toward Pale. The Truane's Star militia, along with PG Virgo, prepare to meet them.
- Task Force Cassidine successfully jumps into the Dramune system, they maintain the high speed and start working on a risk jump to Fromeltar.
- The Dramune militias successfully jump into the Fromeltar system and begin decelerating toward Terledrom, the apparent destination of the sathar forces in that system.
- PG Meteor and the White Light militia successfully jump into the K'tsa-Kar system and begin decelerating toward the planet and sathar forces approaching it.
- The ZKKDA assault scouts also successfully arrive in the K'tsa-Kar system and race to join the fight.
- 61.283
- Sathar Fleets SBF-E2 (1 HC, 1 AC, 1 LC, 1 DD, 1 FF, & 8 fighters) and SBF-F2 depart SCC#5 (OFS019) and begin accelerating for a jump to the Kazak system in the Rim. After the initial loss in the Kazak system, the sathar commit their 4 new cutters to SBF-F2 to boost the strength of that fleet.
- Deciding that PG Liberty can provide advanced warning if sathar start to come from that direction, the Theseus militia, together with the remaining saurian forces in Theseus, begin accelerating for a jump to the White Light system.
- 61.284
- The HSS History's Hope jumps to the YS03 system and begins preparations for a jump to YS05.
- Sathar fleet SBF-B2 arrives in the OFS166 system. It maintains its high speed and begins calculations for a jump to FS33.
- TF Cassidine makes the jump to the Fromeltar system and begin a hard deceleration.
 They won't arrive in time for the initial battle but can engage any sathar forces remaining in the system if the militias cannot successfully hold the line.
- 61.285
- Battle of Zik-Kit (Kisk-Kar) Overwhelmed by the forces of SBF-C1 the two militia assault scouts and the armed station are destroyed with only minimal damage to the sathar vessels.
- Battle of Terledrom (Fromeltar) The combined militias of Dramune and Fromeltar quickly overwhelm the sathar forces in an intense 20-minute battle. The only loss is the Inner Reach destroyer with the 2 Outer Reach destroyers sustaining heavy damage.
- Battle of Kawdl-Kit (K'sta-Kar) With some amazing gunnery by the UPF and militia forces, the sathar fleet is reduced to scrap in just 20 minutes. However, before they are destroyed, they manage to obliterate the armed station orbiting Kawdl-Kit. No UPF or militia forces were lost although the CMS Osprey sustained some hull damage that will require a shipyard to repair.
- Battle of Gran Quivera (Prenglar) Approaching cautiously due to the expected minefield, the sathar's slow speed limits their maneuverability and they are overwhelmed by the combined forces of TF Prenglar and SF Nova in less than an hour. The UPF only lose 2 F, 5 AS, 1 DD, and 2 LC in the battle. Several other ships will require shipyard repairs.

61.286

- The UPFS Flying Cloud jumps into the White Light system. It maintains its high speed while performing engine overhauls and jump calculations to get to K'sta-Kar and join up with PG Meteor.
- The CMS Osprey leaves Kawdl-Kit and begins accelerating for a jump back to the shipyards orbiting Clarion. The White Light SCC has space for up to a HS 4 ship, so space is held for the Osprey.
- A HS 8 freighter completes its annual maintenance at the Terledrom SCC giving a total
 of 12 HS of space in the SCC. The two Outer Reach frigates are immediately admitted
 for repairs.
- Orbiting high above Zik-Kit the sathar ships spend the day rearming but make no move toward the planet. All UPF and militia ships that were in battles the previous day also spend the day rearming and checking that all systems are ready to go.
- With the militias in control of the Fromeltar system, Task Force Cassidine immediately starts calculations and acceleration for a jump to the K'izk-Kar system.

61.287

- Sathar fleet SBF-B2 arrives in the FS33 system. It maintains its high speed and begins calculations for a jump to K'tsa-Kar.
- Battle of New Pale (Truane's Star) Sathar target the smaller UPF vessels to great effect destroying 5 fighters, 6 AS, and 1 LC while only losing a DD & LC. While their remaining ships are damaged, so are the remaining UPF vessels which are unable to purse as the sathar break off the fight.
- After finishing what battle repairs they can, the remnants of SBF-E1 start accelerating for a jump to the Zebulon system.
- SBF-C1 leaves orbit around Zit-Kit (Kizk-Kar) and begin accelerating for a jump to the Kaken-Kar system.
- Spacefleet now has several damaged ships in need of immediate repair and a need to replace ships lost in battles with the sathar. However, there is no space in most SCCs across the Frontier and especially in Prenglar.
- Given the state of the Frontier's starship construction centers, and expecting things to get worse, Spacefleet addresses the Council of Worlds and requests that the Wartime Construction Control clause of the UPF charter be invoked. A relic of the original charter, it has never been invoked in the history of the UPF.
- Receiving word of the departure of SBF-C1, PG Meteor and the K'aken-Kar militia, now rearmed, begin accelerating for a jump to the K'aken-Kar system to meet the oncoming sathar forces.

- Sathar fleets SBF-E2 and SBF-F2 arrive in the Kazak system. SBF-F2 begins decelerating toward the inner system to engage the Rim forces there. SBF-E2 maintains its high speed and begins calculations for a jump to Zebulon.
- Shortly after their arrival in the Kazak system, the sathar fleets are detected and an alert is sent out. The Rim forces brace for another battle.
- Space clears in the Outer Reach (Dramune) SCC and construction starts on a new Destroyer for the Inner Reach militia.
- Space clears in the CDC shipyards orbiting Triad (Cassidine), Spacefleet convinces the shipyard managers to start construction of 5 fighters and another assault scout, preempting the regular construction schedule.
- One of the Outer Reach frigates completes its repairs in the Terledrom (Fromeltar) shipyard freeing up 5 HS of space.

61.289

- Receiving the alert from Kazak, Spacefleet realize they only have 10-11 days to reinforce Truane's Star. Replenishing SF Nova's order of battle with ships from TF Prenglar, but having to leave the damaged assault carrier and its fighters behind, it begins a high risk jump to Dixon's Star and then on to Truane's Star.
- Betting that Cassidine is safe, the third UPF Minelayer is ordered to Fromeltar. It begins accelerating for a jump to Dramune as the first leg of its trip.
- Realizing that there is still enough room in the Outer Reach (Dramune) SSC, Spacefleet gets construction started on a new assault scout before anything else can be moved in.
- The second Outer Reach frigate completes its repairs in the Terledrom (Fromeltar) shipyard freeing up 5 more HS of space. As HS 10 mining ship is moved in to the shipyard for its annual maintenance.

61.290

- Two-day end of year celebration on Hum begins. With the events currently happening in the Rim and Frontier, the celebrations are more subdued than normal.
- The HSS History's Hope arrives in YS05 and begin preparations for the jump to YS06.
- Overhauls complete, the UPFS Flying Cloud jumps into the K'sta-Kar system. It remains at high speed, working on calculations for a jump to K'aken-Kar with the rest of PG Meteor. It will be just a day behind them.
- More space opens up in the CDC shipyards (14 HS worth). However, having just bumped six ships ahead in the queue for Spacefleet, they resist efforts to start more military construction giving the space to a large freighter that has been waiting over a month for its annual maintenance.
- Space opens up in the Minotaur (Theseus) shipyards (6 HS worth). The Theseus government starts construction of a new destroyer for the militia although they suspect the hull will be assigned to Spacefleet.
- Space opens up (4 HS worth for a total of 6 free) in the Terledrom (Fromeltar) SCC. The Terledrom government alerts Spacefleet of the availability and starts construction on 2 assault scouts, one for Spacefleet and one for the militia.
- Space (8 HS) opens up in the PGC shipyard at Gran Quivera (Prenglar) as a freighter completes maintenance. After the recent battle, shipyard owners are more than happy to hold the space for Spacefleet. The damaged assault scout and frigate are moved in immediately and begin repairs.
- TF Cassidine jumps into the Kizk-Kar system. They don't slow down but immediately begin working on engine overhauls and calculating a jump to K'aken-Kar.

- Sathar fleet SBF-E2 arrives in the Zebulon system. They don't slow down but begin immediate calculations for a jump to the Truane's Star system.
- Sathar fleet SBF-B2 arrives in the K'tsa-Kar system and starts decelerating toward the White Light Militia ships there. PG Meteor and the K'aken-Kar militia are less than 10 hours from jumping out of the system when the sathar are detected.
- Realizing that the K'aken-Kar militia will suffer the same fate as the K'izk-Kar militia if they return to face the sathar alone, PG Meteor continues with them for the jump to K'aken-Kar.
- SF Nova jumps into the Dixon's Star system. Working feverishly on overhauls to the assault scouts' engines, they begin calculating the jump to Truane's Star.
- The UPF assault scout and frigate complete their hull repairs after a single day in the PGC shipyard (Gran Quivera, Prenglar) and return to active duty.

- Another 6 HS of space opens up in the PGC shipyards (Gran Quivera, Prenglar) for a total of 16 HS of space available. The damaged assault carrier is moved into the shipyard to have its engines repaired.
- Realizing that they cannot withstand the incoming sathar force, the White Light militia starts plotting a jump back to their home system. They delay departure, however, acting as bait and hoping to draw SBF-B2 deeper into the system so they don't jump immediately after PF Virgo or straight to White Light.

61.292

- SBF-C1 jumps into the K'aken-Kar system and begins decelerating toward the planet.
- PG Meteor and the K'aken-Kar militia jump into the K'aken-Kar system and begin decelerating to meet the sathar.
- The Theseus militia, along with the second saurian Ark Ship arrive in orbit around Clarion (White Light). The saurians join their sister ships in orbit while the Theseus militia confers with the Clarion Royal Marines and Fortress Redoubt to establish defensive plans.
- SBF-E1 jumps into the Zebulon system and establish contact with SBF-E2 relaying full details of their encounter. They start working on a jump to Kazak System and then back to SCC#5 (OFS019) for repairs.
- The UPF assault carrier's engines complete their repairs. With 16 HS of space available at the PGC shipyards, Spacefleet begins construction on a fighter, an assault scout, and a light cruiser.

61.293

- Second Battle of Stenmar (Kazak) seriously outgunned, the Rim forces are nearly all destroyed with only a single fighter surviving. They manage to take out a sathar light cruiser and cutter before being overwhelmed.
- The UPFS Flying Cloud jumps into the K'aken-Kar system. It remains at high speed to catch up with the rest of PG Meteor and will execute a hard deceleration to match speed with the group when it does.
- Having succeeded in drawing SBF-B2 into the K'sta-Kar system, the White Light militia, reluctant to abandon Kawdl-Kit, begins acceleration for their jump home.
- Seeing the White Light militia start to leave the system, SBF-B2 changes course and start accelerating for a jump to K'aken-Kar to join SBF-C1.
- The UPF minelayer jumps into the Dramune system. It doesn't slow down but begins calculations for its jump to Fromeltar.
- Space (5HS) opens up in the Hentz (Araks) shipyards. It is not immediately filled as there is a larger ship waiting on maintenance.

- SBF-E2 jumps into the Truane's Star system and begin decelerating toward New Pale.
- SF Nova arrives in the Truane's Star system just hours after the sathar. Unfortunately, they arrived much farther out in the system than anticipated. They begin a fast run and hard deceleration toward New Pale in order to arrive before the sathar forces.
- Seeing more and more sathar ships arriving in the Frontier, the Council of Worlds stops blocking the activation the Wartime Construction Control (WCC) clause in the UPF Charter. Spacefleet is granted complete control of all starship construction centers in the Frontier.
- With the activation of the WCC clause, Spacefleet, with the assistance of Star Law, move to take control of the shipyards. They temporarily suspend any new maintenance work while they sort out the schedule and priorities.

- More space opens in several SCCs across the Frontier: 2 HS at Hentz (Araks) for a total
 of 7 HS, 18 HS at Rupert's Hole (Cassidine) emptying that facility, 6 HS at Terledrom
 (Fromeltar) 12 HS at Gran Quivera (Prenglar), and 5 HS at Minotaur (Theseus)
- Working to replenish their immediate losses, Spacefleet takes control of the destroyer construction at Minotaur, and start construction of 2 assault scouts at Hentz, a light cruiser at Gran Quivera, and a fighter and assault scout at Terledrom.
- Lacking facilities to construct military vessels, the Rupert's Hole SCC is designated for ship maintenance and two ships are moved in immediately. The other Type III SSCs at Pale & Clarion are given the same designation.
- Spacefleet also authorizes the start of construction for two assault scouts to replenish some of the ships lost by the Truane's Star militia with the understanding that they may be deputized by Spacefleet during the conflict. Construction starts in Terledrom and Minotaur

61.295

- The HSS History's Hope safely arrives in YS06 and begin working on a jump to the YS07 system.
- The CMS Osprey arrives back at Clarion and is quickly admitted into the shipyards for repair.
- TF Cassidine jumps into the K'aken-Kar system and begins decelerating toward Ken'zah-Kit. Once again, they won't make the initial engagement arriving a few days too late. However, they are determined to stop the sathar here if PG Meteor and the militia ships cannot.
- 15 HS of space opens in the CDC shipyards (Triad, Cassidine). Spacefleet starts construction on another light cruiser to finish filling the holes in their ranks and allows the Truane's Star militia to begin construction of a final assault scout.

61.296

- With the loss of the Liberty system, and the massive losses in the initial foray into the Frontier, sathar forces and production from SCC#10 are committed to war effort against the Frontier. This adds 9 fighters, 3 FF, 5 DD, 3 LC, 2 HC, and 2 AC to the sathar roster in addition to the SCC's production capacity.
- The CMS Osprey emerges from the Clarion shipyards fully repaired and ready for action once again. A small HS:4 yacht is moved in the SCC for maintenance.
- Battle of Ken'zah-Kit (K'aken-Kar) The sathar obliterate the station with a single concentrated barrage but then are quickly destroyed by the combined UPF and militia forces. Besides the station, only a single militia assault scout was lost with damage to three other ships that will require time in a shipyard to repair.
- Sathar SCC#4(OFS111) completes construction of a new frigate.
- Realizing that SF Nova will reach New Pale in time for the battle, and having a nearly 2:1 hull disadvantage against SF Nova, PG Virgo, and the remaining Truane's Star militia, SBF-E2 reverses course and start plotting a jump back to Zebulon.
- 12 HS of space opens up in the CDC SCC (Triad, Cassidine). Construction is begun on two new assault scouts to replace those lost by the Kizk-Karmilitia. The remaining space is given over to a HS:6 ship for annual maintenance.
- 22 HS of space opens up in the PGC shipyards (Gran Quivera, Prenglar). With Spacefleet's immediate needs being met, they move two HS:11 ships in for maintenance.

61.297

• SF Nova arrives in orbit around New Pale. The crew spends the day resting from their hard trip as they watch the sathar begin to fall back. The remaining ships of PG Virgo are absorbed into the Strike Force.

- The White Light militia jumps back to their home system and begins deceleration toward Clarion.
- The UPF minelayer jumps into the Fromeltar system and begins decelerating to join up with the militia forces holding that system.
- With the loss of SBF-C1 in the K'aken-Kar system, and recognizing that they are out gunned by the UPF forces there, SBF-B2 does not jump to K'aken-Kar but begins decelerating back toward Kawdl-Kit in the K'sta-Kar system.
- With its engines repaired, SF Nova's assault carrier, together with its four surviving fighters, begin a high-speed jump to catch up with the main group. At the same time PG Virgo's carrier, leaving its 3 fighters behind, begins a transit back to Prenglar.
- The newly constructed sathar frigate at SCC#4 (OFS111) begins a transit to SCC#5 (OFS019)
- SBF-J1 (1 AC, 1 HC, 2 LC, 1 DD, 1FF, & 8 fighters) departs SCC#10 and begins a high-speed transit that will eventually take it to K'sta-Kar.
- SBF-J2 (1 HC, 1 LC, 3 DD, 2 FF) departs SCC#10 and begins a high-speed transit to the Liberty system.
- 8 HS of space opens in the Hentz (Araks) SCC for a total of 9 HS of open space. A small HS:9 freighter is moved in for maintenance.
- SBF-E1 jumps back into the Kazak system. They do not slow down and start plotting a jump back to SSC#5 in the OFS019 system.
- An additional 13 HS of space opens in the Hentz (Araks) SCC. A HS 11 mining ship is moved in for annual maintenance.

61.298

- After rearming the ships in the K'aken-Kar system, TF Cassidine and PG Meteor begin
 accelerating for a jump to the K'sta-Kar system to confront SBF-B2 or drive it out of the
 system.
- The damaged ships (a frigate & assault scout from PG Meteor and the surviving K'aken-Kar assault scout), designated Repair Group (RG) One are ordered to Fromeltar for repairs. They begin accelerating for a jump to Kizk-Kar.
- 13 HS of space opens in the PGC shipyards (Gran Quivera, Prenglar). A HS:12 ship is moved in for maintenance.

61.299

A small group of 8 civilian privateer vessels, hailing from the yazirian worlds of the Frontier and calling themselves the Yazira Squadron, arrive in orbit around Morgaine's World (Prenglar) and request permission to assist Starfleet in the fight against the sathar.

61.300

- The HSS History's Hope arrives in the YSO7 system and begins decelerating toward the inner system. Back at the last system explored, they plan to spend a few days resting here before starting to chart new routes toward their destination.
- SBF-E2 jumps back into the Zebulon system and starts decelerating toward Volturnus.
- SBF-B2 settles back into a high orbit around Kawdl-Kit (K'sta-Kar).
- SBF-E1 jumps back into the OFS019 system and begins decelerating toward the starship construction center there for repairs.
- 8 HS of space opens in the PGC shipyards in Gran Quivera (for a total of 9 HS of space available). A HS:9 ship is moved in for maintenance.

- Worried that since the sathar have a route into Prenglar they may also have one to Gruna Garu, Spacefleet sends the Yazira Squadron back to Gruna Garu to bolster the defenses there.
- With the sathar mostly on the retreat at the moment, and based on the success of the fighters and assault scouts in the recent engagements, Spacefleet announces the

FY	Event
	creation of the Frontier Fighter Corps with a plan to station multiple squadrons of
	fighters in every system of the Frontier.
	As the first step of implementing the Frontier Fighter Corps, all currently available
	space in the Type I and II shipyards around the Frontier are used to start construction of
	new fighters. At the moment that means 2 are started in Hentz (Araks) and 2 in
	Minotaur (Theseus).
61.302	The White Light militia arrive back in orbit around Clarion.
	The UPF minelayer arrives in orbit around Terledrom, joining up with the Fromeltar and
	Dramune militias.
	SF Nova's Assault carrier jumps into the Dixon's Star system and starts working on
	calculations for the jump to Truane's Star. The carrier leaving PG Virgo also arrives in
	the system and starts working on calculations for the jump to Prenglar.
	The lone sathar frigate jumps into OFS110 and begins calculations for a jump to
	OFS022.
	SBF-J1 jumps into the OFS170 system and begins calculations for a jump to OFS169.
	SBF-J2 jumps into the OFS177 system and begins calculations for a jump to the Dayzer
	system (OFS178).
	Sathar SCC#5 (OFS019) completes construction of a cutter.
61.303	SBF-J1 jumps into the OFS169 system and begins calculations for a jump to the OFS167
	system.
	Task Force Cassidine and PG Meteor jump into the K'sta-Kar system and begin
	decelerating toward the sathar forces orbiting Kawdl-Kit.
	RG One arrives in the Kizk-Kar system and begin engine overhauls and plotting a jump
	to Fromeltar.
	• 11 HS of space open up in the Triad (Cassidine) SSC. Work is begun on 11 fighters for
	the newly formed Frontier Fighter Corps. There are complaints that over half the SCC's
	capacity are being used for Spacefleet but Spacefleet points out that some of that
	usage is for planetary militias as well.
	Deciding not to wait any longer, two HS:6 ships under construction in the Pale SCC (True and lo Star) are as year of such as the second such
	(Truane's Star) are moved out of the shipyard by Spacefleet to make room for the
61.304	damaged light cruiser.
01.304	• The crew of the HSS History's Hope start working on the next jump in their journey to a
	small red dwarf star. It's a long one, just under 12 light years long jumping a big void of
	stars in this region of space. They designate their target system YS08. Detecting the inbound UPF forces, and recognizing that they are still outgunned, SBF-B2
	decides to abandon K'tsa-Kar. They break orbit from Kawdl-Kit and begin accelerating
	to jump out of the system. 13 HS of space opens up in the Hentz (Araks) shipyard. Two HS:5 ships are moved in for
	maintenance and work begins on constructing 3 new fighters.
	4 HS of space opens up in the Clarion (White Light) shipyard and a small HS:4 ship is moved in for maintenance.
61.305	 The sathar SCC#10 (OFS174) completes construction of a fighter. SF Nova's assault carrier jumps into the Truane's Star system and begin deceleration
01.303	toward the rest of the Strike Force.
	The lone sathar frigate jumps into OFS022 and begins calculations for jump to OFS018.
	The force satiral ringate jumps into or 3022 and begins calculations for jump to 073016.

FY	Event
	 SBF-E1 arrives back at SCC#5 (OFS019) and is disbanded. The work halts on the heavy cruiser currently under construction and the damaged frigate and destroyer enter the shipyard for repairs. 6 HS of space opens up in the CDC SCC (Triad, Cassidine), with another 17 HS opening up tomorrow, the space is held to allow some larger ships to move in for maintenance. 9 HS of space opens in the Terledrom (Fromeltar) SCC. With RG One only a few days away, the space is held for those ships so that battle repairs can begin immediately when they arrive.
61.306	 SBF-J1 jumps into the OFS167 system and begins calculations for a jump to the OFS166 system. SBF-J2 jumps into the Dayzer system (OFS178) and begins calculations for a jump to the OFS179 system. 11 HS of space opens in the PGC shipyards (Gran Quivera, Prenglar). Spacefleet begins construction of 8 fighters and an assault scout using the available space.
61.307	 The lone sathar frigate jumps into OFS018 and begins calculations for jump to OFS019 The damaged sathar destroyer under repair at SCC#5 (OFS019) is finished and emerges from the shipyard ready for battle. SF Nova's assault carrier arrives in orbit around Pale and rejoins the fleet. It collects the fighters left by PG Virgo as part of its compliment. The assault carrier from PG Virgo arrives back at Morgaine's World (Prenglar). The crew is debriefed on their trip to the Rim and recent battle at New Pale (Truane's Star). After four days of round-the-clock work by the engineers from the Pale SCC and SF Nova, the light cruiser emerges from the Streel shipyards fully repaired and ready for action. The two ships that were moved out to make room resume construction.
61.308	 SBF-J1 jumps into the OFS166 system. Upon arrival, their orders are changed, and they are ordered to proceed to SCC#3 (OFS138) instead of heading into K'tsa-Kar. They begin plotting a jump to OFS157. RG One arrives in the Fromeltar system and begins deceleration toward the shipyards at Terledrom. Task Force Cassidine and PG Meteor arrive in orbit around Kawdl-Kit, much to the relief of the planet's populace. The damaged sathar frigate under repair at SCC#5 (OFS019) is finished and emerges from the shipyard ready for battle. The damaged heavy cruiser is moved in to begin the extensive hull repairs it needs.
61.309	 SBF-J2 jumps into the OFS179 system and begins calculations for a jump to the Liberty system (FS30). SBF-B2 jumps into the FS33 system and begins decelerating. After two days rest, the assault carrier at Morgaine's World (Prenglar) is ordered to Triad (Cassidine) to await completion of the first fighters for the Frontier Fighter Corps and then to shuttle them to the Kizk-Kar system. It is designated Shuttle Group (SG) Alpha. 18 HS of space opens in the Hentz (Araks) SCC. A HS 14 ship is moved in for maintenance. Another fighter is started for Spacefleet and the remaining space is held

the jump to YS08.

FY	Event
	Yazira Squadron arrives back in the Gruna Garu system where they join up with the
	local militia to coordinate the defense of that system.
	Strike Force Nova, together with the remaining ships of the Pale militia, leave Fortress
	Pale and begin accelerating toward the Zebulon system to engage the sathar forces
	now orbiting Volturnus.
61.311	• The lone sathar frigate jumps into OFS019 and begins decelerating toward SCC#5.
	SBF-J1 jumps into the OFS157 system and begin calculations for a jump to the OFS156
	system.
	• With the sathar apparently gone from the system, PG Meteor is ordered to the Kizk-Kar
	system where they will be supported by the fighters being delivered by SG Alpha and
	joined by their flagship, the battleship Admiral R'kazk'tar which will be completed in 33
	days.
61.312	SBF-J2 jumps into the Liberty system and begins decelerating toward Snowball.
61.313	PG Liberty and the Mhemne belters detect the sathar ships that have arrived in the
	system. An alert is immediately sent out to Spacefleet alerting them of the sathar
	presence.
	RG One arrives at the Terledrom shipyards (Fromeltar). The militia assault scout and
	UPF frigate are immediately moved into the shipyard to begin repairs.
	SBF-J1 jumps into the OFS156 system and begins calculations for a jump to the OFS155
	system.
61.314	SBF-B2 arrives in the inner system of FS33 where they await orders from the sathar
	high command.
	Recognizing that they are no match for the inbound sathar forces, PG Liberty, with the
	assistance of the Mhemne belters, go into hiding in the Liberty system to watch the
	sathar's movements. Evacuations begin immediately on the L4 and L5 stations.
	Receiving the alert from PG Liberty, the Theseus militia ships in the White Light system
C4 04E	depart Fortress Redoubt and begin accelerating for a jump home.
61.315	The HSS History's Hope successfully jumps into the YS08 system. They begin
	decelerating toward the inner system and working on engine overhauls.
	SBF-J1 jumps into the OFS155 system and begins calculations for a jump to OFS150.
	SF Nova and the Pale militia jump into the Zebulon system and begin decelerating
	toward Volturnus and the sathar forces.
	• The K'akan-Kar militia assault scout completes its repairs in the Terledrom (Fromeltar)
61 216	 SCC. As it emerges the UPF assault scout is moved into its place. The sathar frigate arrives at SCC#5 (OFS019) joining up with the other ships there.
61.316	
	SBF-J2 arrives in orbit around Snowball and finding the L4 station abandoned settle back into the berths there.
	Detecting SF Nova, SBF-E2 decides to avoid engagement and departs Volturnus and
	begins accelerating for a jump to the Kazak system.
	PG Meteor jumps into the K'aken-Kar system and begins working on calculations for the
	jump to Kizk-Kar.
	The UPF frigate and assault scout complete their repairs in the Terledrom shipyard and
	emerge once again ready for combat. A HS:6 ships is moved in for maintenance and
	Spacefleet begins construction of 3 fighters.
61.317	RG One, now fully repaired, departs Terledrom for the Kizk-Kar system. The Spacefleet
- C = . C = .	vessels will remain in that system to await the arrival of the rest of PG Meteor while the
	militia ship will return to its home system.
	Start to to notice system.

FY	Event		
61.318	SBF-J1 jumps into the OFS156 system and begins calculations for a jump to the OFS146		
	system.		
	SG Alpha arrives in orbit around Triad (Cassidine) just in time to pick up the five fighters		
	completed in the CDC shipyards. The fighters are taken aboard the assault carrier		
	which prepares to depart for the Kizk-Kar system the next day. Construction begins on		
	five more fighters. • After two days in the Liberty system, with no indication of any UPF presence, the heavy		
	cruiser and 3 destroyers of SBF-J2 split off (now SBF-J3) and begin accelerating for a		
	jump back to OFS179 leaving the light cruiser and 2 frigates in the system.		
61.319	Arriving at the inner system of YS08, the crew of the HSS History's Hope begin working		
	on calculations for the return jump to YS07.		
	Taking several days longer than expected, the damaged sathar heavy cruiser emerges		
	from SCC#5 (OFS019) fully functional once again. The hull of the heavy cruiser whose		
21 222	work was paused is moved back into the shipyard to resume construction.		
61.320	SBF-J1 jumps into the OFS146 system and begins calculations for a jump to SCC#3 (OFS128)		
	(OFS138).SF Nova arrives and settles into orbit around Volturnus (Zebulon).		
	 SF Nova arrives and settles into orbit around Volturnus (Zebulon). PG Meteor arrives in the Kizk-Kar system and begins decelerating toward Zik-Kit. 		
	SBF-E3 (1 C, 1 FF, 1 DD, 1 HC) departs SCC#5 (OFS019) for a jump to Kazak to join up		
	with SBF-E2.		
61.321	SBF-E2 jumps into the Kazak system and begins decelerating toward Stenmar.		
61.322	RG One arrives in the Kizk-Kar system and the Spacefleet vessels start decelerating		
	toward Zik-Kit while the militia assault scout remains at speed and prepares for a jump		
	back to its home system of K'aken-Kar.		
	A fighter for the Frontier Fighter Corp is completed in the PGC shipyards (Gran Quivera,		
C4 222	Prenglar) and construction begins immediately on another.		
61.323	 The Theseus militia arrive back in orbit around Minotaur. SG Alpha jumps into the Dramune system and begins calculations for a jump to 		
	SG Alpha jumps into the Dramune system and begins calculations for a jump to Fromeltar.		
	SBF-J3 jumps into the OFS179 system and begins calculations for a jump to the OFS168		
	system.		
	One of the sathar frigates in the Liberty system begins accelerating out from the inner		
	system and appears to be on a course to jump to the Waller Nexus system. It is		
	designated EG-1. PG Meteor could intercept from their hiding place in 2 days.		
	Detecting the outbound sathar frigate, PG Liberty notifies Spacefleet and are told to let		
C4 224	it pass but take it out if it returns to the system.		
61.324	 SBF-J1 jumps into the OFS138 system and begins deceleration toward SCC#3. PG Meteor arrives in orbit around Zik-Kit (Kizk-Kar). 		
	 PG Meteorarrives in orbit around Zik-Kit (Kizk-Kar). A UPF fighter is completed in the Terledrom (Fromeltar) shipyards and construction 		
	begins immediately on another.		
61.325	Calculations complete, the HSS History's Hope stars accelerating for the jump back to		
	YS07.		
	SBF-E2 arrives in orbit around Stenmar (Kazak).		
	SBF-E3 jumps into the Kazak system and begins decelerating toward Stenmar and SBF-		
	E2.		
61.326	Sathar SCC#4 (OFS111) completes 5 fighters.		

FY	Event
	The K'aken-Kar assault scout jumps into its home system and begins decelerating
	toward Ken'zah-Kit.
	RG One settles into orbit around Zik-kit and joins up with the rest of PG Meteor already in orbit
61.327	in orbit. SG Alpha jumps into the Fromeltar system and begins calculations for the jump to the Kizk-
01.527	Kar system. The pilot of the recently completed fighter takes on extra life support and
	begins boosting to join SG Alpha as it transits the system.
61.328	SBF-J1 arrives at SCC#3 (OFS138). After a rapid reprovisioning, during which orders are
01.520	issued to all existing sathar vessels, SBF-J1departs the SCC and begins accelerating for a
	jump to the OFS137 system.
	Sathar EG-1 jumps out of the Liberty system but does not end up in the Waller Nexus
	system as expected. Rather it overshoots and arrives in the Padda (FS11) system
	instead. The astrogators begin working out where they are at.
61.329	SBF-J3 jumps into the OFS168 system and begins calculations for a jump to the OFS167
	system.
	SBF-E3 arrives at Stenmar (Kazak) and merges with SBF-E2.
	• The fighter in the Fromeltar system joins up with RG Alpha as it crosses the system for
	its jump to Kizk-Kar.
61.330	• The HSS History's Hope makes the jump and ends up in a binary system but it is not the
	two stars of YS07. While the engineers start to work on the engine overhauls, the
	astrogators try to figure out where they are.
	The lone K'aken-Kar militia assault scout arrives back in its home system and the crew
	stands down for some leave but remain on alert for rapid recall if needed.
61.331	SG Alpha jumps into the Kizk-Kar system and begins deceleration toward Zik-Kit and PG
	Meteor.
	• SBF-J3 jumps into the OFS167 system and begins calculations for a jump to OFS166.
	2 UPF fighters are completed at both the Minotaur (Theseus) and Hentz (Arak) SCC and 3 more so into production in each leasting. The fighters are to prove the production of the second districts.
	2 more go into production in each location. The fighters are temporarily manned by the local militias until UPF pilots and be dispatched to the system.
61.332	Realizing that they need pilots for all the new fighters being produced, the current cadets at
01.332	Gollwin academy are polled for volunteers for the Frontier Fighter Corps. Those that
	volunteer are put on a fast completion track to get their Pilot and Rocket Weapons
	certifications.
61.333	SBF-J1 jumps into the OFS137 system and begins calculations for a jump to the OFS136
	system.
	SBF-J3 jumps into the OFS166 system and begins calculations for the jump to FS33 to
	join up with SBF-B2.
	• 11 UPF fighters are completed at the CDC shipyards (Triad, Cassidine). With no pilots
	ready, they are put into storage and Spacefleet temporarily gives the space over for
	commercial ship maintenance.
61.334	A fighter and assault carrier are completed at SCC#10 (OFS174). Instead of starting
	another AC and fighter, construction begins on 2 destroyers and a frigate.
	• The new sathar assault carrier at SCC#10 (OFS174) collects the 3 fighters in the system
	and begins a transit to SCC#4 (OFS111). The ships are designated Transit Group (TG) 1.
	Astrogators aboard the HSS History's Hope work out their position and discover that
	they went nearly twice as far as they intended. The system is designated YS09 and they

61.341	SG Alpha jumps back into the Fromeltar system and begins calculations for a jump to			
	Dramune.			
61.342	SBF-J1 jumps into the Kisk-Kar system and begins decelerating to engage PG Meteor.			
	SBF-E2 jumps into the Zebulon system and begins decelerating to engage Strike Force			
	Nova.			

FY Event

- SBF-B2 jumps into the K'sta-Kar system and begins decelerating to engage Task Force Cassidine.
- The sathar battle fleets are detected within hours of their arrival in their respective systems and alerts go out across the Frontier. Spacefleet is out gunned in nearly every case but is determined to stop the worms.
- Sathar EG-1 jumps into the Theseus system. They immediately begin decelerating to stay in the outer system and begin working on calculations for a jump back to the Padda system.

61.343

- Construction of the Spacefleet battleship, Admiral Dooltan, at the Pan Galactic starship construction center orbiting Gran Quivera (Prenglar) complete. With the new sathar offensive, Spacefleet starts construction of a light cruiser, frigate, and assault scout.
- 2 assault scouts of the Theseus militia detect the sathar frigate of EG-1 and immediately begin boosting to intercept the ship. An alert goes out and the other ships of the militia boost to intercept as well although they will be two days behind.
- Suspecting FS33 to be the origin of the sathar fleets jumping into the K'sta-Kar system, the K'aken-Kar militia assault scout starts working on calculations to chart a jump route to that system.

61.344

- Construction of the Spacefleet battleship, the Admiral R'kazk'tar, at the Cassidine Development Corporation starship construction center orbiting Triad (Cassidine) completed. The crew takes command of the ship and begins a short shakedown cruise in the system as they await the arrival of the fighter pilots and SG Alpha.
- With the completion of the Admiral R'kazk'tar, Spacefleet uses the space in the shipyard to begin construction of two destroyers and two assault scouts.
- With plans to send the Admiral R'kazk'tar to Truane's Star, the Admiral Dooltan is ordered to the Fromeltar system and then on to Kisk-Kar to take command of Task Force Meteor if the patrol group survives the coming attack.
- Detecting the incoming militia assault scouts, sathar EG-1 change their deceleration profile to try to avoid the ships while they change direction for the return jump to Padda.
- Realizing that they have an opportunity to exploit the new jump route provided by Obar Enterprises, Spacefleet HQ orders Strike Force Nova and supporting militia ships to fall back to the Truane's Star system and expect reinforcements.

61.345

- The HSS History's Hope successfully jumps back into the YSO7 system. They begin working on engine overhauls and calculations for a jump to return to YSO8.
- SG Alpha jumps into the Dramune system and begins calculations for a jump to the Cassidine system.
- SBF-E2, detecting the departure of SF Nova, vector to follow them to the Truane's Star system.

61.346

- Unable to avoid intercept by the 2 Theseus assault scouts, the sathar frigate turns to engage them. They transmit all their jump data back to SBF-J2 before engaging.
- Battle of Theseus In a short, 20-minute battle, the sathar frigate managed to damage one of the assault scouts before being destroyed by a single volley of assault rockets and laser batteries from the 2 militia ships. The damaged assault scout heads to Minotaur for repairs.
- Calculations complete, the K'aken-Kar assault scout begins accelerating for a jump to FS33.

FY	Event
	Three more fighters for the Frontier Fighter Corp are completed in Theseus.
	Construction begins on 3 more.
61.347	 Second Battle of Kwadl-Kit - Though outgunned by the sathar, Task Force Cassidine put up an amazing defense and over the course of 1.5 hours completely destroys the sathar fleet. While almost no ship goes unscathed, they only lose 3 fighters and 3 assault scouts. SG Alpha jumps into the Cassidine system and begins vectoring for a jump to the Truane's Star system using coordinates provided by battleship Admiral R'kazk'tar. After a detailed assessment of the strength of SFB-J1, PG Meteor and Spacefleet command decided that they cannot hold he Kizk-Kar system and the jump capable ships start accelerating for a jump to the Fromeltar system. The fighters go into hiding on the planet's surface. Seeing PG Meteor departing, the sathar forces vector to intercept but the acceleration of the UPF ships is such that only the smaller sathar vessels could intercept which would give the advantage to Spacefleet. After a few hours of pursuit, they reverse course and settle into orbit once again around Zit-Kit.
61.348	Sathar SCC#1(OFS203) completes construction of a light cruiser.
01.3-10	 Arriving back at Minotaur (Theseus), the damaged militia assault scout is immediately put into the shipyard. A HS:7 ship under construction is moved out to make room. 5 fighters are completed at the CDC shipyards (Triad, Cassidine). Work begins on five more. These fighters are put in storage until crews can be obtained for them.
61.349	SF Nova and its supporting militia ships jump into the Truane's Star system and begin
	 decelerating toward Pale. The group of 10 FFC pilots arrive at Triad (Cassidine) and take command of their fighters. They immediately take on extra life support and begin a high-g boost, together with the battleship Admiral R'kazk'tar, to join SG Alpha. After a day rearming, Task Force Cassidine begins acceleration for a jump to the K'aken-Kar system and then on to Kizk-Kar to engage the sathar forces there. The Theseus militia assault scout completes its repairs and the HS:7 ship is moved back in to resume work. The battleship Admiral Dooltan jumps into the Cassidine system, it remains at high speed to transit to Dramune.
61.350	Joining up with SG Alpha, the fighters are quickly taken aboard the carrier and stowed
	 for jump. The battleship, assault carrier, and fighters are designated Task Force Relief and prepare for level 2 risk jump to the Truane's Star system. SBF-E2 jumps into the Truane's Star system and begins decelerating toward New Pale. SF Nova and the local militia begin maneuvering to intercept. SBF-J1 departs orbit around Zit-Kit (Kisk-Kar) and begins accelerating for a jump to the K'aken-Kar system to intercept TF Cassidine. Detecting the departure of SBF-J1, PG Meteor puts its jump on hold and drifts in the outer system to observe. The UPF minelayer, currently in the Fromeltar system, begins accelerating for a jump to the Kisk-Kar system.

FY Event

61.358

- Second Battle of Ken'zah-Kit (K'aken-Kar) After nearly 2.5 hours of fighting TF
 Cassidine defeats SBF-J1 losing only a single fighter while the sathar only have a fighter
 and heavy cruiser surviving. Most of the UPF ships have damage requiring a shipyard to
 repair.
- The surviving sathar heavy cruiser and fighter from SBF-J1 accelerate for a jump to the K'sta-Kar system.
- The damaged UPF destroyer completes repairs in the Streel shipyards (Pale, Truane's Star) and the ship that was moved out to make room resumes construction (it will be done in 23 days).
- SBF-E2 jumps into the Zebulon system. It remains at high speed and begins calculations for jump to Kazak.
- A HS:8 ship completes maintenance in the PGC shipyards (Gran Quivera, Prenglar).
 Spacefleet moves a couple of small ships in for maintenance to coordinate their completion with more ships finishing and beginning construction on a new battleship.

61.359

- Calculations for the jump back to YS07 complete, the HSS History's Hope begins accelerating for the jump while the astrogators get a day of rest before double checking the figures on the way out.
- Sathar TG-1 jumps into the OFS136 system where SCC#3 is located as they continue on their journey to SCC#4 (OFS111)
- The battleship Admiral Dooltan and accompanying minelayer arrive at Zit-kit (Kisk-Kar) and join up with PG Meteor. With the addition of the battleship and minelayer, the fleet is now designated Task Force Meteor.
- After spending a day rearming, Task Force Cassidine splits up with the undamaged heavy and light cruiser, now designated Patrol Group Vigilant, departing in pursuit of the sathar heavy cruiser which is headed toward K'tsa-Kar.
- The main force of TF Cassidine, all needing time in a shipyard to fully repair, begin accelerating for a jump to the Kizk-Kar system and then on to Fromeltar. The Terledrom (Fromeltar) shipyard is notified that they will arrive on FY61.375 and begins making preparations to receive them.
- The Clarion (White Light) militia, at the request of Spacefleet, depart for a jump to K'sta-Kar to join up with PG Vigilant and patrol that system. The saurians send 3 of their 6 Battle Rays to assist.

61.360

- Calculations complete, SBF-J2 (LC & FF) begin accelerating from the Liberty system for a jump to the Waller Nexus system. PG Liberty detects the departure almost immediately and subspace radio the intel back to Spacefleet.
- Stationing 8 of the fighters at Fortress Pale as the first official squadron of the Frontier Fighter Corps, the second assault carrier currently with Strike Force Nova is designated as Shuttle Group Alpha and departs back to Triad (Cassidine) to start moving more fighters around the Frontier.

61.361

- PG Liberty are authorized to engage the outbound SBF-J2 if conditions are favorable. Several Mhemne Belter ships offer to assist although their outdated engines mean that they will only be able to make a single pass at the sathar vessels. The ships all boost for intercept.
- Four fighters are completed at the Hentz (Araks) shipyard. They are put into storage awaiting the arrival of the Spacefleet pilots. Construction beings on four more fighters.

FY	Event
	• Two fighters are completed at the Minotaur (Theseus) shipyards for the Frontier Fighter
	Corps but are currently manned by the militia. Construction begins on two more
	fighters.
61.362	• SBF-E2 jumps into the Kazak system and begins calculations for a jump to OFS019 and SCC#5.
	Battle of Liberty - PG Liberty, augmented by Mhemne ships, engage the sathar in the autor system. The first does not go well for the LIBE who lose their frigate and an
	outer system. The fight does not go well for the UPF who lose their frigate and an assault scout although they do manage to destroy the sathar frigate.
	• After fighting the UPF in the Liberty system, the surviving sathar light cruiser of SBF-J2 continues on its course to jump to the Waller Nexus system.
61.363	
01.303	• CDC staff arrive back on Alcazzar (Rhianna) in anticipation of the new mining season. (SF4)
	• SBF-J1 jumps into the K'sta-Kar system. They remain at speed and begin calculations for a jump to FS33.
61.364	 The HSS History's Hope successfully jumps back into the YSO7 jump completely charting
01.304	that route. They begin decelerating to turn around and jump back to YS08 to continue
	their journey forward.
	PG Vigilant and the Clarion militia both jump into the K'sta-Kar system from opposite
	directions. Keeping an eye on the retreating SBF-J1, they start deceleration toward
	Kwadl-Kit.
	TF Cassidine jumps into the Kizk-Kar system and begin calculations for the jump to
	Fromeltar. They transmit details of their recent battles to TF Meteor to share their
	experiences.
61.365	SBF-E2 jumps back into the OFS019 system and begins decelerating toward SCC#5.
	SBF-J2 enters the Void and like the frigate before it, misjumps, this time ending up in
	the OFS196 system.
	• Enough space has cleared in the CDC shipyard (Triad, Cassidine) to allow Spacefleet to
	begin construction on another battleship to replace one of the two lost in the Second
	Battle of New Pale.
61.366	SBF-J1 jumps into the FS33 system and begins calculations for a jump to OFS166.
	• Eight more fighters are completed at the PGC shipyards (Gran Quivera, Prenglar) and
	shuttled to Gollwin Academy. Spacefleet delays the start of construction of more
	fighters as production of the ships is outpacing training of pilots and they want to use
	the space for construction of another battleship.
61.367	• As OFS196 is a system in the sathar charts, being on the route to OFS203 and SCC#1,
	SBF-J2 determines it position after just two days. It decides to take the known route
	back to Liberty and try again.
	Enough space opens up in the PGC shipyards (Gran Quivera, Prenglar) for Spacefleet to
	begin construction on the second battleship to replace the second one lost in the
	Second Battle of New Pale.
61.368	• The HSS History's Hope arrives in the inner system of YS07 where they will rest for a day
	before they begin accelerating for the jump back to YS08.
	Task Force Cassidine jumps into the Fromeltar system and begins a slow deceleration

	started in the CDC shipyards (Triad, Cassidine).
61.369	PG Vigilant and the Clarion militia, together with the saurian battle rays, arrive in orbit
	around Kwadl-Kit (K'sta-Kar). They set up a patrol schedule to watch for new sathar
	threats.
	 SBF-J1 jumps into the OFS166 system and begins calculations for a jump to OFS167. SG Alpha arrives back at the CDC shipyards (Triad, Cassidine). The fighters in storage
	are transferred to the carrier while they await the arrival of their pilots, scheduled to
	graduate from Gollwin Academy tomorrow.
61.370	SBF-E2 arrives back at SSC#5 (OFS019). The heavy cruiser under construction is moved
02.070	out of the shipyard to make room for the damaged one to receive the necessary
	repairs.
	Nine more pilots graduate in the accelerated cadet class at Gollwin Academy. They
	immediately depart to take command of the fighters currently sitting in storage at Triad
	(Cassidine).
61.371	SBF-J1 jumps into the OFS167 system and begins calculations for a jump to OFS169.
61.372	An attempt to explode a bomb at the Council of Worlds building while the council is in
	session is foiled by Star Law agents and local law enforcement. Unfortunately, none of the
	perpetrators survived. An investigation is launched immediately to track down the origin of
61 272	the plot.
61.373	TF Cassidine arrives in orbit around Terledrom. There is currently 6 HS of open space in the shipyard and the heavily damaged frigate and fighter are moved in for repairs.
61.374	The HSS History's Hope jumps back to the YS08 system. They begin decelerating and
01.374	working on the jump calculations for the next system, a binary system 5 ly away.
	SBF-J1 jumps into the OFS169 system and begins calculations for a jump to the OFS170
	system.
	The K'aken-Kar militia assault scout, also in OFS169, happens to detect the heavy
	cruiser just hours after it jumps into the system. Realizing they are in sathar controlled
	space, the ship goes into as stealthy a mode as possible to avoid detection as they
	monitor the sathar vessel.
	SBF-J2 jumps back into the Liberty system.
	The TF Cassidine fighter in the Terledrom (Fromeltar) shipyard competes its repairs.
C4 27F	The space is held in reserve for the larger ships needing repairs.
61.375	• Princess Leotia's 35th birthday. Major celebrations are held all over Clarion (White Light) in commemoration of her coming of age. While her father had planned to step
	down and hand the government over to her during the ceremonies, this has been
	delayed due to the ongoing sathar conflict.
	SBF-J1 jumps into the OFS170 system and begins calculations for the final leg of their
	jump back to SSC#10 in the OFS228 system.
	PG Liberty detects the returning light cruiser and radios its presence back to Spacefleet.
	The damaged sathar heavy cruiser at SCC#5 (OFS019) completes repairs and
	construction is resumed on the new heavy cruiser.
61.376	Three UPF fighters are completed at the Terledrom (Fromeltar) shipyards. They are
	transferred to Task Force Cassidine. The shipyard space is held in reserve to fit the larger
	ships needing repair.
61.377	SBF-J1 jumps back into the OFS228 system and begins decelerating toward SSC#10

FY	Event
	 An assault scout is completed in the Outer Reach (Dramune) shipyards. It sets off immediately for the Fromeltar system to join TF Cassidine. Construction begins on a new assault scout.
61.378	 SBF-J2 arrives back in orbit around Snowball. After rearming, it sets off once again to try to jump to the Waller Nexus system. Calculations complete, the HSS History's Hope begins accelerating to the next system on their route, which they designate as YS11. A UPF assault scout is completed at the CDC shipyards (Triad, Cassidine). This is the first of the replacement ships larger that a fighter to come out of the shipyards since the conflict began. 5 fighters are also completed and work begins on another AS and 5 fighters. The completed ships join SG Alpha. The first damaged frigate from TF Cassidine emerges from the shipyard at Terledrom
	(Fromeltar) fully repaired. The other frigate enters and work begins on it.
61.379	 The Frontier Fighter Corps pilots arrive at Hentz (Araks) to take command of their fighters there. There is some initial tension between the UPF and militia forces as the latter do not want to turn over control of the ships. The Spacefleet pilots arrive at Triad (Cassidine). They are immediately transferred to the carrier in SG Alpha where their ships are awaiting them. SG Alpha departs immediately for a jump to Dramune and then on to Fromeltar where the fighters are to be delivered. The Yazira Dome completes its second year of operation. With the on-going sathar conflict, travel has been curtailed and off-world yazirian visitors diminished but the Dome is still wildly popular with on-planet visitors. Detecting SBF-J2 outbound once again, PG Liberty sends a subspace message informing Spacefleet and continues to monitor the sathar ship. Calculations complete and checked, the HSS History's Hope begins accelerating for the jump to the next system on their route, designated YS11.
61.380	 Sathar TG-1 arrives at SCC#4 (OFS111), joining the other ships there. After several back-and-forth communications, including a threat by Spacefleet to dispatch TF Prenglar to the Araks system to eliminate or take control of the militia, the Hentz militia turns over control of the Frontier Fighter Corps fighters to the UPF crews. The second damaged frigate from TF Cassidine completes repairs at the Terledrom (Fromeltar) shipyards. A new UPF assault scout, along with an assault scout for the local militia are also completed. This frees up enough space that TF Cassidine's assault carrier can move in for repairs. TF Cassidine's assault carrier completes repairs at the Terledrom (Fromeltar) shipyards.
	There is not enough free space to move the battleship in, but that space will free up in three days. With 30% of the shipyard empty, the work crews can each get a full day off to

rest over the next few days. SBF-J1 arrives back at SSC#10 (OFS228). The heavy cruiser under construction is moved 61.382

- out of the shipyard to make room for the damaged cruiser from the battle fleet. Work is completed on a UPF assault scout at the PGC shipyards (Gran Quivera, Prenglar) and it joins TF Prenglar at Morgaine's World. Construction begins on another UPF assault scout.
- SBF-J2 successfully jumps into the Waller Nexus system. It remains near void speed as the 61.383 astrogators begin calculating the 7 light year jump to the Padda system.

FY	Event
61.384	• The HSS History's Hope successfully jumps into the YS11 system. However, just minutes
	after the jump is completed and confirmed, a short circuit causes a fire to break out
	onboard. The fire is put out but not before it severely damages the hull reducing it to
	only 25% integrity.
	With its serious hull damage, the HSS History's Hope begins to drift while the crew
	attempts repairs. After an hour and a half, the hull is patched and the ship resumes
	deceleration while the crew cleans up the ship. They begin calculations for the return
	jump to YS08.
	SG Alpha jumps into the Dramune system. It remains near jump speed and begin solvulations for a jump to France beg
	calculations for a jump to Fromeltar.
	Two UPF assault scouts are completed at the Hentz (Araks) shipyards. Their crews, having arrived with the FFC pilots take command of the ships immediately. They are
	given orders to remain in the Araks system for now and together with the FFC fighters
	are designated PG Tranquility. Work begins on two more assault scouts.
	A UPF fighter and assault scout, as well as the replacement assault scout for the Pale
	militia is completed at the Terledrom (Fromeltar) shipyards. The UPF battleship is
	moved into the shipyard for repairs and work begins on two more fighters.
	The second Pale assault scout is completed in the Minotaur (Theseus) shipyards and
	work begins on another assault scout for Spacefleet. The Pale assault scouts both
	depart immediately on high-speed transits to their home system.
61.385	The third assault scout for the Pale militia is completed at the CDC shipyards (Triad,
	Cassidine). With the new classified route linking Cassidine and Truane's star the ship will be
	home after a single jump instead of the usual three. Spacefleet begins work on another
	assault scout
61.386	After four days of work the damaged heavy cruiser emerges from sathar SCC#10
	(OFS228) fully repaired and work resumes on the partially completed heavy cruiser that
	was moved out to make room.
C4 207	• The assault scout from Dramune arrives and joins TF Cassidine.
61.387	Two assault scouts, replacements for the Zik-kit (Kizk-Kar) militia, emerge from the CDC
	shipyards (Triad, Cassidine) and begin a high-speed transit to their home system where they will join up with SF Meteor. Spacefleet begins work on a new destroyer.
61.388	SG Alpha jumps into the Fromeltar system and begins decelerating toward Terledrom to
01.300	deliver the ships to Task Force Cassidine.
61.389	Deceleration and jump calculations, along with as much damage clean-up as possible
01.303	complete, the HSS History's Hope begins accelerating for the return jump to YS08.
	Another group of 8 pilots graduate in the accelerated program at Gollwin Academy.
	They immediately depart for the Theseus system to take command of the fighters
	waiting there.
61.390	Calculations complete, SBF-J2 slips into the Void and successfully jumps to the Padda
	system. With the next jump being Theseus, they begin decelerating and work on
	calculations for a return jump to the Waller Nexus system.
61.391	Four more fighters are completed at the Hentz (Araks) shipyards and their pilots take
	command of them, filling out FFC Squadron Beta.
	Two more fighters are competed at the Minotaur (These us) shipyards. They are
64 555	crewed by militia pilots until the pilots en route from Gollwin Academy arrive.
61.392	SG Alpha arrives at Terledrom (Fromeltar). Three of the fighters are transferred to TF Cassiding, while the other 8 are formed into EEC Squadron Campa.

Cassidine, while the other 8 are formed into FFC Squadron Gamma.

FY	Event
	A light cruiser is completed at Sathar SCC#5 (OFS19).
61.393	After 40 days of operation, the CDC compound on Alcazzar (Rhianna), which had been
	producing at levels even higher than the previous season, suddenly goes silent. (SF4)
	SF Alpha departs for Prenglar to pick up more fighters.
61.394	The HSS History's Hope successfully jumps back to the YS08 system, completely
	mapping that route. Despite the recent fire, the crew decides to press on toward their
	target and begin decelerating and working on calculations for the jump back to YS11
	The Pale militia assault scout arriving from Cassidine docks at Pale station. The crew is
	debriefed and the ship begins duties immediately.
	The UPF Battleship of TF Cassidine emerges from the Terledrom (Fromeltar) shipyards
C4 20F	fully repaired. Work begins on 2 destroyers, a frigate, and an assault scout.
61.395	Deceleration and calculations complete, SBF-J2 beings to accelerate for the jump back to
61 206	the Waller Nexus system.
61.396	A UPF assault scout is completed at the Gran Quivera (Prenglar) shipyard and joins TF Prenglar. Work begins on another assault scout.
61.397	After months of negotiations, many energy suppliers on Terledrom (Fromeltar) and Inner
01.337	Reach (Dramune) agree to join the Consolidated Nebula Energy Group. CNE begins major
	infrastructure rollouts on Groth (Terledrom).
61.398	Five fighters are completed in the PGC shipyards (Gran Quivera, Prenglar) and transferred
0=1000	to Gollwin Academy. Work begins on five more.
61.399	Successfully jumping in the Waller Nexus system, the sathar have fully plotted the jump
	route between Waller Nexus and Padda. SBF-J2 remains near jump speed and works on the
	jump back to the Liberty system.
61.400	Seven more pilots graduate in the accelerated cadet class at Gollwin Academy. They take
	command of fighters at the Academy, and together with the surviving fighter assigned to TF
	Prenglar form FFC Squadron Delta based out Morgaine's World (Prenglar).
62.001	A strike team is assembled by CDC on Triad (Cassidine) and briefed on the Alcazzar project.
	They depart immediately for the Rhianna system to investigate. (SF4)
62.002	An attempt to sabotage the Inner Reach militia destroyer under construction at the Outer
	Reach (Dramune) shipyards is thwarted due to a last-minute tip off to the shipyard
62.002	management. Star Law is called in to investigate.
62.003	HSS History's Hope successfully jumps back in YS11. They begin decelerating and begin work on improvement for the post log of the injury source.
	 work on jump calculations for the next leg of their journey, a 9 light year jump. The militia assault scout coming from Fromeltar arrives back at Pale station. The crew is
	debriefed the ship immediately resumes duties.
62.004	The sabotage attempt on the Inner Reach destroyer is quickly traced to agents tied to
02.004	criminal organizations based on Outer Reach. However, the exact organization responsible
	is still unknown.
62.005	A frigate is completed at Sathar SCC#3 (OFS138)
62.006	SBF-J2 successfully jumps back in the Liberty system completely charting the route
	between Liberty and Waller Nexus. They begin decelerating back toward Snowball.
	The Zik-Kit militia assault scouts arrive at their home station. After a day of debriefing,
	they begin patrol duties with SF Meteor.
	Sathar commit a portion of the production capacity of Sathar SCC#6 (OFS117) to the
	war effort and start ramping up production of frigates and destroyers at that center.

 An inside source provides a tip to Star Law indicating that Malthar Enterprises, though be mostly destroyed after the events known as the "Dramune Run," are connected with recent sabotage attempt of the Inner Reach destroyer. FY	Event
	The HSS History's Hope successfully make the jump into the system they are now
	designating YS12. They begin deceleration and start calculations for the return jump to
	YS11.
	Entering the forest east of the Streel compound, the CDC explorer is bombarded by
	fruit pits from unseen assailants for a few seconds before the bombardment ends with
	chittering echoing through the forest. (SF4)
	A few hours after the fruit pit bombardment, the CDC team's path is blocked by six

	After nearly 70 days, the astrogator on the K'aken-Kar militia assault scout finally
	determines the ship's location and discovers that they are well outside the Frontier.
	They begin plotting a jump to OFS167 to start the trek home.
62.018	An unauthorized aircar attempts to approach Spacefleet headquarters on Morgaine's
	World. Refusing to divert, it is engaged and shot down but detonates upon impact causing
62.040	considerable damage and several civilian casualties. The driver is incinerated in the blast.
62.019	With jump calculations about halfway done, the crew of the K'aken-Kar militia assault scout
C2 020	begin accelerating toward jump speed for the jump to OFS167, 5 light years away.
62.020	• After 3 days of planning and resting, the CDC team, together with the Alcazzar natives,
	launch an attack on the Streel mining compound. (SF4)
	The attacking CDC team manages to fuse the reactor of the Street compound and get a message to the Nightrunner to pick them up back at the CDC compound in ten days.

	Nine more pilots graduate from the accelerated training program. Eight depart for
	Triad (Cassidine) while the remaining pilot joins Task Force Prenglar.
62.021	Deceleration into YS12 complete, the HSS History's Hope begins accelerating for it's
	jump back to YS11 while jump calculation continue.
	Four fighters are completed at the Hentz (Araks) shipyards. They are temporarily
	crewed by militia pilots under the supervision of PG Tranquility. Work begins on four
	more.
	• Two fighters are completed at the Minotaur (Theseus) shipyards and work begins on
	two more.
62.022	A cutter is completed at sathar SCC#5 (OFS19)
62.023	An attempt is made to sabotage the starship construction center at Rupert's Hole
	(Cassidine) but is thwarted by security personnel. The saboteur, a human, kills himself
	before he can be captured.
62.024	SBF-J2 arrives in the Padda system and begins working on jump calculations to chart a
	route to the Theseus system.
	• The K'aken-Kar militia assault scout successfully jumps into the OFS167 system. As the
	engineers start working on their engine overhauls, the astrogator gets to work plotting
	a jump to the neutron star in OFS166.
	A frigate is completed at sathar SCC#10 (OFS174)

FY	Event
62.025	SG Alpha arrives at K'sta-Kar delivering 8 fighters which become Frontier Fighter Corps
	Squadron Zeta. The crew is given 2 days of R&R before heading out for the Araks system.
	The assault scout joins PG Vigilant.
62.026	The HSS History's Hope successfully jumps back to YS11 and begins deceleration and starts
	calculations for the jump back to YS12.
62.027	PG Probe Alpha arrives at Terledrom (Fromeltar) and confers with leader from TF
	Cassidine and the local militia about the sathar incursion into the system. They decide
	to attempt to chart the route through the nebula to the double star system OFS020 a 6

	With assistance from the TF Cassidine astrogators, PG Probe Alpha completes jump
	calculations and begins accelerating for a jump to the OFS020 system.
62.031	SBF-A2 (1 LC) departs SSC#1 (OFS203) to attempt to chart a route to Gruna Garu.
62.032	The K'aken-Kar militia assault scouts misjumps once again and ends up in another unknown
	star system (FS33). They begin working on finding their location.
62.033	SBF-J2 successfully jumps into the Theseus system. It begins deceleration to turn around
	and jump back to the Padda system.
62.034	Eight more pilots graduate from the accelerated fighter training program at Gollwin
	Academy. They are to join SG Alpha as it passes through the system in 10 days to take
C2 02F	control of the new fighters at Hentz (Araks).
62.035	• The HSS History's Hope jumps back into the YS12 system and begins calculations for the next jump, a small star system 8 light years away. They remain near jump speed as the
	next system is in nearly a direct line to their current line of travel.
	PG Probe Alpha successfully jumps into the OFS020 system. They remain near jump
	speed and monitor the system for sathar presence while work begins on engine
	overhauls and calculations for the return jump to Fromeltar.
	A heavy cruiser is completed at sathar SCC#3 (OFS138).
62.036	SBF-J2 is detected by a patrol of two assault scouts of the Theseus militia and detects
	them in return. It immediately begins altering its flight path to attempt to avoid an
	engagement.
	Loath to engage the light cruiser of SBF-J2 by themselves, the two Theseus assault
	scouts radio for backup and begin to trail the sathar ship. The rest of the militia
	immediately boosts to attempt to intercept the sathar.
	• SBF-A2 successfully jumps into the Gruna Garu system. It begins deceleration out of the
	system plane to attempt to avoid detection while it plots the return jump.

FY	Event
62.037	After 2 days of no sathar detection, PG Probe Alpha begins deceleration in preparation for
	the return jump to Fromeltar.
62.038	Five fighters are completed at the CDC shipyards (Triad, Cassidine) and work begins on five
	more. Three of the fighters are immediately assigned to fill out FFC Squadron Eta while the
62.020	other two are placed in storage.
62.039	The Second Battle of Theseus. The Theseus militia intercepts SFB-J2 and destroys it, only
62.040	 suffering minimal damage. Jump calculations complete, the HSS History's Hope begins the final accelerations and
02.040	alignment for their next jump.
	 Deceleration complete, SBF-A2 begins accelerating for the return jump to OFS203.
62.041	Deceleration complete, 351 - A2 begins accelerating for the return jump to 07 3203. Deceleration complete and with still no sign of sathar presence in the OFS020 system,
02.041	PG Probe Alpha begins acceleration for a return jump to the Fromeltar system.
	The militia ships arrive back at Minotaur (Theseus) after the battle with the sathar and
	the damaged assault scout is immediately moved into the shipyard for repairs, bumping
	out a HS 5 ship undergoing maintenance.
	SG Alpha jumps into the Prenglar system. A ship carrying the new fighter pilot
	graduates boosts to meet up with carrier as work begins on calculations for the jump to
	Athor.
	A heavy cruiser is completed at SCC#5 (OFS19) and joins SBF-E2. The battle group,
	consisting of 2 C, 1 FF, 1 DD, 1 LC, & 2 HC depart for SCC#4 (OFS111).
	Three assault scouts are completed at the PGC shipyards (Gran Quivera, Prenglar) and
	join TF Prenglar. The shipyard space is released by Spacefleet back for pubic ship
	maintenance work.
62.042	The HSS History's Hope successfully jumps into the new system which they are designation YS13. They begin deceleration and jump calculations for the return trip to YS12.
62.043	SBF-A2 is detected in the outer reaches of the Gruna Garu system but is too far away to be
02.043	identified and just recorded as an unidentified vessel. Due to the on-going conflict, it is
	reported immediately to Spacefleet.
62.044	Two fighters completed at the Minotaur (Theseus) shipyards and join those manned by the
	militia under the direction of FFC Squadron Epsilon.
62.045	After 13 days, the astrogator on the K'aken-Kar assault scout establishes that they are
	in FS33, the original destination for their first misjump. They begin work on calculations
	to jump back to their home system.
	SBF-A2 slips into the void but misjumps, overshooting its target and ending up in
	OFS198.
	Given the reports from the Gruna Garu system of unidentified vessels in the outer
	system, Spacefleet orders SG Alpha to deliver the fighters waiting at Hentz (Araks) to
C2 04C	the Gruna Garu system.
62.046	PG Probe Alpha slips into the Void but misjumps and doesn't end up in the Fromeltar System. However, their same systems light up almost immediately and they realize

	 SBF-A2 determines its location and begins plotting a jump back to OFS203.
	A light cruiser is completed at sathar SCC#4 (OFS111)
62.047	Starfleet puts out a Frontier-wide announcement looking for high level astrogators to
22.0-17	participate in a high-paying, adventurous, but possibly dangerous classified project.

FY	Event
62.048	With CNE Group's infrastructure rollout on Groth (Fromeltar) plagued by constant
	sabotage, the consortium brings in a large MercCo contingent as additional security and
	several investigative teams.
62.049	Despite the vagueness of the advertisement, Starfleet's call for high level astrogators
	garners dozens of applicants in just two days. Screening of applicants begins immediately.
62.050	Three more pilots complete the accelerated training at Gollwin Academy. They are
	temporarily assigned to fighters at the Academy and start training with TF Prenglar while
C2 0F4	awaiting permanent assignment.
62.051	• The HSS History's Hope misjumps and instead of ending up in YS12 are in an unknown system which they designate YS14. They begin immediately working on finding their
	position.
	The K'aken-Kar militia assault scout begins accelerating for the jump back to its home
	system.
	• Four fighters are completed at the Hentz (Araks) shipyard and FFC Squadron Beta takes
	control of them and the other four fighters currently manned by the militia in
	preparation for the arrive of SG Alpha in a few days.
	• Two fighters are completed at the Minotaur (Theseus) shipyards and join the partial
	squadron manned by the militia under the command of FFC Squadron Epsilon.
	SG Alpha jumps into the Araks system and begins deceleration towards Hentz to pick up
	the fighter stored there.
62.052	Sathar agents succeed in sabotaging the Hentz (Araks) starship construction center, almost
	completely destroying it. Pieces of the SCC rain down on the planet. All ships in the center,
	including 4 civilian vessels, 2 assault scouts, & 4 fighters are destroyed. It will be years
62.053	before the facility is back to full capacity. In wake of the near total loss of the Hentz (Araks) SCC, Star Law launches an investigation
02.055	into the Family of One's management of the facility and their security measures. Security is
	tightened at all other SCCs.
62.054	Sathar fleet TG1 jumps into the OFS138 system containing sathar SCC#3. It is joined by
02.034	the frigate and heavy cruiser there and continues on toward OFS020.
	A destroyer is completed at sathar SCC#10 (OFS174).
	A HS:5 ship completes maintenance at the Minotaur (Theseus) SCC and the militia uses
	the space to begin construction of another frigate.
62.055	After a full assessment of the damage to the Hentz (Araks) SCC, it is determined that
	existing center is effectively a total loss (98% damaged) and the decision is made to
	build a completely new structure. The limited capacity of the surviving center is
	dedicated to that work.
	SG Alpha arrives at the Hentz station and the eight pilots take control of their fighters
62.056	and begin loading them onto the assault carrier for transport to Gruna Garu.
62.056	The K'aken-Kar militia assault scout successfully jumps back into the K'aken-Kar system and bagins desclarating toward home. All data from its travel are immediately.
	and begins decelerating toward home. All data from its travel are immediately
	transmitted to Spacefleet. With the fighters loaded, SG Alpha departs for Gruna Garu.
	 With the fighters loaded, SG Alpha departs for Gruna Garu. The crew of the HSS History's Hope detects a faint, intermittent radio signal emanating
	from somewhere in the YS14 system. While the astrogators continue to work on
	locating their position, other crew work on finding the source of the signal and
	understanding it.

FY	Event
62.057	• SBF-E2 arrives at SCC#4 (OFS111). The AC, LC, and 8 fighters are attached to the battle
	fleet and preparations are made for them to join TG1 in OFS020.
	An assault scout is completed at the PGC shipyards (Gran Quivera, Prenglar) and joins
62.050	TF Prenglar.
62.058	A heavy cruiser is completed at sathar SCC#10 (OFS174). Together with the destroyer completed four days earlier, they are designated TG2, and immediately departs for
	SCC#1(OFS203).
	Three assault scouts are completed at the CDC shipyards (Triad, Cassidine). Designated
	Shuttle Group Beta, they depart immediately for Prenglar.
	• 5 fighters are completed at the PGC shipyards (Gran Quivera, Prenglar) and are
	transferred to Gollwin Academy.
62.059	PG Probe Alpha arrives back at Terledrom (Fromeltar). Two high level astrogators from TF
	Cassidine are transferred to the ships of PG Probe Alpha and it sets out once again to
62.060	OFS020 to try to chart the jump back.
62.060	 SBF-A2 successfully arrives back at sathar SCC#1 (OFS203). The astrogators on the HSS History's Hope identify their location as a system 9 light
	years from YS12 and begin plotting a jump back to the YS12 system.
	A Spacefleet destroyer is completed at the Minotaur (Theseus) shipyards. It departs to
	joint PG Vigilant in the K'sta-Kar system.
62.061	With the screening of the initial astrogator candidates complete, Spacefleet organizes
	three new patrol groups, Probe Beta, Gamma, & Delta, each consisting of two assault
	scouts (drawn from TF Prenglar) with a level six astrogator on board.
	After a final briefing, the newly formed patrol groups are dispatched to try to discover the jump routes the sathar are using to enter the Frontier.
62.062	With more resources available now that their position has been determined, the crew of
	the HSS History's Hope localizes the source of the mysterious signal to a planet in the inter
	system. It appears to be a FM radio signal and work begins on decoding it.
62.063	Security for CNE Group on Groth capture saboteurs attempting to disrupt their
	infrastructure rollout. As suspected the saboteurs were hired by the Groth Energy
62.064	Corporation.
62.064	PG Probe Alpha jumps into the OFS020 system and immediately begins deceleration and jump calculations for the return to Fromeltar.
62.065	Jump calculations complete, the HSS History's Hope begins acceleration for the jump
02.000	back to YS12.
	• SBF-E2 departs sathar SCC#4 (OFS111) for a jump into the OFS020 system to join up
	with TG1.
	SG Alpha arrives at Hargut (Gruna Garu) delivering the fighters from Hentz which are
62.066	formed into FFC Squadron Theta. The assault carrier departs to return to Prenglar.
62.066	• The crew of the HSS History's Hope finally have a breakthrough on the signals from the inner system of YS14. To their surprise, it is a garbled mayday message in a very old
	Yazirian dialect.
	The old yazirian mayday identifies the ship as the Yazirian Ark Ship (YAS) Royal Cloud.
	The HSS History's Hope immediately aborts the jump back to YS12 and starts heading to
	the inner system.
62.067	Now 500 days since hatching, the Eorna young are still growing and thriving. The
	problems seem to have been all with the rogue Eorna and a new batch of eggs are
	prepared for hatching and plans begin to accelerate the population growth program.

FY	Event
	An assault scout is complete at the Outer Reach (Dramune) shipyard and departs for
	Morgaine's World (Prenglar) to join TF Prenglar.
	All attempts at communication with the YAS Royal Cloud by the crew of the HSS
	History's Hope receive no response.
62.068	SG Beta arrives at Gollwin Academy and joins up with TF Prenglar, replacing several of
	the assault scouts that departed as part of the new patrol groups.
	The replacement destroyer for the Inner Reach (Dramune) militia is completed at the
	Outer Reach shipyards and departs across the system to Inner Reach. Outer Reach
	begins construction of a destroyer for themselves.
	• Five more fighters and an assault scout are completed at the CDC (Cassidine, Triad)
	shipyards. The fighters are temporarily attached to FCC Squadron Eta while the assault
	scouts depart to join PG Vigilant.
62.069	Six more pilots graduate from the accelerated training program at Gollwin Academy. They
	take command of some of the fighters there and await the arrival of SG Alpha.
62.070	Both Sathar TG1 & SBF-E2 jump into the OFS020 system and begins decelerating. TG1
	detects PG Probe Alpha almost immediately and takes measures to remain undetected by
	the UPF ships.
62.071	The HSS History's Hope arrives in inner system of YS14 and begins the approach the ship
	broadcasting the mayday message. It seems to be floating in interplanetary space on highly
60.070	elliptical orbit around the star.

	 Inspection of the YAS Royal Cloud show that it is missing all of its engines and shows
	signs of blast damage on the aft part of the ship as well as serious weathering and
	impact damage from small objects and micro meteors.
	An assault scout is completed at the PGC shipyards (Gran Quivera, Prenglar) and joins
	TF Prenglar.
62.073	TG2 jumps into the Liberty system as it is passing through.
	PG Probe Alpha successfully jumps back into the Fromeltar system without having
	detected the arrival of sathar SBF-E2 or TG1 entering the OFS020 system. They transmit
	the jump data to Spacefleet and begin decelerating and working on calculation for a
	return to that system and then beyond.
	After an animated discussion and deliberation, the crew of the HSS History's Hope
	decides to not attempt boarding the YAS Royal Cloud. Deciding that a message about its
	discovery is too sensitive to broadcast, they choose to return to the Frontier to deliver
	it personally.
	After completing a close visual inspection of the YAS Royal Cloud, the HSS History's
	Hope starts accelerating for a jump back to the YS12 system.
	A frigate is completed at the PGC shipyards (Gran Quivera, Prenglar). Together with the
	AS completed the day before, they are designated SG Beta and depart for the K'tsa-Kar

FY	Event
	An assault scout is finished at the Minotaur (Theseus) shipyards and departs for the
	Liberty system to join PG Liberty.
	Two fighters are completed at the Terledrom (Fromeltar) shipyards.
62.075	TG2 is detected in the outer reaches of the Liberty system by PG Liberty. A heavy
	cruiser and destroyer are too much for a lone assault scout so they can only report the
	transit of the ships back to Starfleet and request more support.
	PG Probe Beta arrives in the Zebulon system and begins decelerating toward Volturnus
	and working on jump calculations to plot a route directly to Kazak through the Xagyg
	Nebula.
	An assault scout is completed at the CDC shipyards (Triad, Cassidine) and begins patrol
	duties with FFC Squadron Eta.
62.076	A frigate is completed at sathar SCC#4 (OFS111).
	PG Probe Gamma arrives in the Kizk-Kar system. It begins decelerating toward the
	planet and working on calculations for a jump to the binary star system FS56, the
	suspected route for sathar ships into the Kisk-Kar system.
62.077	PG Probe Delta arrives in the K'aken-Kar system and begins decelerating toward the
	planet to confer with the militia assault scout crew. Work also begins on calculations
	for a jump to the FS33 system. • SG Alpha arrives back at Gollwin Academy (Morgaine's World, Prenglar) where it picks
	up 8 more fighters and departs for Lossend (Timeon).
62.079	
62.078	• The HSS History's Hope successfully jumps back into the YS12 system. The crew decides that they need to fully chart the route to YS14 before returning the Frontier and so
	begin decelerating and working on jump calculations back to that system.
	PG Liberty realizes that TG2 is not headed for the Waller Nexus system and on to
	Theseus but to some other destination. They relay this to Spacefleet.
62.079	SBF-E2 jumps into the Fromeltar system and begin decelerating toward Terldrom.
62.080	SBF-E2 is detected by TF Cassidine. PG Probe Alpha aborts its jump back to OFS020 and
	heads to join the Task Force as it, the FFC squadron, and the Fromeltar militia prepare
	to meet the sathar fleet.
	Sathar fleet TG2 jumps out of the Liberty system (to OFS196).
62.081	• Two Fighters are completed at the Minotaur (Theseus) shipyards. They join the others
	manned by militia pilots under the direction of FFC Squadron Epsilon.
	Significantly outgunned, TF Cassidine regrets not requesting one of the minelayers in
	Prenglar to be transferred to Fromeltar. They hope to use the maneuverability of their
	smaller ships against the large number of capital ships in the sathar fleet.
62.082	Calculations complete, PG Probe Beta begins accelerating for the jump to Kazak.
	• Calculations complete, PG Probe Gamma begins accelerating for the jump to FS56.
	Calculations complete, PG Probe Delta begins accelerating for the jump to FS33.
62.083	Sathar TG1 arrives at SCC#4.
	Second Battle of Terledrom (Fromeltar) - The sathar suffer more losses than expected
	but destroy the Terledrom shipyards, most of the UPF fighters in the system, and a
	militia assault scout.
	The fleeing sathar ships accelerate for a jump to OFS020 where they will make a high-
	speed run to sathar SCC#5 (OFS019).
62.084	A frigate is completed at sathar SCC#10 (OFS174)

FY	Event
	TF Cassidine's assault carrier, together with the Fromeltar militia frigate, are designated
	Shuttle Group Beta and depart for Dramune where the frigate will enter the shipyard
	for repairs and the carrier will continue on to Prenglar.
	One of the minelayers in TF Prenglar is detached and designated Shuttle Group Gamma.
	It departs to join TF Cassidine in Fromeltar.
62.085	After a careful review of the events of the Second Battle of Fromeltar, Spacefleet begins a
	program to arm and add defenses to all existing starship construction centers. Additionally,
62.006	security is increased even further at all operating shipyards.
62.086	SG Alpha arrives at Lossend where the eight fighters it is carrying are deployed as FFC Squadran lote. SG Alpha than heads out for These water risk up as are fighters.
	Squadron lota. SG Alpha then heads out for Theseus to pick up more fighters.
	An assault scout is completed at the PGC shipyards (Gran Quivera, Prenglar) and joins TE Prenglar. Te Prenglar.
62.087	TF Prenglar. • Calculations for the return jump to YS14 complete, the HSS History's Hope begins
02.007	accelerating for a jump back to that system.
	PG Probe Beta successfully jumps into the Kazak system. It begins decelerating and
	working on jump calculations for the return jump to Zebulon.
	PG Probe Gamma successfully jumps into FS56. They remain near jump speed while
	working on overhauls and jump calculations for the return jump to Kizk-Kar while they
	monitor for sathar signals in the system.
	PG Probe Delta successfully jumps into the FS33 system. With the jump back to K'aken-
	Kar already plotted by the militia, they remain near jump speed and begin working on
	jump calculations to the neutron star in OFS166 while they monitor for sathar signals in
	the system.
62.088	Spacefleet changes PG Probe Beta's orders and directs the to proceed immediately to
	OFS019 and monitor the system. They stark working on jump calculations for that
	system and maneuvering for a jump.
	A light cruiser is completed at sathar SCC#1 (OFS203) and joins SBF-A2.
	SBF-E2 jumps back into OFS020 where they remain near jump speed and begin a high-
	speed transit to SCC#5 (OFS019).
	Five fighters are completed at the PGC shipyards (Gran Quivera, Prenglar) and shuttled
62.000	to Gollwin Academy.
62.089	TG Beta arrives in the K'sta-Kar system from Prenglar and joins PG Vigilant Sethor float TG2 imposite the OFS202 system (Sethor SGC#1) and receive and retained.
	• Sathar fleet TG2 jumps into the OFS203 system (Sathar SCC#1) and receive orders to remain near jump speed and vector to join SBF-A2 which begins acceleration for a jump
	to the Gruna Garu system.
	Assessment of resources and manufacturing capabilities complete, work begins on the
	long process of rebuilding the Terledrom (Fromeltar) starship construction center.
	Two more pilots graduate from the accelerating training program at Gollwin Academy.
	They continue working with the fighters at the academy while two other pilots are sent
	to Triad (Cassidine) to start training with FFC Squadron Eta.
62.090	The assault scout from Minotaur arrives in the Liberty system and joins PG Liberty.
62.091	PG Probe Beta jumps into the OFS019 system. They remain near jump speed as they begin
	working on calculations for a jump back to Kazak and monitoring for sathar signals in the
	system.
62.092	The HSS History's Hope successfully jumps back into the YS14 system completely
	charting the route to that system from YS12. They begin deceleration and jump
	calculations back to YS12 and then a return trip to Scree Fron.

FY	Event
	Calculations complete, PG Probe Delta successfully jumps into the OFS166 system
	containing the neutron star. They begin decelerating and working on calculations for a
	jump back to FS33 while monitoring for sathar signals.
	After only detecting signals from near one of the planets, Spacefleet orders PG Probe
	Beta to cautiously proceed to the inner system and examine exactly what is there. They
	alter their course to slowly drop into the system.
62.093	Deceleration and jump calculations complete, PG Probe Gamma begins accelerating for a
	jump back to the Kisk-Kar system.
62.094	SBF-A2 (1 DD, 2 LC, 1 HC) jump into the Gruna Garu system and begin decelerating
	toward the planet.
	• The Gruna Guru militia detects the inbound sathar ships just hours after they arrive in
	the system. Together with FFC Squadron Theta and the Yazira Squadron of civilian
	privateers, they prepare to defend against the sathar while notifying Spacefleet.
62.095	Sathar SCC#5 detects the inbound assault scouts of PG Probe Beta. The UPF ships notice a
	sharp decrease in transmissions from the planet but little else.
62.096	With the increased security the CNE Group infrastructure rollout has speed up and gone
	much more smoothly. As new areas are provided with service, customers are switching in
	droves away from the high prices of the Groth Energy Corporation.
62.097	Calculations complete, and having not detected any sathar in the system, PG Probe
	Delta begins accelerating for a jump back to FS33.
	The two Spacefleet fighter pilots arrive at Triad (Cassidine).
62.098	PG Probe Gamma successfully jumps back into the Kizk-Kar system and immediately
	begins decelerating and working on calculations for a jump back to FS56.
	Battle of Hargut (Gruna Garu) - UPF forces defeat the invading sathar but at great cost
	including the loss of the station around the planet.
	Five fighters are completed at the CDC (Triad, Cassidine) shipyards.
62.099	PG Probe Beta gets close enough to the planet to begin to detect details and discovers
02.000	what seems to be a starship construction center as well as shuttles going between the
	station and planet. The SCC seems to be currently undefended.
	After several hours of observations, PG Probe Beta begins to accelerate away from the
	planet toward the outer system. They send a subspace radio message back to
	Spacefleet with their report.
	The damaged ships of the Yazira Squadron depart Hargut (Gruna Garu) for Prenglar and
	the shipyards there.
	the shipyards there.
